Mr. Lippert,
The Detroit Fire Department got a call to respond to 8100 Lyndon on 8/18/2011 sometime around 9:00 am. When Lt. McQueen arrived he observed a large amount of unknown chemical in an abandoned commercial building in a residential area. The building was open to trespass. The Detroit Fire Department notified EPA to provide some financial assistance removing the chemicals from the building, securing the building and making the residents in the area safe.
