Re: Baycote Metal Finishing Superfund Site – 1302 Industrial Drive, Mishawaka, IN  
(St. Joseph County) – Return of keys to Site Facility

Dear Mr. Hennessy,

As per a letter of May 7, 2013, from your previous attorney, Ms. Susan M. Franzetti, I am directly contacting you in order to formally return the keys to the above referenced Superfund Site facility. The key set is enclosed. U.S. EPA has completed the removal action at the Site.

This letter in no way relieves you (nor any other identified Potentially Responsible Party) at the Site from its obligations to reimburse the Superfund under the Comprehensive Environmental Response, Compensation and Liability Act, 42 USC Section 9601 et al.

Please feel free to contact me with any comments or questions at 'turner.thoma@epa.gov' or 312/886-6613.

Sincerely,

Tom Turner, U.S. EPA, ORC, Region 5
