**URGENT LEGAL MATTER - PROMPT REPLY REQUESTED**  
**VIA ELECTRONIC MAIL**

**NOTICE OF FEDERAL ASSUMPTION OF RESPONSE ACTIVITY**

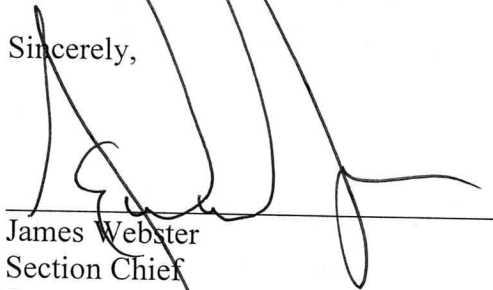

**TO:** Wayne Dickinson

In a letter sent to you via electronic mail on July 11, 2012, the United States Environmental Protection Agency provided you with a Notice of Federal Interest for the Wayne Dickinson Superfund Site, located at 1080 South John Rhodes, Melbourne, Florida (the Site). The EPA has determined that a removal action is required. You have been provided with the opportunity to perform the removal action at the Site, which will include sampling and characterizing the contents of the tractor trailers and properly disposing of the contents. You have informed Chris Russell, the On-Scene Coordinator, that you are unable to perform the removal action.

You are hereby given notice that EPA will conduct certain removal activities at the Site to abate the release or threat of release of hazardous substances, pollutants and/or contaminants, under the authority of Section 104(a) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). Please be advised, as we indicated previously, that potentially liable parties will be asked to pay for costs that EPA incurs in performing removal activities. In the event that a potentially liable party asserts that it is unable to pay the total cost of the removal action, EPA will conduct a financial analysis to evaluate the potentially liable party's ability to pay the costs incurred at the Site.

You may contact Chris Russell by telephone at (850) 274-1575 or at the address below.

Sincerely,

James Webster  
Section Chief  
Emergency Response and Removal Branch  
Superfund Division  
U.S. Environmental Protection Agency  
Region 4  
61 Forsyth Street S.W.  
Atlanta, Georgia 30303
