WALLACE ARNOLD, PE, PhD
MANAGER - WASTEWATER PROGRAMS

CHRISTOPHER STANKES
WASTEWATER ENGINEER

December 15, 2016

Paul L. Kahn
Federal On-Scene Coordinator
US Environ. Protection Agency
Region II
Edison, NJ 08837

Dear Mr. Kahn:

At their meeting on December 14, 2016 the Gloversville-Johnstown Joint Sewer Board approved your request for a slow discharge of rinse water collected from the power washing of poly drums at the former Carville Leather site. The rate for disposal of the eight (8) 300-gallon totes is \$0.10/gallon which will be billed to Environmental Restoration, LLC.

I would prefer to have someone from our Monitoring Department on site when the discharge occurs. Please advise when you plan to perform this discharge.

Sincerely,

Wallace Arnold
Manager-Wastewater Programs
