All,

Attached is a Power Point of all the maps that have been produced so far to support vector control efforts. I've also attached our asset map, because I was told it might be useful for you.

Bob Neurath (CDC) is currently working on a map depicting endangered species and environmentally sensitive areas (e.g. state and national parks, wildlife refuges, etc.).

Please don't hesitate to reach out with questions and/or additional requests.

Thanks,
Aja
