Dear Ms. Heard:

This letter acknowledges receipt of your Notice of Intent to Remediate (NIR) on November 1, 2013, pertaining to the subject property and submitted in accordance with the Land Recycling and Environmental Remediation Standards Act (Act 2). The procedures set forth in Act 2 must be followed in order for this site to qualify for the liability protection provided by the Act. The Department of Environmental Protection (DEP or department) will not accept plans and reports until after the 30-day comment period following submission of the NIR ends.

The 30-day comment period following submission of the NIR allows the municipality the opportunity to request to be involved in the development of remediation and reuse plans for the property. If the municipality requests a public involvement plan, any comments and responses must be included in any subsequent reports. Remedial investigation reports, risk assessment reports, cleanup plans, and final reports submitted to the department under the site-specific standard need to be accompanied by the required fees and documentation verifying compliance with the public notification requirements.

Additional technical and program information can be found at [www.depweb.state.pa.us](http://www.depweb.state.pa.us) under the DEP Program "Land Recycling." Also, please refer to the Land Recycling Program checklists which are helpful in assuring reports are complete before submittal. The department uses the checklists to perform administrative and technical completeness reviews when plans and/or reports are submitted. It is strongly encouraged to include the appropriate completed checklist with your final report submission. Land Recycling checklists can be found at the website under the DEP Program "Land Recycling", "Forms & Lists" link.

Please refer to the enclosed Standard Attachment for considerations of other programs which may be applicable to this property.
