

# **Multiple Stakeholder Hattiesburg Derailment Workshop**

## **Workplan Assignments and Proposed Schedule**

The below listed plans have been identified for both creation and presentation during the Multiple Stakeholder Hattiesburg Derailment Workshop in Hattiesburg, MS. Additionally, the groups working on these plans are listed next to the plan.

The morning session of the workshop is a 2 hr co presentation by Arcadis representing CN and EPA/ERT. The presentation is a Crude Oil Response Awareness session. The remaining day and a half is a series of presentations and open discussions of both the plans and the accompanying expected two Incident Action Plans.

Each group will have approximately 30 minutes to 1 hour to present and engage questions. Additional time for discussion will be set aside at the end of each day if needed.

1. Fire Management Plan (Barry Collins, Hattiesburg Fire Chief)
2. Traffic/Site Control Plan (Billy Lane, Hattiesburg Police Major)
3. Initial Site Operations Communication Plan (Forrest County EOC)
4. Evacuation Plan (Forrest County EOC)
5. Air Monitoring Plan (CRA/CN/NOAA)
6. Oil Containment and Recovery Plan (CRA/CN)
7. Shoreline Cleanup Assessment Techniques Report (MDEQ, EPA, CRA)
8. Waste Management Plan (CRA/CN)
9. Operations and Maintenance Plan (CRA/CN/EPA)

The Health and Safety Plan will be developed but not presented (CRA/CN/).

Two Incident Action Plans will be developed primarily by CRA/CN with input from EPA, MDEQ and Forrest County EMA. The plans will be used as a framework to be referred to for the organizational structure, priorities, objectives and tactics used during the workshop. A brief overview will be discussed during the course of the 2 day event.

The proposed agenda is as follows:

### **Day 1**

0800 Breakfast meet and greet  
0900 Crude Oil Awareness/NRT Seminar
