Subject: **Phase I Targeted Brownfields Assessment**
Fashions R Boutique Site
Dellwood, St. Louis County, Missouri
U.S. EPA Region 7, START 4, Contract No. EP-S7-13-06, Task Order No. 0002.051
Task Monitors: Todd Davis, Site Assessment Manager
Randolph Brown, On-Scene Coordinator

Dear Mr. Brown:

Tetra Tech, Inc. is submitting the enclosed Phase I Targeted Brownfields Assessment (TBA) report regarding the Fashions R Boutique site (the site or subject property) at 9844 W. Florissant Avenue, Dellwood, St. Louis County, Missouri. The goal of the TBA Phase I is to identify recognized environmental conditions (REC), historical RECs, and controlled RECs associated with the subject property. This TBA Phase I accorded with industry standard practice for Phase I Environmental site Assessments.

If you have any questions or comments regarding this submittal, please call the Project Manager at (618) 925-7761.

Sincerely,

April Halley
START Project Manager

Ted Faile, PG, CHMM
START Program Manager

EXECUTIVE SUMMARY

The Tetra Tech, Inc. (Tetra Tech) Region 7 Superfund Technical Assessment and Response Team (START) was tasked by the U.S. Environmental Protection Agency (EPA) Region 7 Superfund Division to conduct a Phase I Targeted Brownfields Assessment (TBA) and a Phase II TBA at the Fashions R Boutique site (the site or subject property), at 9844 West Florissant Avenue in Dellwood, St. Louis County, Missouri. The City of Dellwood requested EPA to perform Phase I and Phase II TBAs at the subject property.

The site currently hosts no structures and is a partially paved vacant lot. The foundation of a former building is still present at the site. The subject property has historically been occupied by an auto parts store and machine shop. Most recent usage of the subject property was for a clothing boutique store that burned in 2014 (Terracon Consultants, Inc. [Terracon] 2017).

START generally conducted this Phase I ESA in accordance with the *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*, ASTM International (ASTM) designation E 1527-13, and otherwise in compliance with EPA's "All Appropriate Inquiries" Rule (AAI Rule) (40 *Code of Federal Regulations* [CFR] Part 312).

Purposes of the Phase I TBA were to identify recognized environmental conditions (REC), historical RECs (HREC), and controlled RECs (CREC) associated with the subject property, and to identify the nature of contamination and risks posed by the contamination, if present.

Findings and Opinions

The following findings and opinions resulted from the TBA, primarily based on interviews, previous investigations, and examination of historical documentation:

- In a Phase I Environmental Site Assessment (ESA) by Terracon in June 2017, historical use of the site as an auto service and machine shop was considered a REC to the subject property. Following this finding, Tetra Tech conducted a Phase II TBA of the subject property in April 2018 that included soil and groundwater sampling. Anticipated future use of the site was commercial/recreational. Phase II analytical results indicated no exceedance in a soil or groundwater sample of a Missouri Risk-Based Corrective Action (MRBCA) Tier 1 Risk-Based Target Level (RBTL) for non-residential land use, soil type 3, indoor inhalation of vapor emissions; therefore, Tetra Tech concluded that follow-up action appeared unwarranted to address soil and groundwater contamination that might preclude future non-residential use of the property (Tetra Tech 2018). However, concentrations of total petroleum hydrocarbons (TPH) – gasoline-range organics (GRO) in one soil sample and one groundwater sample exceeded MRBCA Tier 1 RBTLs for residential land use, soil type 3, indoor inhalation of vapor emissions. Therefore,

these results pose a REC to the subject property for any future residential use of the subject property.

- Environmental Data Resources, Inc. (EDR) identified the subject property in the Missouri's Site Management and Reporting System (SMARS) and EDR Historic Auto Station databases. These listings prompted the Phase II TBA discussed above.

- Review of city directories identified the subject property address (9844 W. Florissant Ave.) as Dellwood Store and Larry Lampert Auto Stores in 1986 and Carquest Auto and Dellwood Auto Parts in 2001 (EDR 2017f) (see Appendix F). Former presence of auto service facilities on the subject property prompted the Phase II TBA cited above.

- Tetra Tech completed a Tier 1 non-invasive vapor encroachment screen of the subject property. The subject property was identified in the EDR report within the minimum search distances. Based on results of the initial vapor encroachment screen, the subject property was identified in the EDR report as posing a REC because of the possibility of a vapor encroachment condition (VEC) (EDR 2018b) (see Appendix E).

Recommendations

Based on results of this Phase I and Phase II TBA, the subject property has been impacted by past use of the site as an auto service and machine shop. Anticipated future use of the site is commercial/recreational. Based on anticipated future use, as well as natures and levels of analytes detected in soil and groundwater at the site, follow-up action appears unwarranted to address soil and groundwater contamination that would preclude future non-residential use of the subject property because: (1) private water wells identified are more than 0.5 mile north and upgradient of the subject property, and thus groundwater will not be used as drinking water at the subject property; and (2) no analyte concentration in soil and groundwater samples exceeded an RBTL for non-residential use.

1.0 INTRODUCTION

The Tetra Tech, Inc. (Tetra Tech) Region 7 Superfund Technical Assessment and Response Team (START) was tasked by the U.S. Environmental Protection Agency (EPA) Region 7 Superfund Division to conduct a Phase I and Phase II Targeted Brownfields Assessment (TBA) at the Fashions R Boutique site (the site or subject property), at 9844 West Florissant Avenue in Dellwood, St. Louis County, Missouri. The City of Dellwood (the City) requested EPA to perform Phase I and Phase II TBAs at the subject property.

The site currently hosts no structures and is a partially paved vacant lot. The foundation of a former building is still present at the site. The subject property has historically been occupied by an auto parts store and machine shop. Most recent usage of the subject property was for clothing boutique store that burned in 2014 (Terracon Consultants, Inc. [Terracon] 2017).

START conducted this Phase I TBA in accordance with the *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*, ASTM International (ASTM) designation E 1527-13, and otherwise in compliance with EPA's "All Appropriate Inquiries" Rule (AAI Rule) (Title 40 *Code of Federal Regulations* [CFR] Part 312). EPA tasked START to conduct a Phase I TBA of the subject property to identify recognized environmental conditions (REC), historical RECs (HREC), and controlled RECs (CREC) to the subject property, and to identify the nature of contamination and risks posed by the contamination, if present (see Appendix A).

1.1 PURPOSE

A primary goal of this Phase I TBA was to identify RECs, HRECs, and CRECs to the subject property. A REC is presence or likely presence of any hazardous substance or petroleum product in, on, or at a subject property: (1) due to any release to the environment, (2) under conditions indicative of a release to the environment, or (3) under conditions that pose a material threat of a future release to the environment. The term includes hazardous substances or petroleum products, even under conditions in compliance with laws. The term is not intended to include de minimis conditions that generally do not present a material risk of harm to public health or the environment, and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies (ASTM 2013 [Section 1.1.1]). An HREC is a past release of any hazardous substance or petroleum product that has occurred in connection with the subject property and has been addressed to the satisfaction of the applicable regulatory authority, or has met unrestricted use criteria established by a regulatory authority without imposition on the subject property of any required controls (ASTM 2013 [Section 3.2.42]).

A CREC is a REC resulting from past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (ASTM 2013 [Section 3.2.18]).

This Phase I TBA is intended to satisfy one of the requirements for the innocent landowner defense, the contiguous property exemption, and the bona fide prospective purchaser exemption to Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) liability: that is, the practices that constitute "all appropriate inquiry into the previous ownership and uses of the subject property consistent with good customary practice," as defined in 42 *U.S. Code* Section 9601 (35)(B).

1.2 SCOPE OF WORK

EPA developed a scope of work (SOW) for Phase I TBA activities at the subject property. The SOW, based on ASTM designation E1527-13, was to identify RECs, HRECs, and CRECs to the subject property. Phase I ESAs typically are conducted in a four-phase process, including: (1) records review; (2) site reconnaissance; (3) interviews with current and previous owners and occupants of the subject property, adjacent property owners and occupants, and local government agencies; and (4) preparation of a report. The EPA SOW is included as Appendix A.

Any items listed in the ASTM standard that the report does not specifically identify as present can be assumed not present within the subject property or within such distance to the subject property as to be of potential concern to the subject property. Any item mentioned but not specifically identified as a REC, HREC, or CREC can be assumed not a REC, HREC, or CREC.

1.3 SIGNIFICANT ASSUMPTIONS

The following are beyond the scope of this evaluation: sampling and analysis for radon in indoor air, and for lead in drinking water; evaluations of indoor and/or outdoor air quality, regulatory compliance, industrial hygiene, and noise impacts; and identification of geological or geotechnical hazards.

1.4 DEVIATIONS

Deletions or deviations from ASTM E 1527-13 or the SOW are listed below. For each deviation noted, the Tetra Tech Environmental Professional (EP) has conducted an analysis of the data gaps or failures, and impacts of these on Tetra Tech's ability to render an opinion regarding conditions indicative of releases or threatened releases of petroleum products or hazardous substances.

- Time gaps of more than 5 years were noted in available historical information. Documentation and observations indicate that the subject property has been used as a thrift store, auto service and machine shop, and clothing boutique. The EP believes that presence of time gaps does not impact ability to render an opinion regarding RECs.

- No interviews with adjacent property owners were conducted. ASTM Practice E 1527-13 does not require interviews with adjacent property owners unless a property has been abandoned and potential unauthorized uses or evidence of uncontrolled access to the abandoned property is evident. Although the property is vacant and presence of trash indicates uncontrolled access, the EP believes that information obtained from other adjacent property owners or occupants likely would not be additional to that obtained from other resources.

1.5 LIMITATIONS AND EXCEPTIONS

This report was based partially on information supplied to START from outside sources and on other information available in the public domain. Conclusions and opinions reported herein are based on the information START obtained in compiling the report. This information is on file at START's office in Kansas City, Missouri. START makes no warranty as to the accuracy of statements made by others that may be conveyed in the report; nor are any other warranties or guarantees, expressed or implied, included or intended by the report except that it has been prepared in accordance with current generally accepted practices and standards consistent with the level of care and skill exercised under similar circumstances by other professional consultants or firms performing the same or similar services. Because the facts forming the basis for the report are subject to professional interpretation, differing conclusions could be reached. START does not assume responsibility for discovery and elimination of hazards that could cause accidents, injuries, or damage. Compliance with submitted recommendations or suggestions does not assure elimination of hazards or fulfillment of the client's obligations under local, state, or federal laws or any modifications or changes to such laws. None of the work performed hereunder shall constitute or be represented as a legal opinion of any kind or nature, but shall be a representation of findings of fact from records examined.

1.6 SPECIAL TERMS AND CONDITIONS

There were no special terms or conditions for the Phase I TBA.

1.7 STATEMENT OF USER RELIANCE

START is not required to verify independently the information provided to it by the user or gathered throughout the course of this Phase I TBA. For this Phase I TBA, EPA Region 7, the City, and the owner may rely on information provided unless knowledge is possessed that certain information is incorrect based on additional information obtained during the Phase I TBA or otherwise known by the person preparing this report.

2.0 SITE DESCRIPTION

This section briefly describes the subject property and the physical setting based on information obtained from EPA Region 7, City personnel, and a records review prior to the site reconnaissance. Observations during the site reconnaissance regarding current land use at the subject property and adjoining properties are described in Section 4.0.

2.1 SITE LOCATION AND LEGAL DESCRIPTION

The subject property is at 9844 West Florissant Avenue in Dellwood, St. Louis County, Missouri. The site is depicted on the Clayton, Missouri, USGS 7.5-minute topographic series map (USGS 1975), and is just south of the Florissant, Missouri, USGS 7.5-minute topographic series map (USGS 1982) (see Appendix B, Figure 1). Coordinates at the approximate center of the site are 38.7468600 degrees north latitude and 90.2790240 degrees west longitude. The legal description of the approximately 0.55-acre subject property (parcel number 11G111170) is in Attachment 1.

2.2 SITE AND VICINITY GENERAL CHARACTERISTICS

The approximately 0.55-acre site currently hosts no structures and is a partially paved vacant lot. The foundation of a former building is still present at the site. Figure 2 in Appendix B illustrates the approximate footprint of the former building and the site boundaries. The subject property is bounded north by Auto Spa Speedy Wash, a car wash; east by residential housing; south by a vacant lot; and west by West Florissant Avenue, with commercial and retail buildings beyond.

2.3 CURRENT AND PAST USES OF THE SITE

Historical documentation acquired by Environmental Data Resources, Inc. (EDR) indicate that the subject property hosted a bakery and thrift store from at least as early as 1979; an auto parts store and machine shop from at least as early as 1986 to 2001; and a clothing boutique from at least as early as 2006 to 2014. The building on the subject property burned in 2014 during civil unrest (Terracon 2017). The site currently hosts no structures and is a partially paved vacant lot. The foundation of a former building is still present at the site.

2.4 DESCRIPTIONS OF STRUCTURES, ROADS, AND OTHER IMPROVEMENTS ON THE SITE

The site currently hosts no structures and includes a partially paved vacant lot and former building foundation. Surficial materials within the former building foundation includes bare dirt, weeds and

gravel. A paved parking lot surrounds the former building footprint. Substantial portions of the surrounding asphalt are broken and cracked.

2.5 CURRENT AND PAST USES OF ADJOINING/SURROUNDING PROPERTIES

The subject property is bounded north by Auto Spa Speedy Wash and Midas auto tire shop beyond, east by residences with Westdell Dr. beyond, south by a vacant lot with Title Max Loans beyond, and east by West Florissant Avenue and an Urgent Care building beyond.

Review of city directories identified the north adjoining property address (9928 W Florissant Ave.) as Passpoint Gas and Wash Service Station in 1973, Pep Car Wash in 1979, Pep Gas & Washes in 1986, Crown Express Carwash in 2006, and Stripe Enterprises Inc. in 2010.

Review of city directories identified the south adjoining property address (9846 W Florissant Ave.) as Advance Auto Parts from 2001 to 2014. Other areas surrounding the subject property have been used for commercial and residential purposes.

2.6 GEOLOGIC, HYDROGEOLOGIC, HYDROLOGIC, AND TOPOGRAPHIC CONDITIONS

The following sections describe the environmental setting of the subject property and surrounding area.

2.6.1 Topography

The site is depicted on the Clayton, Missouri, USGS 7.5-minute topographic series map (USGS 1975) and is just south of the Florissant, Missouri, USGS 7.5-minute topographic series map (USGS 1982) (see Appendix B, Figure 1). The subject property is approximately 493 feet above mean sea level. The topographic gradient of the area is generally north to south. At the subject property, the topographic gradient and overall slope are generally to the south.

2.6.2 Geologic Setting

The subject property is in St. Louis County in Eastern Missouri. The Fishpot - Urban Land Complex is the most prevalent soil association in the area. Urban land is characterized by extensive development where at least 80 percent (%) of the surface is covered by pavement or structures, and where the underlying soil type has been rendered unidentifiable (Terracon 2017). The Fishpot series consists of very deep, somewhat poorly drained soils formed in silty and loamy material that has been disturbed to depth exceeding 30 inches over alluvial or terrace soils. Non-soil material (such as cinders, broken

bricks, broken concrete) is mixed with the disturbed soil in most places. The buried soil is variable in color, and typically is silty loam or silty clay loam. Slopes range from 0 to 5%. The typical soil profile consists of stratified silty loam to a depth of 60 inches below ground surface (bgs) (U.S. Department of Agriculture [USDA] 1999).

Uppermost bedrock in the area includes the Marmaton Group, which consists of cyclic deposits of shale and limestone with some sandstone and clay. This group also contains several workable coal beds. Beneath the Marmaton Group lies the Cherokee Group, which consists of cyclic deposits of shale, sandstone, clay, and several workable coal beds (United States Geological Survey [USGS] 2017).

2.6.3 Hydrogeology

The site is within the northern portion of the Ozark Plateaus Aquifer system, which consists of three main aquifers. From shallowest to deepest, the three aquifers are the Springfield Plateau aquifer, which consists almost entirely of Mississippian-age limestone; the Ozark aquifer, which mostly consists of Devonian- to Cambrian-age limestone and high-yielding dolomite; and the St. Francois aquifer, which mostly consists of Cambrian-age dolomite and sandstone (USGS 1997). A tributary of Maline Creek is approximately 450 feet south of the site.

Depth to groundwater at the subject property ranges from approximately 7 to 17 feet bgs (Tetra Tech 2018). EDR extracted no data on groundwater flow and velocity. In the absence of site-specific data or other indicators, direction of groundwater flow may be inferred from the regional topographic gradient. Therefore, groundwater flow is inferred to the south in the direction of the topographic gradient.

2.6.4 Hydrology

Runoff from precipitation at the subject property likely flows over paved surfaces toward the south, where it is directed into stormwater drains along roadways.

Three wells are within a 1-mile radius of the site. Two of the wells are private water wells, and one is a USGS Water Science well. However, all three wells are more than 0.5 mile north and upgradient of the site.

3.0 USER-PROVIDED INFORMATION

The following section summarizes information regarding the TBA provided by EPA Region 7 and City representative Mr. Cordaryl Patrick, St. Louis Economic Recovery Coordinator.

3.1 EXISTING STRUCTURE INFORMATION AND DRAWINGS

The subject property currently hosts no structures.

3.2 SUMMARY OF TITLE INFORMATION

The subject property is owned by Fashions R LLC. U.S. Title Records, a START subcontractor, performed a chain of title search pertaining to the subject property (see Attachment 1). The chain of title is summarized in Section 6.2.1.

3.3 ENVIRONMENTAL LIENS OR ACTIVITY AND USE LIMITATIONS

The City representative, Mr. Cordaryl Patrick, was unaware of any information regarding environmental liens or activity and use limitations (AUL) for the subject property. U.S. Title Records, a START subcontractor, performed a search for environmental liens or AULs pertaining to the subject property, and found none (see Attachment 1).

3.4 SPECIALIZED KNOWLEDGE

Terracon completed a Phase I ESA of the site in June 2017. Tetra Tech sampled subsurface soil and groundwater at the site during a Phase II TBA sampling event in April 2018. Both are discussed in Section 6.2.6.

3.5 OWNER, SITE MANAGER, AND OCCUPANT INFORMATION

The subject property is owned by Fashions R LLC and represented by Mr. Cordaryl Patrick, St. Louis Economic Recovery Coordinator. The subject property is currently vacant and unoccupied. Mr. Cordaryl Patrick is considered the key site manager of the subject property.

3.6 REASON FOR PERFORMING PHASE I TBA

This Phase I TBA was requested by EPA to provide an environmental assessment of the subject property. This ESA intends to satisfy one of the requirements for the innocent landowner defense to CERCLA liability: that is, the practices that constitute "all appropriate inquiry into the previous ownership and uses of the property consistent with good customary practice," as defined in 42 *United States Code* Section 9601 (35)(B).

4.0 SITE RECONNAISSANCE

START member Ms. April Halley conducted the site reconnaissance from April 11 through 12, 2018, coinciding with the Phase II TBA. Photographic documentation of the site reconnaissance is in Appendix C.

4.1 METHODOLOGY AND LIMITING CONDITIONS

The site reconnaissance consisted of a visual inspection of the subject property in accordance with requirements set forth in 40 CFR Part 312. The purpose of the reconnaissance of the subject property was to seek out "conditions indicative of releases or threatened releases" as required by ASTM 1527-13. START conducted the reconnaissance of the subject property for evidence of the following:

- Use, storage, treatment, disposal, or generation of hazardous substances, "controlled substances," or petroleum products
- Landfills, dumps, or evidence of burial activities or solid waste disposal
- Aboveground storage tanks (AST), underground storage tanks (UST), drums, or containers capable of storing hazardous substances or petroleum products
- Transformers or other electrical or mechanical equipment potentially containing polychlorinated biphenyls (PCB)
- Evidence of petroleum-based heating fuel sources
- Drains, pits, sumps, cisterns, cesspools, or similar receptacles where liquids drain, collect, or are stored
- Pits, ponds, lagoons, or open pools likely to contain hazardous substances or petroleum products or waste
- Staining on pavement or areas of dead, distressed, discolored, or stained vegetation that may indicate RECs
- Grading or fill material that may indicate contaminated soils or dumping
- Chemical smells, petroleum gases, foul odors, wells, and/or other site-specific environmental conditions.

START mobilized to the subject property to observe current conditions and obtain additional information relevant to the Phase I TBA. START also observed exteriors of adjacent and select nearby properties to assess presence of environmental concerns.

Any items listed in the ASTM method not identified in this section can be assumed not present. Likewise, any item mentioned but not identified as a REC can be assumed not a REC. General recommendations regarding the subject property are offered in Section 8.0.

4.2 GENERAL SITE SETTING

The following sections describe the subject property's current and past uses, and exterior and interior features.

4.2.1 Site Description

The 0.55-acre site currently hosts no structures and is a partially paved vacant lot. The foundation of a former building is still present at the site. The subject property is bounded north by Auto Spa Speedy Wash and a Midas auto tire shop beyond, east by residences with Westdell Dr. beyond, south by a vacant lot with Title Max Loans beyond, and east by West Florissant Avenue and an Urgent Care building beyond. Figure 2 in Appendix B illustrates the subject property location and boundaries. Areas surrounding the subject property are primarily commercial and residential.

4.2.2 Exterior Observations

The subject property currently hosts no structures. A former building foundation is present and clearly visible. Surficial materials within the former building foundation include a mix of gravel, dirt, weeds, and debris. A paved parking lot consisting of broken asphalt surrounds the former building footprint. A fence along the eastern edge of the property separates the site from a residential neighborhood. A slope at the southern portion of the adjacent north property extends considerably downward to the northern edge of the subject property.

4.2.3 Interior Observations

The site currently hosts no structures. No interior observations were conducted.

4.3 SPECIFIC RECONNAISSANCE ITEMS

The following sections are related to items observed during the site reconnaissance.

4.3.1 Hazardous Substances and Petroleum Products

No hazardous substances or petroleum products were observed on the subject property at the time of the site reconnaissance.

4.3.2 Hazardous Waste

No hazardous waste was observed on the subject property during the site reconnaissance.

4.3.3 Landfills, Dumps, Burials, or Solid Waste Disposal

No visual evidence of landfills, dumps, burials, or solid waste disposal was apparent during the site reconnaissance.

4.3.4 Storage Tanks

USTs

No visual evidence of past or present on-site USTs—including pipes, pumps, or stains—was apparent during the site reconnaissance.

ASTs

No visual evidence of past or present on-site ASTs was apparent during the site reconnaissance.

4.3.5 Polychlorinated Biphenyls-containing Equipment

Two pole-mounted electrical transformers were observed near the eastern edge of the subject property. No leaking or staining was observed near the transformers; therefore, they do not pose a REC to the subject property.

4.3.6 Heating, Ventilation, and Air Conditioning System and Fuel Source

No visual evidence of a heating, ventilation, and air conditioning system or fuel source was apparent during the site reconnaissance.

4.3.7 Drains, Sumps, Pools of Liquids, Standing Water, Cisterns, and Cesspools

No sumps, pools of liquid, standing water, cisterns, or cesspools were observed on the subject property at the time of the reconnaissance.

4.3.8 Pits, Ponds, and Lagoons

No pits, ponds, or lagoons were observed during the site reconnaissance.

4.3.9 Stains or Corrosion and Stained Soil or Pavement

No corrosion or stained soil was observed, and no stained pavement was observed during the site reconnaissance.

4.3.10 Areas of Dead, Distressed, Discolored, or Stained Vegetation

No areas of dead, distressed, discolored, or stained vegetation that would indicate RECs were observed on the subject property during the site reconnaissance.

4.3.11 Possible Fill, Grading, or Solid Waste Disposal

No fill, grading, or solid waste disposal was apparent during the site reconnaissance.

4.3.12 Smells of Chemical Gases, Petroleum Products, or Noxious Odors

No smells of chemical gases or petroleum products were noted at the time of the site reconnaissance.

4.3.13 Wastewater and Stormwater Systems and Discharges

Stormwater at the subject property either infiltrates the ground or flows over pavement, and follows the local topographic gradient to the south, where it flows to stormwater drains on surrounding streets.

4.3.14 Wells and Potable Water Supply

No dry, irrigation, injection, abandoned, or other potable water supply wells were observed on the subject property.

4.3.15 Other Site-specific Environmental Conditions

No other site-specific environmental conditions were noted during the site reconnaissance.

4.4 VICINITY RECONNAISSANCE

Areas surrounding the site are primarily occupied by commercial and residential properties. The subject property is bounded north by Auto Spa Speedy Wash and a Midas auto tire shop beyond, east by residences with Westdell Dr. beyond, south by a vacant lot with Title Max Loans beyond, and east by West Florissant Avenue and an Urgent Care building beyond.

5.0 INTERVIEWS

The objective of conducting interviews was to obtain information concerning RECs in connection with the subject property. This information was obtained verbally and in written form, as indicated below. Interviewees were cooperative and forthcoming with information, unless otherwise specified. Interview documentation is in Appendix D.

5.1 INTERVIEW WITH OWNER

The subject property is owned by Ms. Juanita Morris of Fashions R LLC. Ms. Juanita Morris was contacted via phone on June 12, 2018, to discuss the subject property and information pertaining to the User Questionnaire. Per the phone interview, a User Questionnaire was sent via email. To date, no response has been received by Tetra Tech. However, City representative Mr. Cordaryl Patrick, St. Louis Economic Recovery Coordinator, who is familiar with the property, completed a user questionnaire pertaining to the subject property. Mr. Patrick had been told that a former use of the subject property may have been for a drycleaner. However, he had no evidence of this claim. Mr. Patrick was not aware of: (1) any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the subject property; (2) any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property; or (3) any notices from any government entity regarding any possible environmental violations relating to hazardous substances or petroleum products for the subject property. The completed user questionnaire is in Appendix D.

5.2 INTERVIEWS WITH KEY SITE MANAGER

Mr. Patrick is considered the key site manager of the subject property, and was interviewed as described above.

5.3 INTERVIEWS WITH CURRENT OCCUPANTS

Because the subject property is currently unoccupied, interviews with current occupants did not occur.

5.4 INTERVIEWS WITH PAST SITE OWNERS/OCCUPANTS

No interviews were conducted with past subject property owners or occupants, as they probably would not have provided information to Tetra Tech already provided by other sources.

5.5 INTERVIEWS WITH LOCAL/STATE GOVERNMENT OFFICIALS

Tetra Tech conducted an interview via phone with Captain John Fruehwirth of the Metro North Fire Protection District on June 12, 2018. Mr. Fruehwirth indicated that two incidents associated with the subject property were on file. One incident was related to electrical issues and posed no environmental concerns. The second incident was associated with a fire on the subject property in 2014 during civil unrest. Due to high volume of incidents at the time, all were lumped into one large incident report. No other specific information pertaining to the subject property was available.

The north adjoining property was identified in the UST, LUST, and Historic Auto station databases. Removal of six 10,000-gallon gasoline USTs reportedly occurred in October 2003, and the LUST was revealed. A Focused ESA at this property in 2013 identified contaminants in soil and groundwater at concentrations above MDNR's most stringent default target levels. Additional investigative activities occurred, and in February 2016, an analysis report stated that evaluated trends appeared to be stable or decreasing; thus, a No Further Action letter was issued by the Missouri Department of Natural Resources (MDNR). During the Phase I ESA by Terracon in 2017, Mr. Justin Buckler of the MDNR was interviewed to discuss further investigation activities at the north adjoining property. The No Further Action letter had been based on current and future use of the property as non-residential. Mr. Buckler stated that soil samples collected did not identify elevated levels of contaminants in the southern portion of the property (the portion closest to the subject property), and that contamination appeared to be confined within the property boundaries (Terracon 2017). Based on information provided by Mr. Buckler, the north adjoining LUST does not pose a REC to the subject property.

6.0 RECORDS REVIEW

The purpose of the records review was to obtain and review records that would help identify RECs to the subject property.

6.1 ENVIRONMENTAL RECORDS SOURCES

The following sources of environmental records were accessed and reviewed as part of this assessment:

6.1.1 Environmental Database Search

Federal, state, regional, and local records were reviewed to assess whether the subject property or facilities within the approximate minimum search distance had undergone significant unauthorized releases of hazardous substances or other events with potentially adverse environmental effects. EDR performed a database search of the subject property in accordance with ASTM E 1527-13. A copy of this report is in Appendix E.

The databases searched have been developed and are updated by federal, state, and local agencies. While these databases are reliable and comprehensive, instances of data out of date and no longer reflective of actual facility conditions have been reported. The Government Records Searched/Data Currency Tracking section of the EDR report in Appendix E identifies when each database was updated.

The database search identifies properties with environmental records from numerous federal, state, tribal, and local regulatory agencies, and distances of these properties from a specified geographic location (typically the perimeter of the subject property).

Facilities cited in the environmental database are summarized in Table 6-1. The subject property is listed in Missouri's Site Management and Reporting System (SMARS) and by EDR as a historical auto station. These listings are discussed in Table 6-2.

TABLE 6-1

SUMMARY OF REGULATORY AGENCY DATABASE REVIEW

Database Searched	Search Distance (miles)	Subject Property Identified	Number of Other Facilities within Search Distance
Federal Records			
RCRA-CESQG	0.25	No	1
State and Local Records			
MO LUST	0.50	No	4
MO UST	0.25	No	3

MO AUL	0.50	No	1
MO VCP	0.50	No	1
Additional Environmental Records			
RCRA-NonGen/NLR	0.25	No	6
DRYCLEANERS	0.25	No	3
SMARS	0.50	Yes	4
EDR Hist Auto Stat	0.125	Yes	5
EDR Hist Cleaner	0.125	No	2
Total Number of Database Listings*			35

Notes:

* A facility may be listed in more than one database.

AST	Above Ground Storage Tank
AUL	Activity and Use Limitation
CESQG	Conditionally Exempt Small Quantity Generator
Hist	Historical
LUST	Leaking Underground Storage Tank
MO	Missouri
NonGen/NLR	Non Generators/No Longer Regulated
RCRA	Resource Conservation and Recovery Act
SMARS	Superfund, Federal Facility, Brownfields Voluntary Cleanup Program, and Missouri's other state response programs
Stat	Station
UST	Underground Storage Tank
VCP	Voluntary Cleanup Program

START reviewed the facilities listed within the EDR Report (EDR 2018a), as summarized in Table 6-2.

TABLE 6-2

SUMMARY OF REGULATORY AGENCY DATABASE LISTINGS WITHIN APPROPRIATE SEARCH RADII

Distance (miles) from Subject Property	Address	Direction from Subject Property	Facility Name	Database	Current Status	REC to Subject Property? (Basis)
TP	9844 W Florissant Ave.	NA	Fashions R Boutique	SMARS	The facility is listed in the VCP (SM Number 12777). No further information was provided by EDR; see previous reports discussion in Section 6.2.6.	Yes (status)
TP	9844 W Florissant Ave.	NA	Fashions R Boutique	EDR Hist Auto	Listed as a gas station and auto shop from 1986 to 1989. Subsurface soil and groundwater sampling during the Phase II TBA indicated concentrations below MRBCA Tier 1 RBTL for non-residential land use, soil type 3, indoor inhalation of vapor emissions. However, two sample results were above the MRBCA residential land use equivalent. See previous reports discussion in Section 6.2.6.	Yes (based on results from the Phase II TBA sampling event)

TABLE 6-2 (Continued)

SUMMARY OF REGULATORY AGENCY DATABASE LISTINGS WITHIN APPROPRIATE SEARCH RADII

Distance (miles) from Subject Property	Address	Direction from Subject Property	Facility Name	Database	Current Status	REC to Subject Property? (Basis)
<0.125	9928 W Florissant Ave.	North-Northwest	Dellwood Car Wash	MO LUST	The leak was discovered in 2003 during removal, and soil and groundwater contamination were found. Additional investigative activities occurred, and in February 2016, an analysis report stated that evaluated trends appeared to be stable or decreasing, and an NFA letter was issued. During the Phase I ESA by Terracon in 2017, Mr. Justin Buckler of MDNR was interviewed and stated that contamination appeared to be confined within the property boundaries. See interviews with local/state government officials discussion in Section 5.5.	No (status)
				MO UST	Six 10,000-gallon gasoline USTs were reportedly removed in October 2003.	
<0.125	9928 W Florissant Ave.	North-Northwest	Dellwood Car Wash-Citgo	MO AST	All tanks were removed. See interviews with local/state government officials discussion in Section 5.5.	No (status)
<0.125	9928 W Florissant Ave.	North-Northwest	Passpoint Gas & Wash	EDR Hist Auto	The facility was listed as a gasoline station in 1973. A LUST was discovered in 2003, and contamination was found. In 2016, an analysis report stated that evaluated trends appeared to be stable or decreasing, and an NFA letter was issued.	No (status)
<0.125	9806 W Florissant Ave.	South	Frenchie's Quality Cleaner II	Drycleaners	The facility was listed as a drycleaner from 1998 to 2008. No further information was provided by EDR.	No (hydrologically downgradient)

TABLE 6-2 (Continued)

SUMMARY OF REGULATORY AGENCY DATABASE LISTINGS WITHIN APPROPRIATE SEARCH RADII

Distance (miles) from Subject Property	Address	Direction from Subject Property	Facility Name	Database	Current Status	REC to Subject Property? (Basis)
<0.125	9806 W Florissant Ave.	South	Frenchie's Quality Cleaner II	EDR Hist. Cleaner	The facility was listed as a drycleaner from 1998 to 2008. No further information was provided by EDR.	No (hydrologically downgradient)
<0.125	9811 W Florissant Ave.	South-Southwest	O'Reilly Auto Parts Store	RCRA-CESQG FINDS ECHO	Facility is listed in ECHO (FRS ID 110069520922). No violations were reported.	No (status, hydrologically downgradient)
<0.125	9821 W Florissant Ave.	South-Southwest	Better Cleaners	EDR Hist. Cleaner	The facility was listed as a drycleaner in 1961. No further information was provided by EDR.	No (hydrologically downgradient)
<0.125	9961 W Florissant Ave.	North-Northwest	Lou's Service Station	EDR Hist. Auto	The facility was listed as a gasoline station in 1973. The station was approximately 515 feet from the subject property. The site was listed in the VCP database, and a certificate of completion was received in 2004.	No (status)
<0.125	9803 W Florissant Ave.	South-Southwest	Enterprise Leasing	RCRA NonGen/NLR	No violations reported.	No (status, hydrologically downgradient)
<0.125	9801 W Florissant Ave.	South-Southwest	Discount Tire Shop	MO SMARS	The facility is listed in the VCP database (SM Number 12778). No further information was provided by EDR.	No (hydrologically downgradient)
<0.125	9801 W Florissant Ave.	South-Southwest	Romer's Service Station	EDR Hist. Auto	The facility was listed as a gasoline station from 1961 to 2003. No further relevant information was provided by EDR.	No (hydrologically downgradient)
<0.125	9801 W Florissant Ave.	South-Southwest	Romer's Service Station	MO AST	The facility status is inactive. No further information was provided by EDR.	No (hydrologically downgradient)
<0.125	9990 W Florissant Ave.	North	Bill's Automotive	RCRA NonGen/NLR FINDS ECHO	Facility is listed in ECHO (FRS ID 110003956997). No violations were reported.	No (status)
<0.125	9961 W Florissant Ave.	North-Northwest	Mobil Mart	MO AST	The facility is inactive and approximately 530 feet from the subject property. No further information was provided by EDR.	No (status)

TABLE 6-2 (Continued)

Distance (miles) from Subject Property	Address	Direction from Subject Property	Facility Name	Database	Current Status	REC to Subject Property? (Basis)
<0.125	9961 W Florissant Ave.	North-Northwest	Thies Service Station	EDR Hist Auto	The facility was listed as a gasoline service station from 1961 to 1975. The facility was approximately 530 feet from the subject property. The site was listed in the VCP database, and a certificate of completion was received in 2004.	No (status)
<0.125	9961-9995 W Florissant Ave.	North-Northwest	Automotive Service Center-Former	MO AUL MO VCP MO SMARS	The facility is listed in the VCP database (SM Number 11144). The site had several historic uses including a music store, grocery store, an audio and cellular phone store, and an automotive service and filling station. The facility received a certificate of completion on June 14, 2004. The facility has a restrictive covenant in place.	No (status)
0.125-0.25	9799 W Florissant Ave.	South	Carolot Cleaners	RCRA NonGen/NLR FINDS ECHO Drycleaners	Facility operated historically as a drycleaner. Facility is listed in ECHO (FRS ID 110003951901). No violations reported.	No (status, hydrologically downgradient)
0.125-0.25	9995 W Florissant Ave.	North-Northwest	Dellwood Mobil Mart	MO UST	One 20,000-gallon and one 10,000-gallon UST was installed in 2007 and is currently in use. No further information was provided by EDR.	No (status)
0.125-0.25	9995 W Florissant Ave.	North-Northwest	Dellwood Market & Grill (Mobil)	MO AST	The facility is currently active. No further information was provided by EDR.	No (status, distance)
0.125-0.25	1514 Chambers Rd.	North	Valvoline Instant Oil Change	RCRA NonGen/NLR FINDS ECHO	Facility is listed in ECHO (FRS ID 110003969171). No violations reported.	No (status)
0.125-0.25	1471 Chambers Rd.	North-Northwest	Madrid Cleaners	RCRA NonGen/NLR	No violations reported.	No (status)

TABLE 6-2 (Continued)

SUMMARY OF REGULATORY AGENCY DATABASE LISTINGS WITHIN APPROPRIATE SEARCH RADII

Distance (miles) from Subject Property	Address	Direction from Subject Property	Facility Name	Database	Current Status	REC to Subject Property? (Basis)
0.125-0.25	1471 Chambers Rd.	North-Northwest	Nu-Look Cleaners	Drycleaners	The facility was reported as a drycleaner. Dates of operation and status were not provided by EDR, but the facility appears to be in operation currently.	No (status)
0.125-0.25	10000 W Florissant Ave.	North	Wallis Petroleum, L.C.	MO LUST	Two 10,000-gallon gasoline, one 8,000-gallon gasoline, and one 500-gallon waste oil USTs were removed on March 20, 1991, and the facility received an original NFA letter on March 20, 1991. Later, three 12,000-gallon gasoline USTs were removed on October 18, 2007, and a new NFA letter was issued on January 8, 2009.	No (status)
				MO UST		
0.125-0.25	10000 W Florissant Ave.	North	N/A	RCRA NonGen/NLR	No violations reported.	No (status)
0.125-0.25	10000 W Florissant Ave.	North	BP Amoco	AST	The facility is inactive. No other information was provided by EDR.	No (status, distance)
0.25-0.50	1409 Chambers Rd.	Northwest	Energy Express	MO LUST	Two 7,500-gallon gasoline USTs were removed on September 19, 2002. Removal revealed contamination to groundwater; however, continued monitoring showed that that the plume was stable and was continuing to shrink; thus, an NFA letter was issued on August 27, 2007. One 17,000-gallon unspecified constituents UST and one 2,000-gallon diesel UST currently are in use.	No (status)
				MO UST		

TABLE 6-2 (Continued)

6.1.2 Vapor Encroachment Screen

Tetra Tech completed an initial vapor encroachment screen to determine if a vapor encroachment condition (VEC) exists in the subsurface below any proposed subject property structures from hazardous substances, petroleum, and petroleum products that can include volatile organic compounds (VOC), semivolatile organic compounds (SVOC), and inorganic volatile compounds. The Tier 1 non-invasive vapor encroachment screen assessed presence of the chemicals of concern within the following approximate recommended minimum search distances specified in ASTM E 2600-10 *Standard Guide for Vapor Encroachment Screening on Sites Involved in Real Estate Transactions* (ASTM 2010):

Area of Concern Approximate Minimum Search Distances Surrounding the Subject Property (miles)		
Standard Environmental Record Sources (where available)	**Chemicals of Concern**	**Petroleum Hydrocarbon Chemicals of Concern**
Federal NPL	0.33	0.10
Federal CERCLIS	0.33	0.10
Federal RCRA CORRACTS	0.33	0.10
Federal RCRA non-CORRACTS TSD	0.33	0.10
Federal RCRA Generators	Subject Property Only	Subject Property Only
Federal Institutional Control/Engineering Control	Subject Property Only	Subject Property Only
Federal ERNS	Subject Property Only	Subject Property Only
State and Tribal-equivalent NPL	0.33	0.10
State and Tribal-equivalent CERCLIS	0.33	0.10
State and Tribal Landfill or Solid Waste Disposal Sites	0.33	0.10
State and Tribal LUST	0.33	0.10
State and Tribal UST	Subject Property Only	Subject Property Only
State and Tribal Institutional Control/Engineering Control	Subject Property Only	Subject Property Only
State and Tribal Voluntary Cleanup	0.33	0.10
State and Tribal Brownfield	0.33	0.10

Notes:

CERCLIS	Comprehensive Environmental Response, Compensation, and Liability Information System
CORRACTS	RCRA Corrective Action Activity
ERNS	Emergency Response Notification System
LUST	Leaking Underground Storage Tank
NPL	National Priorities List
RCRA	Resource Conservation and Recovery Act
TSD	RCRA Treatment, Storage, and Disposal
UST	Underground Storage Tank

Based on results of the initial vapor encroachment screen, 12 properties, including the target property, were identified within the minimum search distances (EDR 2018b). Based on cleanup status and locations hydrologically downgradient or crossgradient of the subject property, 11 of those listings do not pose a VEC to the subject property. The subject property was identified in the EDR Historic Auto station

and SMARS databases due to historical use of the site as a service station and auto repair shop. Previous use of the subject property as a service station and auto repair shop poses a VEC to the subject property.

6.1.3 Valuation Reduction for Environmental Issues

No information on valuation reduction was provided to Tetra Tech. U.S. Title Records, a START subcontractor, performed a search for environmental liens or AULs pertaining to the subject property, and found none (see Attachment 1).

6.1.4 Engineering and Institutional Controls

As part of the environmental records search by EDR, federal and state databases for institutional and engineering controls were searched, including EPA's Engineering Controls Sites List and Sites with Institutional Controls, and the U.S. Department of the Navy's Land Use Control Information System. One property was identified, a former automotive station, approximately 0.124 mile north-northwest of the subject property (EDR 2018a) (see Appendix E). The site was identified in the Missouri Voluntary Cleanup Program (VCP) database, and a certificate of completion was issued June 14, 2004, along with an AUL.

6.1.5 Title Records

The subject property Parcel 11G111170 (9844 West Florissant Avenue) is currently owned by Fashions R LLC. According to the warranty deed dated July 31, 2003, the subject property was transferred from Galloway Investments Inc., to Fashions R LLC (see Attachment 1).

6.2 HISTORICAL USE INFORMATION REGARDING THE SITE AND ADJOINING PROPERTIES

Historical data regarding the subject property and surrounding area were gathered to determine past uses and evaluate detectable environmental issues that may pose RECs. The following sections describe aerial photographs, Sanborn maps, topographic maps, city directories, and past environmental reports available regarding the subject property. Historical use documentation referenced in the following sections is in Appendix F.

6.2.1 Historical Property Ownership

Table 6-3 lists results from the chain-of-title search pertaining to the subject property (see Attachment 1).

TABLE 6-3

CHAIN OF TITLE SUMMARY

Date Executed	Transaction Description	Type
2/08/1993	Lynn and Debra Sullivan	Warranty Deed
5/28/2002	Lynn and Debra Sullivan/Shelton E Sullivan Trust, to Galloway Investments Inc.	Warranty Deed/ Deed of Trust
7/31/2003	Galloway Investments Inc., to Fashions R LLC	Warranty Deed

According to the chain-of-title search, the subject property was purchased by Fashions R LLC in 2003. No RECs were identified from results of the chain-of-title search.

6.2.2 Sanborn Map Report

EDR searched the complete holdings of the Sanborn Library and LLC collection. Fire insurance maps covering the target property were not found (EDR 2018c) (see Appendix F-1).

6.2.3 Aerial Photographs

START reviewed aerial photographs of the subject property and surrounding area from years 1937, 1941, 1953, 1958, 1965, 1968, 1971, 1974, 1980, 1988, 1991, 1996, 2006, 2009, 2012, and 2016 (EDR 2018d) (see Appendix F-2). Table 6-4 is a summary of information obtained from the aerial photographs.

TABLE 6-4

SUMMARY OF AERIAL PHOTOGRAPHS

Year	Comments
1937	**Subject Property:** The subject property appears to be undeveloped. Due to poor image quality, details cannot be distinguished. **Surrounding Properties:** The subject property is surrounded by predominantly undeveloped and agricultural areas, with a few residential areas. Due to poor image quality, details cannot be distinguished.
1941	**Subject Property:** The subject property appears similar to 1937. **Surrounding Properties:** The subject property appears similar to 1937.
1953	**Subject Property:** The subject property appears similar to 1941. **Surrounding Properties:** The subject property is surrounded by predominantly residential areas, with a few agricultural areas. Due to poor image quality, details cannot be distinguished.

TABLE 6-4 (Continued)

SUMMARY OF AERIAL PHOTOGRAPHS

Year	Comments
1958	**Subject Property:** The subject property appears undeveloped. Due to poor image quality, details cannot be distinguished. **Surrounding Properties:** The subject property is surrounded by predominantly residential areas, with a few commercial and agricultural areas. The north and south adjoining properties appear undeveloped. Due to poor image quality, details cannot be distinguished.
1965	**Subject Property:** The subject property appears to be developed. Due to poor image quality, details cannot be distinguished. **Surrounding Properties:** The subject property is surrounded by predominantly residential and commercial areas. The south adjoining property appears developed. Due to poor image quality, details cannot be distinguished.
1968	**Subject Property:** The subject property appears to be developed with one structure and surrounding parking lot. **Surrounding Properties:** The area surrounding the subject property appears similar to 1965.
1971	**Subject Property:** The subject property appears similar to 1968. **Surrounding Properties:** The area surrounding the subject property appears similar to 1968; however, the north adjoining property appears developed with one structure and surrounding parking lot.
1974	**Subject Property:** The subject property appears similar to 1971. **Surrounding Properties:** The area surrounding the subject property appears similar to 1971.
1980	**Subject Property:** The subject property appears similar to 1974. **Surrounding Properties:** The area surrounding the subject property appears similar to 1974; however, the north adjoining property appears to have an additional structure.
1988	**Subject Property:** The subject property appears similar to 1980. **Surrounding Properties:** The area surrounding the subject property appears similar to 1980.
1991	**Subject Property:** The subject property appears similar to 1988. Due to poor image quality, details cannot be distinguished. **Surrounding Properties:** The area surrounding the subject property appears similar to 1988. Due to poor image quality, details cannot be distinguished.
1996	**Subject Property:** The subject property appears similar to 1991. **Surrounding Properties:** The area surrounding the subject property appears similar to 1991; however, the south adjoining property appears to have no structures.
2006	**Subject Property:** The subject property appears similar to 1996. **Surrounding Properties:** The area surrounding the subject property appears similar to 1996; however, a new structure is apparent on the south adjoining property.
2009	**Subject Property:** The subject property appears similar to 2006. **Surrounding Properties:** The area surrounding the subject property appears similar to 2006.
2012	**Subject Property:** The subject property appears similar to 2009. **Surrounding Properties:** The area surrounding the subject property appears similar to 2009.
2016	**Subject Property:** The subject property no longer has a structure and appears vacant. The former building footprint and surrounding parking lot are visible. **Surrounding Properties:** The area surrounding the subject property appears similar to 2012; however, the south adjoining property no longer has a structure and appears vacant.

Aerial photographs can be used in conjunction with other historical records presented in this section to determine previous land use on the subject property. It appears that the subject property was developed as early as 1965.

6.2.4 Historical Topographic Maps

Topographic maps can be used as indicators of land use and structural changes on the subject property, and thus can help determine historical land use that might pose an environmental issue to the subject property. START reviewed topographic maps of the subject property and surrounding area from years 1933/1935, 1941, 1946, 1947, 1954, 1968, 1974, 1979, 1982, 1993/1994, 1998, and 2015 (EDR 2018e) (see Appendix F-3). Table 6-5 is a summary of information obtained from the historical topographic maps of the subject property and surrounding area.

TABLE 6-5

SUMMARY OF HISTORICAL TOPOGRAPHIC MAPS

Year	Description
1933/1935	**Subject Property:** The subject property appears to be undeveloped. **Surrounding Properties:** Areas surrounding the subject property appear to be sparsely developed. Large developed areas are apparent in the City of Ferguson, west of the subject property.
1941	**Subject Property:** The subject property appears similar to 1933/1935. **Surrounding Properties:** Surrounding properties are similar to 1933/1935.
1946	**Subject Property:** The subject property appears similar to 1941. **Surrounding Properties:** Surrounding properties are similar to 1941.
1947	**Subject Property:** The subject property appears similar to 1946. **Surrounding Properties:** Surrounding properties are similar to 1946.
1954	**Subject Property:** The subject property appears similar to 1947. **Surrounding Properties:** Surrounding areas appear to be largely residential development.
1968	**Subject Property:** The subject property or immediate area appears developed. **Surrounding Properties:** Surrounding properties are similar to 1954.
1974	**Subject Property:** The subject property appears similar to 1968. **Surrounding Properties:** Surrounding properties appear to be largely commercial and residential.
1979	**Subject Property:** The subject property appears similar to 1974. **Surrounding Properties:** Surrounding properties are similar to 1974.
1982	**Subject Property:** The subject property appears similar to 1979. **Surrounding Properties:** Surrounding properties are similar to 1979.
1993/1994	**Subject Property:** The subject property appears similar to 1982. **Surrounding Properties:** Surrounding properties are similar to 1982.

TABLE 6-5 (Continued)

SUMMARY OF HISTORICAL TOPOGRAPHIC MAPS

Year	Description
1998	**Subject Property:** The subject property appears similar to 1993/1994. **Surrounding Properties:** Surrounding properties are similar to 1993/1994.
2015	**Subject Property:** The subject property appears similar to 1998. Structures are not shown on the map. **Surrounding Properties:** Surrounding properties are similar to 1998.

Review of topographic maps did not identify potential source areas or environmental issues; however, topographic maps can be used in conjunction with other historical records presented in this section to determine previous land use on the subject property.

6.2.5 City Directories

Tetra Tech reviewed city directory listings of the subject and nearby properties from years 1946, 1957, 1960, 1965, 1970, 1975, 1980, 1985, 1990, 1992, 1995, 2000, 2005, 2010, and 2014 (EDR 2018f) (see Appendix F-4). Table 6-7 summarizes information found in the city directories. Additional entries on adjoining properties are also listed in Table 6-6; however, due to the large number of entries, only businesses whose normal operations could pose an environmental threat are listed.

TABLE 6-6

SUMMARY OF HISTORICAL CITY DIRECTORIES

Property Address	Property Occupant(s)
Subject Property	
9844 W Florissant Ave.	Colonial Bakery Thrift Stores (1979), Dellwood Store, Larry Lampert Auto Stores (1986), Carquest Auto, Dellwood Auto parts (2001), Fashions R Alterations (2006,2010, 2014)
Nearby Properties	
9901 Florissant Ave.	Thies Alf Mkt. (1949)
9811 W Florissant Ave.	American Lead System, Inc. (1986)
9795 W Florissant Ave.	Bakers Hardware and Paint Co. (1958, 1973)
9799 W Florissant Ave.	Dellwood Cleaners (1958, 1973, 1979), Domino's Pizza (2001, 2006)
9801 W Florissant Ave.	Iseliwood Cities Service Station (1961), Wade S Dellwood Gulf Service Station (1973), Romer Service & Gas Station (1979), U Haul, Romer Oil (1986), Romer's Used Tires (2001), Discount Tires (2006)
9803 W Florissant Ave.	Executive Leasing Co. (1973, 1979), Enterprise (2001, 2006, 2010, 2014)
9806 W Florissant Ave.	Famous Airway Service/Gas Station (1958), Frenchies Quality Cleaner (2001, 2006)
9811 W Florissant Ave.	O'Reilly Auto Parts (2006, 2010, 2014)
9821 W Florissant Ave.	Better Cleaners (1958)
9846 W Florissant Ave.	Advance Auto Parts (2001, 2006, 2010, 2014)
9928 W Florissant Ave.	Passpoint Gas and Wash Service Station (1973), Pep Car Wash (1979), Pep Gas & Washes (1986), Crown Express Carwash (2006), Stripe Enterprises Inc. (2010)

TABLE 6-6 (Continued)

SUMMARY OF HISTORICAL CITY DIRECTORIES

Property Address	Property Occupant(s)
Nearby Properties	
9930 W Florissant Ave.	Kelly Springfield Auto Service (1973 ,197 9, 1986), Auto Tire Care (2001, 2006), Am-Pac Tire Dist. Inc. (2010, 2014)
9947 W Florissant Ave.	Auto Zone (2010)
9990 W Florissant Ave.	Zisser Tire Company (2010, 2014)

City directories can be used in conjunction with other historical records presented in this section to determine previous land use on the site. Review of city directories identified the subject property address (9844 W Florissant Ave.) as Colonial Bakery Thrift Stores in 1979, Dellwood Store and Larry Lampert Auto Stores in 1986, Carquest Auto and Dellwood Auto Parts in 2001, and Fashions R Boutique from 2006-2014. Former presence of auto service facilities on the subject property poses a REC to the subject property.

Review of city directories identified the north adjoining property address (9928 W Florissant Ave.) as Passpoint Gas and Wash Service Station in 1973, Pep Car Wash in 1979, Pep Gas & Washes in 1986, Crown Express Carwash in 2006, and Stripe Enterprises Inc. in 2010. However, due to status (see Section 6.3 Interview with local/state government officials, and Table 6-2), these listings do not pose a REC to the subject property.

Review of city directories identified the south adjoining property address (9846 W Florissant Ave.) as Advance Auto Parts from 2001 to 2014. However, this property was not listed in any database provided by EDR, is hydrologically downgradient of the subject property, and therefore does not pose a REC to the subject property.

6.2.6 Previous Reports

Terracon completed a Phase I ESA of the site on behalf of MDNR in June 2017. The City requested MDNR's assistance because of plans for future commercial/recreational redevelopment at the site. The Phase I ESA identified a REC associated with historical use of the site as an auto service and machine shop (Terracon 2017).

Tetra Tech conducted a Phase II TBA (Tetra Tech 2018) of the subject property in April 2018. Methodologies and results of the Phase II TBA are documented under separate cover. Samples of soil and groundwater were collected during the Phase II TBA to confirm or eliminate RECs, and to identify the nature of contamination (if present) and risks posed by that contamination. All sampling results were compared to (1) MRBCA Lowest Default Target Levels (LDTL), and (2) MRBCA Tier 1 RBTLs for

non-residential land use, soil type 3, indoor inhalation of vapor emissions. Findings and conclusions are as follows:

- Four soil samples contained VOCs at levels above LDTLs. No soil sample contained a polycyclic aromatic hydrocarbon (PAH) at a concentration above an LDTL. One soil sample contained total petroleum hydrocarbons (TPH) – gasoline-range organics (GRO) at a concentration above the LDTL. All soil samples contained arsenic, barium, chromium, and lead at levels above respective laboratory reporting limits; however, those concentrations were comparable to naturally occurring surface soil concentrations within St. Louis County, Missouri (USGS 2018). In no soil sample did an analyte concentration exceed an RBTL for non-residential use.

- Three groundwater samples contained VOCs at concentrations above LDTLs. One sample contained PAHs at a concentration above the LDTL. Two samples contained at least one type of TPH at a concentration above LDTLs. All groundwater samples contained at least one RCRA metal at a concentration above LDTLs. In no groundwater sample did an analyte concentration exceed an RBTL for non-residential use.

- Due to anticipated future use of the site, results were not compared to residential use concentrations. However, one soil sample and one groundwater sample exceeded the MRBCA Tier 1 RBTL for residential land use, soil type 3, indoor inhalation of vapor emissions for TPH-GRO.

Based on analytical results that included detections of analytes within the former building's footprint, a release of solvents, gasoline, and diesel may have occurred due to historical use of the site as an auto service and machine shop. However, Tetra Tech concluded that follow-up action appeared unwarranted to address soil and groundwater contamination that might preclude future non-residential use of the subject property because (1) private water wells identified during the Phase I TBA were more than 0.5 mile north and upgradient of the subject property (Terracon 2017), and therefore groundwater would not be used as drinking water at the subject property; and (2) no analyte concentration in soil and groundwater exceeded an RBTL for non-residential use (Tetra Tech 2018).

7.0 FINDINGS AND OPINIONS

The following findings and opinions resulted from the TBA, primarily based on interviews, previous investigations, and examination of historical documentation:

- In a Phase I ESA by Terracon in June 2017, historical use of the site as an auto service and machine shop was considered a REC to the subject property. Following this finding, Tetra Tech conducted a Phase II TBA of the subject property in April 2018 that included soil and groundwater sampling. Anticipated future use of the site was commercial/recreational. Phase II analytical results indicated no exceedance in a soil or groundwater sample of a MRBCA Tier 1 RBTL for non-residential land use, soil type 3, indoor inhalation of vapor emissions; therefore, Tetra Tech concluded that follow-up action appeared unwarranted to address soil and groundwater contamination that might preclude future non-residential use of the property (Tetra Tech 2018). However, concentrations of TPH-GRO in one soil sample and one groundwater sample exceeded MRBCA Tier 1 RBTLs for residential land use, soil type 3, indoor inhalation of vapor emissions. Therefore, these results pose a REC to the subject property for any future residential use.

- In 2003, a leaking UST was discovered at 9928 W. Florissant Ave., the adjacent upgradient property north of the subject property. Resulting investigations reported both soil and groundwater contamination were present at the 9928 W. Florissant property. In February 2016, an analysis report stated that evaluated trends appeared to be stable or decreasing, and an NFA letter was issued for this property. However, it is possible that the TPH-GRO concentrations reported in soil and groundwater at the subject property (discussed in previous bullet) are attributable to this upgradient source.

- EDR identified the subject property in the SMARS and EDR Historic Auto station databases. These listings prompted the Phase II TBA discussed above.

- Review of city directories identified the subject property address (9844 W Florissant Ave.) as Dellwood Store and Larry Lampert Auto Stores in 1986 and Carquest Auto and Dellwood Auto Parts in 2001 (EDR 2018f) (see Appendix F). Former presence of auto service facilities on the subject property prompted the Phase II TBA cited above.

- Tetra Tech completed a Tier 1 non-invasive vapor encroachment screen of the subject property. The subject property was identified in the EDR report within the minimum search distances. Based on results of the initial vapor encroachment screen, the subject property was identified in the EDR report as posing a REC because of the possibility of a VEC (EDR 2018b) (see Appendix E).

8.0 CONCLUSIONS AND RECOMMENDATIONS

START has performed a Phase I TBA, conforming to the scope and limitations of ASTM E 1527-13, of the subject property at 9844 West Florissant Avenue in Dellwood, Missouri. Exceptions to, or deletions from, this practice are described in Section 1.4 of this report. Based on available information, this assessment has revealed evidence of RECs in connection with the subject property, as described in Section 7.0.

Based on results of this Phase I TBA, the subject property may have been impacted by past use of the site as an auto service and machine shop. Anticipated future use of the site is commercial/recreational. Based on anticipated future use, as well as natures and levels of analytes detected in soil and groundwater at the site, follow-up action appears unwarranted to address soil and groundwater contamination that would preclude future non-residential use of the property because (1) private water wells identified are more than 0.5 mile north and upgradient of the subject property, and therefore groundwater will not be used as drinking water at the subject property; and (2) no analyte concentration in soil and groundwater samples exceeded an RBTL for non-residential use.

9.0 CERTIFICATION STATEMENT

Resumes of the Environmental Assessor who conducted the site reconnaissance and the EP who prepared the report and oversaw completion of this work are in Appendix G. We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in 40 CFR Part 312.10. We have the specific qualifications based on education, training, and experience to assess the nature, history, and setting of the subject property addressed in this report. We have developed and performed all appropriate inquiries in conformance to the standards and practices set forth in 40 CFR 312, and attest to the completeness and accuracy of information in this report.

If you have any questions concerning the findings and conclusions conveyed in this report, please call START Program Manager Ted Faile at (816) 412-1754 or START Project Manager April Halley at (618) 925-7761.

STATEMENT OF WORK

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION VII
11201 Renner Boulevard
LENEXA, KANSAS 66219

January 29, 2018

Tetra Tech, Inc.
415 Oak
Kansas City, Missouri 64106
Attn: Ted Faile

Subject: Contract #EP-S7-13-06, START 4, Subtask under Task Order # **0002.051**; Brownfields Umbrella

Dear Mr. Faile:

Enclosed is the Statement of Work covering: **Fashions R Boutique**—Region 7.

This requirement and its modification have been issued under the **Brownfields Umbrella** in accordance with Contract Clause G.2 entitled "Ordering - By Designated Ordering Officers, Tetra Tech shall provide the undersigned within 10 calendar days, a proposed staffing plan for accomplishing the assigned task within the period specified only if you consider the ceiling price or specified work completion date to be unreasonable. You shall notify the Contracting Officer in writing within 10 calendar days, stating why you consider the price or completion date unreasonable. If the change(s) affect the price, the contractor shall provide a revised cost estimate to the contracting officer. **The amount authorized for this work is $43,686.15**. The total amount shall not exceed **$43,686.15.**

Existing funds are available for use against the umbrella for this subtask. When you have reason to believe that the labor and support costs for this order, which will accrue in the next thirty days, will bring the total cost to over 85% of the ceiling price, you shall notify the Contracting Officer. If you have any questions, please contact me at (913) 551-7204.

Sincerely,

Daniel Beery

Daniel J. Beery
Contracting Officer

I. INTRODUCTION

PURPOSE

Under the authority of legislation, Presidential Directives, and promulgated regulations, EPA is responsible for protecting human health and the environment. EPA is delegated authority to undertake removal and remedial response actions.

The purpose of this Statement of Work (SOW) is for the contractor to provide EPA with technical support. For each assigned task, the contractor shall provide appropriately experienced, trained, and accredited personnel with current credentials/certifications as well as all supplies, materials, tools, and equipment necessary to complete the job.

II. BACKGROUND

Under the authority of legislation, Presidential Directives, and promulgated regulations, EPA is responsible for protecting human health and the environment. EPA is delegated authority to undertake removal and remedial response actions. EPA is responsible for conducting evaluations and cleanups of uncontrolled hazardous substance disposal sites and placing those that are considered to pose a significant threat to human health or the environment on the National Priorities List (NPL). Site assessment is the first step in determining whether a site meets the criteria for placement on the NPL. Listing a site on the NPL is one tool among many that are available to EPA and state cleanup program managers to accomplish the cleanup of contaminated waste sites. For additional information, see EPA OSWER Directive 9203.1-06, "Guidance on Setting Priorities for NPL Candidates sites."

III. TECHNICAL REQUIREMENTS

EPA Targeted Brownfields Assessment
TASK ORDER
Fashions R Boutique
9844 West Florissant Ave.
Dellwood, St. Louis County, Missouri 63135
December 22, 2017

IV. Introduction/Background Discussion

The EPA's Targeted Brownfields Assessment (TBA) program is designed to assist States, tribes and local governments to minimize the uncertainties of contamination often associated with brownfields. TBAs supplement and work with other efforts under EPA's Brownfields Program to promote cleanup and redevelopment of brownfields properties.

The City of Dellwood, Missouri has requested EPA to perform a Phase II Environmental Site Assessment, Analysis of Brownfield Cleanup Alternatives (ABCA) and updated Phase II Environmental Site Assessment for petroleum substances on the Fashions R Boutique property located at 9844 West Florissant Ave, Dellwood, St. Louis County, Missouri.

V. Site Description

The site covers approximately .75 acre and has no structures.

VI. Location

The site area is located at 9844 West Florissant Ave in Dellwood, Missouri

VII. Description and Current Conditions of Sites

The property is currently not in use. The site is a former auto service station and commercial site. Access to the site is being provided through an agreement with the property owner/applicant.

VIII. History of Operation

The referenced property historically was used as an auto repair shop.

IX. 4.0 Summary of Pertinent Previous Investigations

A previous Phase I identified RECS that require further investigation.

X. Scope of Work

The contractor shall perform a Phase II for petroleum and associated materials and complete an Analysis of Brownfield Cleanup Alternatives (ABCA) on the Fashion R Boutique property. The contractor shall meet with the applicant, EPA Region 7 staff, and MDNR, to discuss the site history, the scope of the Phase II Assessment, and the potential or planned future site use.

A completed Property Profile Form for the property will be submitted with the final Report.

XI. Description of Tasks

ASTM/AAI Phase I and Phase II ESA and Reporting

The contractor will conduct the ACM/LBP Survey in accordance with EPA's final regulations governing All Appropriate Inquires (40 CFR 312), ASTM International's E 1527-13 and E1903-97-11 standard for Phase I & II ESAs, the guidance documents listed at the end of this task order or other Professional Standard.

From the information and documents reviewed for Report and inclusive of all EPA comments on the draft report, the contractor shall prepare 3 bound color hard copies and one electronic copy of each Reports covering the individual site and including a property profile form for the site. The report will detail the execution of the site inspections and summarize the findings of the site investigation. All hard copies and the electronic copy will be provided to the EPA Project Contact identified below.

XII. Quality Assurance Project Plan (QAPP)

The Contractor shall prepare a Quality Assurance Project Plan for the environmental assessment. If structures are found on the property the QAPP may include lead based paint and asbestos surveys. The QAPP shall present the objectives, organization,

activities, and quality control procedures that will be employed to ensure that all technical data generated during the assessment and the asbestos and lead-based paint surveys are accurate and representative of the conditions at the project site. The QAPP shall contain a Title and Approval Page. A draft version of the QAPP shall be submitted to the EPA Task Order Project Officer (TOPO) and must be approved by the EPA TOPO prior to conducting the surveys. Electronic submittal is acceptable for the QAPP. For guidance on creating a QAPP, refer to the guide EPA Requirements for Quality Assurance Project Plans (QA/R-5) found at: http://www.epa.gov/quality/qs-docs/r5-final.pdf

XIII. Project Schedule

The contractor will submit to the EPA Project Contact identified below an electronic copy of a 90% draft submittal of the site investigation reports within 60 days from the date the sites are assigned to the contractor.
Comments will be made and returned to the contractor within 60 business days.
The final deliverables as described above are due 30 business days after EPA provides comments on the draft reports.

XIV. 8. Project Contacts

Todd H. Davis, Site Assessment Manager, EPA Region 7
Phone: 913-551-7749
Email: davis.toddh@epa.gov
Address: US EPA Region 7
Todd H. Davis
11201 Renner Blvd
Lenexa, KS 66219

XV. DOCUMENTATION REQUIREMENTS

In the course of performing tasks identified in this SOW, the contractor shall submit all analyses, options, recommendations, reports, and any other work products in draft

form for review by the Contracting Officer (CO) or the Contracting Officer's Representative (COR) prior to use or distribution.

The contractor shall not publish, release, use, or disclose any work product generated under this SOW without EPA's written approval; interpret EPA policies or regulations when conducting any training, seminars, or presentations; and/or provide any legal advice or legal interpretations.

The Government will make all final regulatory, policy, and interpretative decisions resulting from contractor provided advice and assistance; and will also make all final decisions regarding compliance determinations, or the violations of an order, law, regulation, etc.

The contractor shall submit documents that demonstrate a good command and correct usage of the English language (e.g, discussion of facts flow in a coherent and organized manner); use proper grammar (noun and verb tense correspond, etc.); and are free of incomplete sentences and misspelled words.

For deliverables that contain recommendations, the contractor shall explain or rank policy; explain or rank alternative actions; describe procedures used to arrive at recommendations; summarize the substance of deliberation; report any dissenting views; and cite sources relied upon.

4a	Did you observe evidence or do you have any prior knowledge that the property has been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment storage, disposal, processing, or recycling facility? (If applicable, identify which.)		x					x			I was told that it may have been used as a cleaners before. However, I have no evidence of that. - C. Patrick Historical records state that the subject property was previously an auto service and machine shop.- A. Halley
4b	Did you observe evidence or do you have any prior knowledge that the adjoining property has been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment storage, disposal, processing, or recycling facility? (If applicable, identify which.)		x					x			Historical records state that the north adjoining property was a gasoline station. It is now a car wash. - A. Halley
5a	Are there currently any damaged or discarded automotive or industrial batteries, pesticides, paints or other chemicals in individual containers of > 5 gal (19 L) in volume or 50 gal (190 L) in the aggregate, stored on or used at the property or at the facility?		x						x		
5b	Did you observe evidence or do you have any prior knowledge that there have been previously any damaged or discarded automotive or industrial batteries, pesticides, paints or other chemicals in individual containers of > 5 gal (19 L) in volume or 50 gal (190 L) in the aggregate, stored on or used at the property or at the facility?		x						x		
6a	Are there currently any industrial drums (typically 55 gal (208 L)) or sacks of chemicals located on the property or at the facility?		x						x		
6b	Did you observe evidence or do you have any prior knowledge that there have been previously any industrial drums (typically 55 gal (208 L)) or sacks of chemicals located on the property or at the facility?		x						x		
7a	Did you observe evidence or do you have any prior knowledge that fill dirt has been brought onto the property that originated from a contaminated site?		x						x		
7b	Did you observe evidence or do you have any prior knowledge that fill dirt has been brought onto the property that is of an unknown origin?		x						x

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA generators list

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 12/11/2017 has revealed that there is

EXECUTIVE SUMMARY

1 RCRA-CESQG site within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/11/2017 has revealed that there are 6 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 4 EDR Hist Auto sites within approximately 0.125 miles of the target property.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 2 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

General Comments:	CONTAMINATION > DTLS. 2/5/13 MAD- Received Focused Environmental Site Assesemnt. Contamination in gorundwater (MW-2) and soil (MW1 and MW-2) above DTLs and residential RBTLs. Results confirm presnece of contamination found in Feb 2004 closure report (what opened R), and sent response requesting RAFU, eco checklist, land use maps, domestic use evaluation, Risk assesment, plume stability analysis 07/17/13 - JB - Requested additional delineation of soil and groundwater, ecological checklist, additional information regarding domestic use pathways, boring logs, RAFU documentation for off-site properties, and a risk assessment in 60 days. 12/30/13 vg rev response letter and additional information. Need additional information to support RAFU & DU determinations. Also requested risk assessment and plume stability evaluation. 08/29/14 - JB - Reviewed RA, did not agree with DU evaluation for multiple reasons, identified multiple data gaps for evaluation of risk at the site and requested a WP to fill these data gaps within 60 days. 01/27/15 - JB - Reviewed response letter. Plume stability evaluation (well-by-well) showed increasing trend in MW-1 need more data. Report did not address soil or groundwater evaluation data gaps (north of tank pit and at dispenser islands). Requested WP in 60 days. 08/03/15 - JB - Received phone call from property owner and discussed the site and the process. Commited to reviewing draft work plan. 08/05/15 - JB- Reviewed WP submitted by e-mail for additional SB/MWs in area of tank pit and dispenser island, vadose zone sample near MW-1, additional GWM in MW-1 and new monitoring wells. Approved with modifications that additional GWM would be needed in new wells if COCs were above detection limits and that additional GWM is needed in MW-2. Requested report detailing scope of work within 90 days. 02/16/16 - JB - Reviewed PS analysis report. Agree that all evaluated trends appear to be stable or decreasing recommend NFA. 2/22/16 Issued NFA

Site Description: The subject property, 9961-9995 West Florissant, served as music, grocery, audio and cellular phone store during historic site operations. The property at 9961 West Florissant served as an automotive service and filling station from 1949, which is the earliest known date, to at least 1979, which is the latest known date. Prior to these operations it is believed that the subject site was undeveloped. Surrounding properties, as well as the subject site, have operated in the past as automotive service and filling stations. Underground storage tanks have been associated with these operations. A site investigation conducted in September 2003 by Wellington Environmental revealed impacted subsurface soils and groundwater by petroleum milligrams per kilogram for total petroleum hydrocarbons-gasoline range organics (TPH-GRO). Additional BTEX (benzene, toluene, ethylbenzene and xylene) and diesel range organics were detected, but at levels well below anticipated site cleanup objectives. As a part of the investigation, shallow groundwater samples were collected from what is assumed to be open boreholes. Low-levels of MTBE (methyl tertiary-butyl ether) and TPH-GRO were detected in the on-site groundwater.
Contaminant: Petroleum - misc

General Comments:	Response to closure response - closure items met - contamination on site to be handled by remediation - 08-15-03 KMT 12/17/03 kk rev work plan dated 5/23/03. Approved plan with modification that only 4 should be converted to wells other 4 should be peizometers 11-23-04 FJH receives call from Jeff Langston. He will submit revised wp for site char to include MRBCA parameters and risk assessment, etc. Assigned to Dave W 5-2-05; LJB, Reviewed WP for site characterization: 8 borings completed as MWs. Approved with MODs: 1) 4-inch MW not needed for slug test, can use 2-inch; 2) Need to review COCs guidance, analyzing for PAHs but not GRO or ORO not appropriate; 3) need soil type determination. 5/10/07 MA rev second event GWM report. Petroleum constituents are exceeding DTLs in MW-3 but below the Tier 1 RBTLs. Concurred with recommendation to continue monitoring plume stability. 8/15/07 MA rev a Tier 1 MRBCA report and a groundwater monitoring report. Based on information submitted, the remianing impact in soil is below the soil type 2 RBTLs for non-residential land use property. The groundwater plume is stable and continues to shrink. The groundwater flow

ENERGY EXPRESS #1315 (Continued) **U003301613**

direction is to the southwest. Issued a NOFA letter. Site Information: Soil Type 1 Completed Tier 1/Tier 2 risk assessment The site is non-residential AUL is not warranted at this time. The extent of impact is confined to the site. The perched saturated aquifer thickness is not a sufficient thickness for domestic use The extent of impact is delineated on site. No off-site impact was identified. Groundwater flow to the southwest direction. 12/6/07 PSTIF approved cost for monitoring well abandonment.

General Comments:	Contamination > DTLs Outstanding Closure Issues 5/26/2015 AS reviewed file. 8/31/2000 AGO successfully obtained judgment against RP Frank Falzone. However, the judge is unwilling to enforce the judgment, and the AGO determined there is no possibility of further resolution to the case on 6/3/2010. Therefore, an abandoned site memo was drafted.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 12/11/2017
Date Data Arrived at EDR: 12/22/2017
Date Made Active in Reports: 01/05/2018
Number of Days to Update: 14

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 12/11/2017

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 12/11/2017

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 11/07/2016
Date Data Arrived at EDR: 01/05/2017

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

State and tribal Brownfields sites

BROWNFIELDS: Brownfields Site List

Brownfields are sites where redevelopment and reuse is hampered by known or suspected contamination with hazardous substances. While many brownfield sites are minimally contaminated, potential environmental liability can be a problem for owners, operators, prospective buyers and financial institutions. Because of the large number of these sites, their economic impact especially in heavily industrial areas is substantial.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 02/22/2018

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Version Date:	2015
North Map:	6727158 FLORISSANT, MO
Version Date:	2015

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

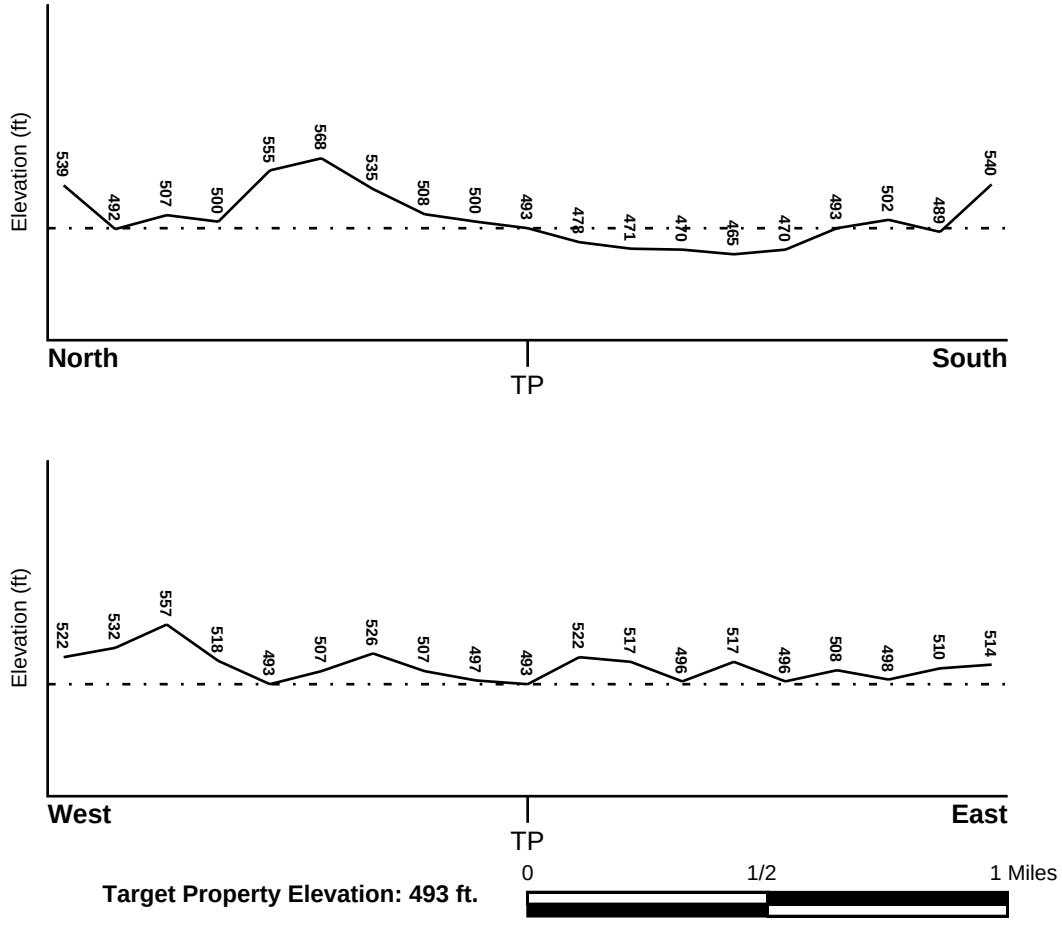
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General South

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
2903850050C	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
29189C0068K	FEMA FIRM Flood data
29189C0069K	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
CLAYTON	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Fishpot

Soil Surface Texture: silt loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Somewhat poorly drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 107 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	46 inches	silt loam	Not reported	Not reported	Max: 4 Min: 1.4	Max: 7.3 Min: 5.6
2	46 inches	59 inches	silt loam	Not reported	Not reported	Max: 4 Min: 1.4	Max: 7.3 Min: 5.6

Soil Map ID: 2

Soil Component Name: Urban land

Soil Surface Texture: silt loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class:
Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

No Layer Information available.

Soil Map ID: 3

Soil Component Name: Urban land

Soil Surface Texture: silt loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class:
Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

No Layer Information available.

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: National Wetland Inventory of Missouri
Source: Department of Natural Resources
Telephone: 573-751-5110

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Missouri Public Drinking Water Wells
Source: Department of Natural Resources
Telephone: 573-526-5448

OTHER STATE DATABASE INFORMATION

Oil and Gas Well Database
Source: Department of Natural Resources
Telephone: 573-368-2143

RADON

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater
Source: Department of Commerce, National Oceanic and Atmospheric Administration

Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary faultlines, prepared in 1975 by the United State Geological Survey

Site Affectd By Funding Level From PSTIF:	Not Reported
General Comments:	CONTAMINATION > DTLS. 2/5/13 MAD- Received Focused Environmental Site Assesemnt. Contamination in gorundwater (MW-2) and soil (MW1 and MW-2) above DTLs and residential RBTLs. Results confirm presnece of contamination found in Feb 2004 closure report (what opened R), and sent response requesting RAFU, eco checklist, land use maps, domestic use evaluation, Risk assesment, plume stability analysis 07/17/13 - JB - Requested additional delineation of soil and groundwater, ecological checklist, additional information regarding domestic use pathways, boring logs, RAFU documentation for off-site properties, and a risk assessment in 60 days. 12/30/13 vg rev response letter and additional information. Need additional information to support RAFU & DU determinations. Also requested risk assessment and plume stability evaluation. 08/29/14 - JB - Reviewed RA, did not agree with DU evaluation for multiple reasons, identified multiple data gaps for evaluation of risk at the site and requested a WP to fill these data gaps within 60 days. 01/27/15 - JB - Reviewed response letter. Plume stability evaluation (well-by-well) showed increasing trend in MW-1 need more data. Report did not address soil or groundwater evaluation data gaps (north of tank pit and at dispenser islands). Requested WP in 60 days. 08/03/15 - JB - Received phone call from property owner and discussed the site and the process. Commited to reviewing draft work plan. 08/05/15 - JB- Reviewed WP submitted by e-mail for additional SB/MWs in area of tank pit and dispenser island, vadose zone sample near MW-1, additional GWM in MW-1 and new monitoring wells. Approved with modifications that additional GWM would be needed in new wells if COCs were above detection limits and that additional GWM is needed in MW-2. Requested report detailing scope of work within 90 days. 02/16/16 - JB - Reviewed PS analysis report. Agree that all evaluated trends appear to be stable or decreasing recommend NFA. 2/22/16 Issued NFA

Operable Unit:	Automotive Service Center - Former
Site Description:	The subject property, 9961-9995 West Florissant, served as music, grocery, audio and cellular phone store during historic site operations. The property at 9961 West Florissant served as an automotive service and filling station from 1949, which is the earliest known date, to at least 1979, which is the latest known date. Prior to these operations it is believed that the subject site was undeveloped. Surrounding properties, as well as the subject site, have operated in the past as automotive service and filling stations. Underground storage tanks have been associated with these operations. A site investigation conducted in September 2003 by Wellington Environmental revealed impacted subsurface soils and groundwater by petroleum milligrams per kilogram for total petroleum hydrocarbons-gasoline range organics (TPH-GRO). Additional BTEX (benzene, toluene, ethylbenzene and xylene) and diesel range organics were detected, but at levels well below anticipated site cleanup objectives. As a part of the investigation, shallow groundwater samples were collected from what is assumed to be open boreholes. Low-levels of MTBE (methyl tertiary-butyl ether) and TPH-GRO were detected in the on-site groundwater.

FINDS: Other Ascertainable Records

Registry ID: 110003951901

Environmental Interest/Information System:

The MO-DNR (Missouri Department of Natural Resources) program involves a Resource Assessment and Monitoring Program, biological criteria development, monitoring of targeted sites to determine compliance with the designated use of aquatic life protection in the standards, monitoring for 303(3) purposes, and the development of a stream classification framework.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

The FINDS: database contains 0 additional records for this site. Please contact your EDR Account Executive for more information.

Facility Sent To State Archive:	No
Date Remediation Unit Closed The File:	Not Reported
Site Affectd By Funding Level From PSTIF:	No
General Comments:	Response to closure response - closure items met - contamination on site to be handled by remediation - 08-15-03 KMT 12/17/03 kk rev work plan dated 5/23/03. Approved plan with modification that only 4 should be converted to wells other 4 should be peizometers 11-23-04 FJH receives call from Jeff Langston. He will submit revised wp for site char to include MRBCA parameters and risk assessment, etc. Assigned to Dave W 5-2-05; LJB, Reviewed WP for site characterization: 8 borings completed as MWs. Approved with MODs: 1) 4-inch MW not needed for slug test, can use 2-inch; 2) Need to review COCs guidance, analyzing for PAHs but not GRO or ORO not appropriate; 3) need soil type determination. 5/10/07 MA rev second event GWM report. Petroleum constituents are exceeding DTLs in

ENERGY EXPRESS #1315, 1409 CHAMBERS RD, DELLWOOD, MO 63135 (Continued)

MW-3 but below the Tier 1 RBTLs. Concurred with recommendation to continue monitoring plume stability. 8/15/07 MA rev a Tier 1 MRBCA report and a groundwater monitoring report. Based on information submitted, the remianing impact in soil is below the soil type 2 RBTLs for non-residential land use property. The groundwater plume is stable and continues to shrink. The groundwater flow direction is to the southwest. Issued a NOFA letter. Site Information: Soil Type 1 Completed Tier 1/Tier 2 risk assessment The site is non-residential AUL is not warranted at this time. The extent of impact is confined to the site. The perched saturated aquifer thickness is not a sufficient thickness for domestic use The extent of impact is delineated on site. No off-site impact was identified. Groundwater flow to the southwest direction. 12/6/07 PSTIF approved cost for monitoring well abandonment.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Tetra Tech EMI were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Tetra Tech EMI were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1930 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

RESUMES

TETRA TECH

TED M. FAILE, PG, CHMM
Program Manager

EXPERIENCE SUMMARY

Mr. Faile has 32 years of managerial and technical experience in the environmental industry, specializing in the field of hazardous waste. He has served as Contract Manager for multi-million dollar contracts with federal and municipal agencies, and as Project Manager on pre-remedial, design and remediation/removal projects ranging in value from under $100 thousand to over $3 million. He has managed office groups of up to 35 technical personnel and has also managed multiple, concurrent projects involving 20 to 25 personnel and numerous subcontractors. As a registered professional geologist, his field expertise includes the design and installation of monitoring, injection and extraction wells, the completion of various aquifer tests, and the completion of geophysical surveys.

At Tetra Tech, Mr. Faile currently serves as the Program Manager on the $54 million USEPA Region 7 START 4 contract. Aside from his contract management responsibilities, Mr. Faile also manages numerous projects under START 4 and other contracts within Tetra Tech's Kansas City office.

RELEVANT EXPERIENCE

Program/Client Management

Program Manager, START 4 Contract, USEPA Region 7, 2013 – Present. Mr. Faile serves as Program Manager for a $54M START contract with Region 7 EPA. This work includes 24-7 emergency response/counter-terrorism readiness, site assessments, removal action and removal assessments, preparedness and prevention activities, Oil Pollution Act (OPA)-related activities, remedial investigations, feasibility studies, and other technical support. As Program Manager, Mr. Faile communicates regularly with EPA management and task order monitors, prepares task order cost estimates, assigns resources, directs work, tracks expenditures at the contract level as well as on individual task orders, prepares monthly technical and financial documents summarizing all contract activity, manages multiple team subcontractors, and provides technical quality control oversight on all assignments.

Program Manager, Environmental Management Services, General Services Administration Heartland Region, 2010 – 2016. Mr. Faile served as the Program Manager on this multiple task order contract for environmental management services at the Bannister Federal Complex (BFC) in Kansas City, Missouri and the Goodfellow Federal Center (GFC) in St. Louis, Missouri. Under this contract, Mr. Faile prepared cost and technical proposals, assigned resources, reviewed deliverables and tracked costs and schedules to ensure compliance with statements of work and approved project budgets. Task orders included preparing work plans and QAPPs for review by state and federal regulators, and performing oversight and management of GSA contractors to ensure compliance with these planning

documents. Investigation methods addressed by these documents included indoor air sampling for uranium, beryllium, yttrium and other compounds; sub-slab vapor sampling for VOCs; soil and groundwater sampling; and inspection of HVAC systems. In association with these investigation activities, Tetra Tech also provided risk assessment support to evaluate potential exposure pathways and risks to human health.

Also under this contract, Tetra Tech prepared a database for GSA containing information on hundreds of historical environmental investigations at the BFC. Tetra Tech reviewed and summarized all reports associated with these investigations, and then designed the database to include these summaries, along with separate fields for specific contaminants and building locations (there are over 100 buildings at the BFC) to allow quick reference to key information. The database also contains links to the original reports, figures, and other auxiliary files and serves as a complete reference tool for the environmental history at BFC.

At the GFC in St. Louis, MO, a 64-acre multi-building complex, Tetra Tech prepared a similar database for past environmental investigations. These investigations were related to the facility's past history as the former Saint Louis Ordnance Plant (SLOP), a weapons manufacturing facility. Tetra Tech then completed an Occupational Exposure Study (OES) based upon this historical environmental data as well as additional on-site sampling of indoor air, indoor dust (wipe sampling), groundwater and soil. These samples were analyzed for lead and other heavy metals, volatile organics, PCBs and other contaminants throughout the complex. Based on results of the OES, Tetra Tech developed work plans for a facility-wide remedial investigation (RI) to further characterize soil and groundwater contamination identified during the OES. The RI was completed in September 2016.

Program Manager, START 3 Contract, USEPA Region 7, 2005 – 2013. Mr. Faile served as Program Manager for a $62M START contract with Region 7 EPA. This work includes 24-7 emergency response, support on PRP and EPA-lead removal projects, and a large variety of pre-remedial projects including removal assessments, Pre-CERCLIS site assessments, preliminary assessments, site investigations, expanded site investigations, HRS packages, and file reviews. As Program Manager, Mr. Faile communicated regularly with EPA management and task order monitors, prepared task order cost estimates, assigned resources, directed work, tracked expenditures at the contract level as well as on individual task orders, prepared monthly technical and financial documents summarizing all contract activity, managed multiple team subcontractors, and provided technical quality control oversight on all assignments. Under this contract he was also responsible for directing work on numerous task orders funded through the American Recovery and Reinvestment Act (ARRA). Mr. Faile prepared scopes of work and firm fixed price costs estimates for these task orders, and directed all associated technical work and ARRA reporting requirements.

Program Manager, Security and Homeland Defense Contract, USACE, Kansas City District, 2003 – 2007. Mr. Faile served as the Program Manager on this $15M contract for projects related to domestic counter-terrorism, force protection, and homeland security. This contract was for both military and civil works assess-design-build projects, and included security engineering and vulnerability surveys for counter-terrorism and force protection. Specific services included studies, investigations, reports, design and construction/modification of new or existing facilities, and analysis of structural and mechanical systems using computer models. As Program Manager, Mr. Faile prepared cost estimates, assigned resources, tracked expenditures on a site-specific basis, and communicated regularly with Kansas City District personnel.

Projects completed include the clean-up and modification of an existing indoor shooting range at Picatinny Arsenal, New Jersey. The range was be modified to allow local law enforcement and military personnel to conduct various counter-terrorism exercises. Also under this contract, Tetra Tech designed and installed numerous security improvements at multiple reservoir sites in Kansas, Missouri and Iowa. Security improvements installed under this contract included motion detectors, camera surveillance CCTV systems, magnetic card readers, vehicle barriers, hardened doors, gates and fencing. In addition, Tetra Tech was tasked to prepare a Rapid Recovery Plan (RRP) for each of these same reservoirs. The RRP included procedures describing levels of authority, lines of communication, and specific actions required to respond to situations such as bomb threats,

terrorist attacks, and other nuclear, biological or chemical threats. The RRPs also included recommended stockpile requirements for use in an emergency and lists of local contractors qualified to make emergency repairs.

Program Manager, START 2 Contract, USEPA Region 7, 2000 – 2006. Mr. Faile served as Deputy Program Manager and Program Manager (final year of contract) for a $30M START contract with Region 7 EPA. This work included 24-7 emergency response, support on PRP and EPA-lead removal projects, and a large variety of pre-remedial projects including removal assessments, Pre-CERCLIS site assessments, preliminary assessments, site investigations, expanded site investigations, HRS packages, and file reviews. Mr. Faile prepared cost estimates, directed work, tracked expenditures on a site-specific basis, and provided technical quality control oversight on all assignments.

Program Manager , General Environmental Services Contract, City of Kansas City, Missouri, 1998 – 2006. Mr. Faile was the Contract Manager for TtEMI's $5M environmental services contract with the City of Kansas City, Missouri (KCMO). This contract covers a broad range of services including site investigation, removal/remediation and disposal. Projects completed under this contract include a large-scale pilot test at the City's top priority Brownfields site, the Riverfront Park Development project; area-wide Phase 1 Environmental Site Assessments (ESA); Phase 2 ESAs; the closure of underground storage tank (UST) sites; excavation and disposal of contaminated soil; and the characterization and disposal of abandoned drums and lab pack chemicals.

At the Riverfront Park site, Mr. Faile managed a pilot project to determine the most cost effective means of removing or recycling all construction debris (approximately 250,000 cubic yards) at this former dumping ground. The debris included tires, asbestos-containing materials (ACM), asphalt, treated lumber, rock, re-enforced concrete and soil. During the pilot test, approximately 13,000 cubic yards of material was removed from a test trench extending across the entire disposal area to help characterize the types of debris. The debris was segregated as necessary, and all non-hazardous materials were screened and crushed on-site, then stockpiled for future site development activities. Re-bar and scrap metal stockpiles were taken off-site for recycling. Asbestos-containing materials (ACM), tires and other potentially hazardous materials were identified at the point of excavation and disposed of separately. Under a separate contract, Mr. Faile helped prepare a bid package for the full-scale remediation project, and provided construction management during the full-scale construction activities.

As Contract Manager, Mr. Faile provided oversight for the completion of large-scale area-wide Phase 1 ESAs for Beacon Hill and the Truman Corridor, in support of KCMO's redevelopment program. These two areas consisted of over 500 properties combined, including several closed and operating gasoline service stations, dry cleaning facilities, and automotive repair shops. The scope of work for each area-wide ESA included visits to each property within the study areas; an off-site reconnaissance of adjoining properties outside of the study areas; interviews with owners or occupants of facilities within the study areas; a regulatory record review; and a review of the site use history.

Under this contract, Mr. Faile also managed a large UST closure at a former service station located at the intersection of Vivian Road and North Oak Trafficway. The former station had multiple previous owners and had been closed for over ten years. A total of eight gasoline, diesel, and waste oil USTs were removed, cleaned and disposed of in accordance with State UST guidance and regulations. Over-excavation and confirmation sampling (with 24-hour turnaround) were conducted over several days. Ultimately, Tetra Tech removed and disposed of over 2,000 cubic yards of soil containing TPH concentrations above the State action levels. Tetra Tech was then retained to complete extensive site restoration activities for the development of a city park at this site.

Client Manager, Atchison Steel Casting & Machining, Atchison, Kansas, 1998 – 2006. Mr. Faile has managed over 20 projects with this industrial client, which operates dozens of foundries and support facilities worldwide. He has managed the completion of SPCC plans for multiple facilities; completed a Landfill Operations Plan, including closure design, for Atchison's industrial landfill; conducts routine groundwater monitoring at the landfill and other Atchison facilities; conducted stack sampling for an incinerator at the Atchison foundry; and has

completed extensive subsurface investigations to delineate soil and groundwater contamination at multiple facilities.

Mr. Faile directed a fast-track response effort for this client when it was discovered that some of the baghouse dust from this facility was failing TCLP for chromium. Mr. Faile procured HEPA vacuum equipment and analytical services to containerize and characterize dust from the baghouse and assisted the client in determining the appropriate disposal options for this hazardous waste. Approximately 200-300 drums of baghouse dust were containerized and disposed of during this effort.

Mr. Faile managed another rapid response effort for this client when it was discovered that a large release of machine oil had occurred underneath a machine shop building. On a fast-track schedule, Mr. Faile completed subsurface characterization of the release, and then designed and installed a series of collection sumps beneath the floor of the building to successfully recover as much oil as possible and prevent migration of the product.

Program Manager, Small Project Indefinite Delivery Type Contract, USACE, Kansas City District, 1996 – 1998. Mr. Faile served as Contract Manager on a $2.5 million Small Project Indefinite Delivery Type (SPIDT) contract with the USACE, Kansas City District. As Contract Manager, Mr. Faile either managed directly or supervised Project Managers during the completion of the following projects: an Interim Action involving excavation and disposal of lead-contaminated soil and asbestos-containing material (ACM), and streambank stabilization at Sunflower Army Ammunition Plant near Kansas City; the design of an alternate water supply at Ft. Riley, Kansas; lead and asbestos abatement of 3 National Guard shooting ranges in Missouri and Iowa; the excavation and disposal of lead contaminated soil at the University of Rolla, Missouri; the consolidation, characterization, and disposal of wastes at the Former Jayhawk Ordnance Plant near Galena, Kansas; and the characterization and disposal of drums at a former missile silo site near Topeka, KS.

Removal/Remediation Support

Project Manager, Removal Action, West Highway 6 & West Highway 281 Site, Hastings, Nebraska, USEPA Region 7, 2006 – Present. This NPL site is a former manufacturing facility where tetrachloroethene (PCE) was released to the subsurface and groundwater as the result of degreasing operations. Numerous public and privately-owned drinking water wells have been impacted by this release. Remedial operations initiated by the PRP were temporarily suspended due to bankruptcy proceedings, and ultimately relinquished to Region VII EPA. As Project Manager, Mr. Faile reviewed historical and current operations reports as necessary to determine the efficiency and effectiveness of existing soil vapor extraction (SVE) and groundwater recovery systems at the site. Based on this review, numerous modifications were made to increase effectiveness and lower the operating costs of these systems. For example, untreated groundwater from the recovery wells was originally transferred to the local POTW at a cost of approximately $25,000 per month. Mr. Faile provided specifications for, and assisted in the installation and start-up of, an air stripper for on-site treatment and discharge of the groundwater, resulting in a substantial reduction in operating costs. In addition, it was determined that the vapor stream for the existing SVE system no longer required treatment via catalytic oxidation (CATOX). Subsequent removal of the CATOX and associated scrubber units also substantially reduced monthly operating costs and increased system efficiency. Future modifications to the system will include the installation of one or more additional groundwater recovery wells, and the installation of one or more injection wells for discharging treated groundwater. Additional support on this project includes daily operations and maintenance activities associated with the SVE and groundwater recovery systems, the sampling of existing monitoring wells on site, indoor air sampling in the manufacturing building where the release occurred, DPT soil and groundwater sampling downgradient of the release area, sampling of existing soil vapor extraction (SVE) wells and groundwater recovery wells, and sampling of nearby private and municipal water supply wells.

Project Manager, Removal Action, Cleburn Street Well Site, Grand Island, Nebraska, USEPA Region 7/NDEQ, 2005 – Present. This NPL site is a former dry cleaning facility where releases of PCE have impacted the local drinking water aquifer. For EPA, Mr. Faile was tasked to evaluate an existing SVE system at the site as

a means of controlling PCE vapor intrusion in nearby buildings. Mr. Faile managed operation and maintenance of the existing SVE system, and has recommended design modifications to accomplish vapor intrusion control. He has also installed vapor mitigation systems in areas of the building currently used for storage and church services and which are beyond the influence of the existing SVE system. Mr. Faile also developed and executed a sampling plan for pre-design soil and groundwater sampling to support the implementation of electrical resistivity heating (ERH) at the source area. The ROD for this NPL site was revised in 2014 to include ERH after it was determined that initial remedial measures had been unsuccessful in achieving the RAOs. Pre-design sampling conducted by Mr. Faile in 2014-2105 revealed that the source area extended well beyond the initial source footprint identified during the RI.

For NDEQ, Mr. Faile repaired the existing SVE system (OU1) and resumed O&M activities of the system, which had been inactive for several years. Repairs included installation of a new blower and motor, new gauges and sample ports and miscellaneous other repairs. Mr. Faile has also managed O&M operations of the repaired system for over 6 months, conducting regular site visits and sampling activities, and preparing monthly and quarterly reports documenting contaminant removal rates.

Project Manager, Corrective Action, Dudley Laundry Site, Norfolk, Nebraska, USEPA Region 7, 2013 – Present. Under the EPA Zone III REPA 5 contract, Mr. Faile serves as Project Manager for this corrective action support task to assist EPA in the evaluation of the design and performance of an SVE system. The site is an active dry cleaning operation with extensive soil and groundwater contamination beneath and beyond the building footprint. Consequently, vapor intrusion is a potential exposure pathway, and a primary factor in the design and performance evaluation of this system. The primary contaminants are PCE (and its degradation products) and Stoddard Solvent. On this project, Mr. Faile reviewed and provided technical review comments on the PRP's Design/Construction Report, O&M Plan, Performance Monitoring Plan, and Annual Operations reports, and completed a preliminary SVE System Data Evaluation Report. Mr. Faile provided contaminant removal rates and cumulative mass removal estimates for the SVE system, provided recommendations for the installation of vapor mitigation systems, recommended appropriate analytical methods for Stoddard Solvent in air, and provided overall recommendations regarding the effectiveness of the SVE system and its impact at multiple discrete indoor air and subslab monitoring points located throughout the facility.

Project Manager, Removal Action, Garvey Elevator Site, Hastings, Nebraska, USEPA Region 7, 2008 – 2013. EPA tasked Tetra Tech START to provide removal support at this NPL site located in Hastings, Nebraska. Tasks were to include evaluating existing SVE and groundwater extraction systems that had been installed by the PRP in 1998. The systems were not operating at the time the task order was issued. As Project Manager, Mr. Faile was tasked to inspect and repair the systems as necessary to resume operations, and to conduct operations and maintenance of the systems once the systems became functional. Mr. Faile also conducted baseline sampling of all monitoring wells located on site and off site, as well as all privately owned wells that were either sampled previously or appear to be potential targets for groundwater contamination associated with this site. Mr. Faile conducted trouble shooting on two SVE systems (one consisting of five shallow wells and the other consisting of three deeper wells) and a groundwater extraction system (consisting of eight extraction wells, an air stripper, and two injection wells). Mr. Faile conducted downhole video logging, pump inspection, and transducer inspection at several non-functioning groundwater extraction wells. Mr. Faile completed or subcontracted other repairs to the groundwater recovery system, including replacing wiring in the air stripper blower, installing new gaskets and filters in four particulate filter canisters, repairing a crack in the polyvinyl chloride (PVC) manifold, repairing leaks throughout the system, replacing bad surge protectors and variable drive frequency units, and replacing the programmable logic controller processor and input/output modules. He also designed and monitored installation of a new groundwater extraction well, and the integration of this well into the existing system. Numerous repairs were also made to the two SVE systems, including re-sizing of the blower motors to prevent overheating and shutdowns being caused by current loads beyond the capacity of the original motors, and replacement of high-water switches and pumps associated with the knockout tanks. Once fully operational,

Mr. Faile managed daily operations and maintenance of the systems, reviewed daily operational reports prepare by the Operations Supervisor, and conducted monthly and quarterly sampling events.

Project Manager, Engineering Evaluation/Cost Analysis, Tri-County Public Airport Site, Hangar 1, Herington, Kansas, USEPA Region 7, 2002 – 2005. This former DoD facility is a source of TCE and vinyl chloride contamination that has caused extensive groundwater contamination, requiring the installation of alternate water supplies for the surrounding rural community. Under this Task Order, Mr. Faile assisted EPA in the preparation of an EE/CA and conducted numerous removal assessment activities in preparation of an EPA-lead removal action. Assessment activities included: subsurface soil sampling to determine the extent of vinyl chloride contamination; indoor air sampling to determine the risk of inhalation exposure to current workers; completion of a soil vapor extraction (SVE) pilot test to help evaluate this technology as an alternative in the EE/CA. Mr. Faile will provide technical and community relations support throughout the ensuing removal action at this site.

Project Manager, Engineering Evaluation/Cost Analysis , Ogallala Groundwater Site, Operable Unit 2, Ogallala, Nebraska, USEPA Region 7, 2001 – 2005. This NPL site is a dry cleaning facility that has been determined to be a source of extensive groundwater contamination that was responsible for the closure and relocation of Ogallala's municipal well field. Under this START task order, Mr. Faile prepared an engineering evaluation and cost analysis (EE/CA) for a removal action at the source area; completed a treatability study using sodium permanganate (chemical oxidant) to assess its performance in reducing PCE levels in the groundwater; abandoned 36 monitoring wells installed during previous phases of work at the site; and conducted performance monitoring during a full-scale removal action consisting of multiple sodium permanganate injections. The performance monitoring is being conducted at numerous wells using multiple passive diffusion bag (PDB) samplers in each well to evaluate stratification of PCE contamination within the aquifer.

Project Manager, UST Removal, New Century Air Center, National Guard, 89th Region Support Command, 2003 – 2004. At the New Century Air Center, Mr. Faile completed the removal and closure of a 20,000-gallon JP-8 UST used to fuel Chinhook helicopters. Following the UST closure, Mr. Faile completed the installation of a new 20,000-gallon above ground storage tank (AST) that would allow National Guard personnel to "hot fuel" the helicopters on the tarmac, eliminating the need for fueling tanker trucks as was required with the UST system. Mr. Faile designed and managed the construction of the AST pad and force protection, and managed the completion of all electrical modifications required for the new fueling operations. Mr. Faile prepared all documentation required for the closure of the former UST and the installation of the new AST system.

Project Manager, Superfund Remedial Support, NDEQ, 2003 - 2004. Mr. Faile prepared Standard Operating Procedures (SOPs) in support of NDEQ's Superfund remedial program. Mr. Faile has prepared SOPs and checklists for reviewing documents associated with Remedial Investigation/Feasibility Studies (RI/FS); Risk Assessment; Proposed Plans; Records of Decision (ROD); Consent Decrees; State Superfund Contracts; Remedial Design; Remedial Action; Operation & Maintenance Plans; and Delisting. These SOPs and checklists were developed based on extensive research of other state and federal programs and Tetra Tech's extensive experience with the Superfund process, and were designed to help NDEQ personnel implement a thorough and consistent review process.

Project Manager, SVE Construction at Former Blaine Naval Ammunition Depot (Operable Unit No. 8), USACE, Kansas City and Omaha Districts, 1996 – 1998. Mr. Faile served as Project Manager on a $3 million dollar site-specific contract with the USACE Kansas City District for the construction and O&M of 5 SVE systems at the Former Blaine Naval Ammunition Depot (Operable Unit 8) in Hastings, Nebraska. In managing this project, Mr. Faile coordinated with the Kansas City District for technical support issues, and the Omaha District for construction issues.

The construction of these systems, designed to clean-up widespread solvent contamination in the soil, required the preparation of a Chemical Data Acquisition Plan, Well Installation Plan, Health and Safety Plan, Operations and Maintenance (O&M) Manual and other work plans; the installation of 104 vapor extraction wells and 32

vadose zone monitoring wells at depths ranging from 50 to 110 feet; approximately 2 miles of trenching for system pipe runs; field screening of over 2,200 soil samples; approximately 700 feet of horizontal borings; characterization and removal of contaminated soil and unexploded ordnance (UXO); and, the installation of over-sized SVE equipment such as blowers (up to 250 HP), heat exchangers, vapor-liquid separators, and carbon units (up to 10,000 pound capacity).

Mr. Faile also managed the O&M phase of this project, which included the field screening of all SVE wells on a three-day cycle using a field photo-ionization detector (PID); collection of up to 250 vapor samples for laboratory analysis, with a turnaround time of 24 hours; changeout of up to 80,000 pounds of granular activated carbon; and, bi-monthly operations reports which include plots of PID readings, temperature, and pressure for all 136 wells, plots of flow rates for all 104 extraction wells, and the estimated cumulative mass of contaminants removed.

Project Manager, Various Sites, Various Clients, 1991 – 1998. Additional remediation project experience includes: the installation and O&M of an SVE system at a grain elevator near Hastings, Nebraska; a lead-contaminated soil removal in a residential area near Granite City, Illinois for the Omaha District; and the construction of an SVE/Pump and Treat system at a former dry cleaners site in Grand Island, Nebraska for a Region VII EPA RAC contractor.

RI/FS and Groundwater Investigations

Project Manager, Remedial Investigation, Building S-28 Area, Former Weldon Springs Ordnance Works, Missouri, USACE Kansas City District, 2010 – 2012. Mr. Faile served as the EMI Project Manager on this Tetra Tech intercompany project at the Former Weldon Springs Ordnance Works in Weldon Springs, Missouri. Mr. Faile helped prepare the work plan, QAPP and other planning documents, and also managed completion of field work at the site of a former locomotive house and maintenance area. Field investigation activities included the installation of bedrock monitoring wells and 35 soil borings to help evaluate the extent of soil and groundwater contamination. Data collected during the RI was evaluated in accordance with Missouri Risk Based Corrective Action guidance to determine cleanup standards for the site. An estimated volume of contaminated soil was then prepared to allow the USACE to prepare plans and specifications for site cleanup under their Preplaced Remedial Action Contract. The entire RI was expedited to accommodate the construction schedule for a new National Guard training facility at the site.

Project Manager, Preliminary Assessment/Site Investigation and Expanded Site Investigation, Hastings Feral Plume Site, Hastings, Nebraska, NDEQ, 2006 – 2008. At the Hastings Feral Carbon Tetrachloride Plume site in Hastings, Nebraska, Mr. Faile completed a Preliminary Assessment/Site Investigation (PA/SI) and an Expanded Site Inspection (ESI). During the PA/SI, Mr. Faile conducted DPT soil and groundwater sampling to determine the source area and general extent of groundwater contamination at this site. He also sampled numerous private wells to determine whether the groundwater had impacted drinking water supplies. During the ESI, Mr. Faile conducted DPT groundwater sampling at depths of up to 200 feet to define the vertical and lateral extent of contamination. He also conducted groundwater modeling to determine the impacts of nearby pumping wells on plume migration.

Project Manager, Removal Assessment and Remedial Investigation, River Valley Groundwater Site, North Platte, Nebraska, USEPA Region 7, 2002 – 2006. This project initially included the sampling of privately-owned domestic wells in support of a removal assessment. During this assessment, numerous wells were found to contain chlorinated solvents at concentrations above safe drinking water standards, and efforts were re-focused efforts on coordinating a removal action to provide an alternate water supply to homes with affected wells. Simultaneously, Mr. Faile was tasked to begin planning remedial investigation (RI) activities at the site to determine the nature and extent of groundwater contamination, and identify the source(s) of contamination so that potentially responsible parties could be identified as soon as possible. The RI included sampling of all known privately-owned and municipal wells, and vertical aquifer profiling at over 150 DPT locations within the study area, which encompassed nearly one-half of the city. Tetra Tech also collected soil samples (from potential source

areas), indoor air samples (from residences and businesses within the footprint of the groundwater plumes), surface water and sediment samples, sewer samples, and tree core samples (to help quickly identify impacted areas). The RI ultimately identified numerous sources areas, primarily former and current dry cleaning operations, and delineated the extent of contamination. Mr. Faile also provided community relations support, assisting in the preparation of a community involvement plan, and presenting RI findings at public meetings.

Project Manager, Preliminary Assessment/Site Investigation, West Highway 6 & West Highway 281 Site, Hastings, Nebraska, NDEQ, 2004 – 2006. At the West Highway 6 and Highway 281 site in Hastings, Nebraska, Mr. Faile conducted DPT sampling at depths of up to 175 feet to delineate the extent of groundwater contamination associated with releases of PCE and carbon tetrachloride. The groundwater contamination had impacted municipal and privately-owned wells used for drinking water. Based on the results of this project, which successfully identified contaminant attribution, the site was proposed for the NPL in 2005 and officially listed in April 2006. He conducted similar investigation activities at the Hastings Feral Carbon Tetrachloride Groundwater Plume site in Hastings, confirming the source of carbon tetrachloride contamination which had impacted multiple private drinking water wells.

Project Manager, Groundwater Sampling Technical Support, NDEQ, 2002 - 2003. On this project, Mr. Faile prepared a formal cost and performance evaluation of numerous groundwater sampling technologies for consideration at the Hastings/Adams County landfill. Mr. Faile researched and presented a detailed evaluation of nested monitoring wells, direct-push sampling (with membrane interface probe), micro-purge sampling (inertial lift pump versus electric submersible pump), passive diffusion bags (PDB), Continuous Multi-Channel Tubing (CMT®), and the Waterloo multilevel system. Cost and technical information for each technology was presented and evaluated to determine the most appropriate remedial action.

Project Manager, Remedial Investigation/Feasibility Studies and Site Investigations, Little Rock Air Force Base, Arkansas, USACE, Kansas City and Tulsa Districts, 1991 – 1996. Mr. Faile served as project manager for $3.5 million in Installation Restoration Program (IRP) work at Little Rock AFB, Arkansas for the USACE Kansas City and Tulsa Districts. This work included a Remedial Design, five RI/FS projects, and 25 Site Investigation projects. Mr. Faile served as the A-E Primary Point of Contact for all IRP work at Little Rock, coordinating with other contractors at the Base, and preparing presentations for Base Command, RAB meetings and partnering sessions.

Other Technical Support

Project Manager, 12th Avenue Solvent/Sentinel Wood Treaters Sites, Ava, Missouri, USEPA Region 7, 2001 – 2010. Under multiple task orders, Mr. Faile is managed a variety of technical support, including site assessment, removal assessment, and removal action activities at multiple sites located within a small industrial park in Ava, Missouri. Sites include a wood treater facility, multiple leaking underground storage tank sites, a dry cleaner, and a manufacturing facility. Contamination caused by these sites has generated intensive public participation and prompted the completion of numerous risk assessments and health consults. In addition to field support activities, Mr. Faile also participated in a “technical committee” formed by EPA. The committee met on a regular basis to share information among all parties, including city officials and concerned citizens. To further assist the technical committee, EPA tasked Tetra Tech START to create a Geographical Information System (GIS) database for analytical data collected during the multiple and concurrent sampling activities being conducted by various parties at various sites. The purpose of this GIS application was to provide a single repository of analytical data that may be utilized by all parties to review and analyze all of the available data. Several updates of the database were completed as subsequent investigations and removal activities were conducted.

Project Manager, ARCS Contract, USEPA Region 7, 1991 – 1996. Mr. Faile previously served as Project Manager on several USEPA projects under the Region VII ARCS contract including an RI/FS and Interim Removal Action at an NPL site in Cedar Rapids, Iowa. At this site, Mr. Faile provided technical oversight on behalf

of Region VII from the RI stage through completion of the Interim Action and into the FS phase. Oversight tasks included the preparation of a Baseline Risk Assessment, an HRS package, field oversight of site activities, and review of all documents in the Administrative Record. Other USEPA work assignments under ARCS included HRS packages, RCRA Facility Investigations and Site Investigations.

Project Geologist/Geophysicist, FIT Contract, USEPA Zone III, 1986 – 1990. Mr. Faile previously worked on the USEPA Zone III FIT Contract. He managed or provided technical assistance on over 75 pre-remedial work assignments nationwide. He also served as the Regional Geophysical Coordinator for Zone II FIT, and was responsible for the design, performance and interpretation of geophysical surveys, the scheduling of geophysical equipment for other EPA regions, preparing presentations for administrative staff and EPA, and preparing Zone-wide Standard Operation Procedure documents for conducting geophysical surveys.

Project Manager, Various Sites, Various Clients, 1986 – 1991. Additional regional experience includes management of a $2 million RI/FS at the North U Drive NPL Site in Springfield, Missouri; UST Closures in Kansas and Missouri; and, Level-B drum sampling for a transportation company in Independence, Missouri.

TETRA TECH

April N. Halley
Geologist

EXPERIENCE SUMMARY

Ms. Halley is a Geologist and Project Manager providing technical support for the Environmental Protection Agency and other clients. Applying 6 years of experience in scientific research and a B.S. in Geology; Ms. Halley aids in support including sub-contractor oversight; technical report writing; environmental field sampling of various media; on-call emergency response; groundwater monitoring; soil logging; data management in the EPA ORACLE database; and client communication.

RELEVANT EXPERIENCE

Environmental Science

Project Manager, Phase I & II Targeted Brownfields Site Assessment, Fashions R Boutique site, U.S. Environmental Protection Agency, Missouri, U.S., 2018-Present. Ms. Halley is a Project Manager for investigations requiring site reconnaissance, historical data research, environmental sampling and report preparation. Ms. Halley is responsible for performing site reconnaissance, setting up a subcontractor for laboratory analysis and DTP sampling; and preparing a Quality Assurance Project Plan (QAPP), Phase I & Phase II reports, and an Alternative Brownfields Cleanup Analysis (ABCA).

Removal Assessment and Technical Support, JC-OU1, Southwest Jefferson County, U.S. Environmental Protection Agency, Missouri, U.S., 2014-Present. Ms. Halley is an environmental scientist for field investigations requiring environmental sampling, soil screening, and technical support. Ms. Halley is responsible for determining samples taken for site walks, post excavation sampling, obtaining and filing access agreements for sampling and excavation, sampling of soil and private wells, and data management into the EPA ORACLE database.

Technical Support, Valley Park TCE site, U.S. Environmental Protection Agency, Missouri, U.S., 2015-Present. Ms. Halley is a geologist for field investigations requiring soil and groundwater sampling. Ms. Halley is responsible for logging soil core samples when needed. Ms. Halley is also responsible for annual groundwater sampling including use of PDBs. Ms. Halley is responsible for preparing and shipping samples to the EPA Region 7 laboratory.

Technical Support, R4 Hurricane Irma Response, U.S. Environmental Protection Agency, Florida, U.S., 2017-2017. Ms. Halley served as an environmental scientist for field investigations of impacted facilities and data management. Ms. Halley was responsible for logging impact and status of facilities into Collector. Ms. Halley was also responsible for logging debris including orphaned drums as well as sunken ships in a combined effort with the U.S. Coast Guard.

Project Manager, Southwest Jefferson County Camp Ne-O-Tez site, U.S. Environmental Protection Agency, Missouri, U.S., 2016-2016. Ms. Halley was a project manager for a field investigations team requiring soil, sediment, surface water and groundwater sampling. Ms. Halley was responsible for coordinating sampling plans with the client and shipments to EPA Region 7 laboratory. Ms. Halley was also responsible for preparing associated reports such as a QAPP and a Removal Site Assessment Report.

Technical Support, JC-OU4, Southwest Jefferson County, U.S. Environmental Protection Agency, Missouri, U.S., 2016-2016. Ms. Halley was an environmental scientist for field investigations requiring soil and sediment sampling in and along local rivers. Ms. Halley was also responsible for obtaining and updating sample locations, photos and other information into a remotely accessible database.

Technical Support, West Alton TCE Wells site, U.S. Environmental Protection Agency, Missouri, U.S., 2014-2015. Ms. Halley was an environmental scientist for field investigations requiring private well sampling. Ms. Halley was responsible for collecting private well samples and recording water quality parameters with an YSI as well as shipment of samples to the EPA Region 7 Laboratory.

Project Manager, Phase I Targeted Brownfields Site Assessment, City of Burlington - Armory and Depot Sites, U.S. Environmental Protection Agency, Iowa, U.S., 2014-2015. Ms. Halley was a Project Manager for investigations requiring site reconnaissance, historical data research, and report preparation. Ms. Halley was responsible for performing site reconnaissance for both sites, setting up Lead-Based Paint (LBP) and Asbestos Containing Material (ACM) sampling; and preparing a Quality Assurance Project Plan (QAPP), Phase I reports, and LBP & ACM reports.

Technical Support, China Lake Naval Air Weapons Base. United States Navy, California, U.S., 2014-2015. Ms. Halley was an environmental scientist for field investigations requiring groundwater monitoring. Ms. Halley was responsible for collecting groundwater samples of several monitoring wells, recording water quality parameters with an YSI, recording groundwater level and product thickness as well as testing water collected for turbidity.

Removal Assessment and Oversight Support, BRMT-OU1, Lake Timberline Subsite, U.S. Environmental Protection Agency, Missouri, U.S., 2013-2014. Ms. Halley was an environmental scientist for field investigations requiring environmental sampling, soil screening, and oversight of excavations. Ms. Halley was responsible for preparing site walks before excavations, pre and post excavation videos of properties, oversight of subcontractor, and sampling of soil.

Removal Assessment and Oversight Support, BRMT-OU1, U.S. Environmental Protection Agency, Missouri, U.S., 2013-2014. Ms. Halley was an environmental scientist for field investigations requiring environmental sampling, soil screening, and oversight of excavations. Ms. Halley was responsible for gaining access for sampling, oversight of subcontractors, and environmental sampling.

Geology

Research Assistant, Illinois State Geological Survey, Illinois, U.S. 2011-2013. Ms. Halley was a research assistant for investigations requiring core logging, digitizing information in ArcGIS, field mapping, typing field notes, digitizing lithologic logs in Adobe Illustrator, and reviewing research.

TETRA TECH

David A. Zimmermann
Program Manager

EXPERIENCE SUMMARY

Mr. Zimmermann's 31 years of environmental experience have been primarily in support of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) remedial program and Resource Conservation and Recovery Act (RCRA) programs. He has been employed as an environmental scientist with Tetra Tech, Inc. for over 26 years. He has extensive knowledge of the Superfund and RCRA programs and has conducted numerous preliminary assessments (PAs), site investigations (SI), brownfields assessments, removal assessments, remedial investigations, and hazard ranking system (HRS) documentation projects. He has used this experience as an instructor under the EPA Office of Solid Waste and Emergency Response (OSWER), Technology Transfer and Training Support contract where he has delved numerous training classes on the HRS and PA/SI process.

Mr. Zimmermann has managed two separate CERCLA services contracts for the U.S. Forest Service Alaska Region. Mr. Zimmermann served as deputy program manager for a general environmental services contract with the National Oceanic and Atmospheric Administration (NOAA) and was program manager for Brownfield's assessment contract for the Unified Government of Wyandotte County/Kansas City Kansas. Currently he is site assessment manager for a multi-million dollar Superfund Technical Assessment and Response Team (START) contract for EPA Region 7, and program manager for an environmental engineering services contract for the Nebraska Department of Environmental Quality (NDEQ).

RELEVANT EXPERIENCE

Management Experience

Mr. Zimmermann has the proven ability to manage complex Superfund projects, coordinate multidisciplinary teams on concurrent projects, manage team firms, procure subcontractors, and track and report on administrative and financial issues. From 1991 to 1993, Mr. Zimmermann managed the federal facilities' site assessment project under the Technical Enforcement Support (TES) 12 contract. This $630,000 project consistently received above average performance evaluation review scores from the Region 10 EPA work Assignment Manager (WAM).

From September 1993 to March 1997, Mr. Zimmermann served as program manager for the $1.5 million CERCLA Services Contract with the Forest Service in Juneau, Alaska. Work was conducted at sites within the Chugach and Tongass National Forests in remote southeast Alaska. Contract activities consisted of site discovery investigations, preliminary assessments, site investigations, removal assessments, removal action engineering designs, legal and litigation investigations, and identification of natural resource damage assessment issues. Mr. Zimmermann prepared budgets and work plans; negotiated subcontracts and coordinated with three team firms; procured subcontractor services pursuant to Federal Acquisition Regulations; selected, coordinated, and

organized field and project teams; reported and tracked financial information; communicated with the client; and presented data reports, conclusions, and recommendations. After completing the first contract, the USDA Forest Service issued a solicitation for hazardous materials and environmental engineering services. The contract was a 3-year, IDIQ/FFP contract with a $2,000,000 capacity. Due in part to the superior work conducted on the previous contract, Tetra Tech was awarded this follow-up contract with Mr. Zimmermann as program manager until he relocated to the Tetra Tech office in Kansas City.

In Kansas City, Mr. Zimmermann gained additional program manager experience after Tetra Tech was awarded a 10-million dollar IDIQ/FFP contract with NOAA. Mr. Zimmermann served as deputy contract manager for this activity with responsibilities that include: conflict of interest screening, subcontractor management, client communication, project staffing, and nationwide project coordination.

Mr. Zimmermann currently serves as site assessment manager for the EPA Region 7 START contract. In this capacity he coordinates all pre-remedial investigations, provides technical support and oversight, reviews all documents for adequacy and accuracy, and provided training to program staff. Mr. Zimmermann is also Program Manager for a CPFF contract with NDEQ and a similar contract with the city of Kansas City, Missouri. Mr. Zimmermann has provided continuous program management support to NDEQ through 5 sequential contracts since 2001.

Technical Experience - CERCLA

Mr. Zimmermann has 31 years of experience directly related to managing and conducting CERCLA site assessments. This experience includes conducting PAs and all forms of SIs, and applying the HRS throughout the site assessment process. He has also lead teams in the performance of remedial investigations and feasibility studies (RI/FS). Through his experience on the FIT, TES 12, and U.S. Forest Service CERCLA Services, NDEQ, and START contracts, he has managed or conducted investigations of literally hundreds of sites. Mr. Zimmermann has sampled all media including surface and subsurface soil, sediment, surface water, groundwater, soil vapor, ambient air, drums, and biota, and is familiar with many of the applicable standard operating procedures. He has direct experience conducting geophysical investigations (ground-penetrating radar, EM-31 and EM-34, seismic refraction, magnetometer), Geoprobe™, and environmental drilling projects. He has written numerous work plans, health and safety plans, investigation-derived waste management plans, and quality assurance project plans. He has coordinated analytical services through the Contract Laboratory Program (CLP) and EPA regional laboratories, as well as private and field laboratories. Under a crossover contract with the U.S. EPA Region 8 START contract, he provided technical document reviews on a number of sites submitted to EPA by the State of Nebraska.

Preliminary Assessments

Project Manager, USEPA Regions 7 and 10, 1987 – 1991. Conducted and managed 75 PA assignments over a 5-year period under the FIT contract. Examples of multisite investigations include approximately 20 PAs in Washington and Oregon and an investigation of approximately 15 potential sources of solvent contamination in Coeur d'Alene, Idaho.

Project Manager 1991 – 1993, US EPA Region 10. Served as technical lead/project manager for the federal facilities site assessment review work assignment under the TES 12 contract where over 250 PA type reports were evaluated to determine compliance with CERCLA Section 120 requirements. Under this project, Tetra Tech used the PREscore software package to evaluate the sites' potential eligibility for the National Priorities List (NPL).

Project Manager, 2000 – Current, US **EPA Region 7, Superfund Technical Assessment and Response Team.** Under three sequential START contracts in EPA region 7, he managed or reviewed hundreds of PA documents for numerous types of facilities including Formerly Utilized Defense Sites, contaminated public water supplies, former grain storage facilities, dry cleaning sites, and former manufactured Gas Plant sites.

Site Inspections

Conducted nearly 75 site inspections under various contracts with EPA, the Forest Service and State of Nebraska where innovative sampling approaches were applied, and removal and remedial programs were coordinated to facilitate early action.

Project Manager, Site Inspection/Removal Assessment, Thorne Bay Landfill, Cape Prince of Wales, Alaska, USDA Forest Service, 1994-1995. For the U.S. Forest Service, collected soil, sediment, and surface water data at abandoned landfill site in the Tongass National Forest in southeast Alaska. Also oversaw a Potentially Responsible Party (PRP) search and wetlands delineation survey. Recommended a time-critical removal action be initiated to cap landfills to reduce leachate flow to sensitive ecological receptors. Engineered cap design recommendation was approved by client. Tetra Tech later designed the cap however it was never installed as the identified responsible parties assumes responsibility.

Project Manager, Site Inspection of Abandoned Prospects and Mines Sites, Removal Assessment, Thorne Bay Landfill, Chugach National Forest, Alaska, USDA Forest Service, 1993-1994. Oversaw site inspection activities at over 40 abandoned mine and 11 Special use sites in Alaska under the U.S. Forest Service contract. Managed multisite "discovery-level" investigations of 40 mine sites and prospects and 11 special use sites in Alaska for the U.S. Forest Service. Research PRP and development history, located sites, conducted safety inspections, evaluated the potential for acid rock drainage, and collected environmental samples. Evaluated site histories, potential sources, and target information, and made recommendations to the Forest Service on adding sites to the Federal Facilities Hazard Waste Compliance Docket.

Project Manager, Site Inspection of Sunset Aviation at the American Fall Airport, Idaho, 1990. Used Geoprobe to collect subsurface soil from beneath a dry well which received wash water from crop dusting operations (angle boring) at the American Falls Airport in American Falls, Idaho. Samples were sent to the FIT lab for screening, and to a CLP lab for pesticides analysis. Investigated numerous potential sources concurrently to expedite project progress.

Combined PA/SI reports

Program Manager, Multiple sites throughout Nebraska, Nebraska Department of Environmental Quality, 2006- 2010. Under the NDEQ contract, Mr. Zimmermann managed or conducted combined PA/SI assessments at 17 sites across Nebraska. These sites consisted primarily of groundwater contamination sites where the source of the contamination was unknown. Following investigation, five of these sites were prioritized for potential inclusion to the National Priorities list including the Stolley Park (Parkview Well) site in Grand Island, Nebraska, the Garvey Elevator and West Highway 6 and Highway 281 sites in Hastings, Nebraska, the Atwood Industries site in Norfolk, Nebraska, and the Broken Bow Public Water supply in Broken Bow, Nebraska.

Brownfields Targeted Assessments

Managed Brownfields Targeted Assessments of multiple sites under the START and NDEQ contracts for sites proposed for redevelopment. These sites include the Meeks Lumber Company, and Jordan Valley in Springfield, Missouri, the Dakota Landfill in Dakota City Nebraska, the former PCS Nitrogen facility in Sarpy County Nebraska, and area wide Phase I and Phase II TBAs in the Green Impact Zone and the Municipal Farm site in Kansas City Missouri. For the Unified Government of Wyandotte County/Kansas City, Kansas he built a site inventory the performing phase I and II investigations at up to 40 sites under two, $200,00 grants from EPA for assessment of petroleum and Hazardous substance brownfields sites.

Project Manager, Phase I and II Targeted Brownfields Assessment, Kansas City Municipal Farm property, Kansas City, MO, 2012 – Present. Mr. Zimmermann managed targeted Brownfields activities at four large parcels within the municipal farms redevelopment area referred to as; the former municipal correctional facility, an active animal shelter, the former LaFarge (concrete batch plant) site, and the KCMO Public Works East Garage site. For all for sites, Tetra Tech performed Phase I TBA activities in compliance with ASTM standards and all

appropriate inquiry requirements. Also during the project Tetra Tech attended stakeholder meeting with EPA and City officials, the public, and other involved parties. During these meeting finding from various stages of the investigations were communicated. Based on the finding of the phase I assessments, site specific quality assurance project plans (QAPPs) were developed for all four sites and submitted to the EPA and City for approval. Sampling activities were conducted at all properties and included surface and subsurface soils, surface water and sediment and shallow groundwater. Groundwater and subsurface soil samples were collected with direct push technology (DPT) tools. Any buildings encountered were screened for lead-based paint using portable x-ray fluorescent (XRF) instrumentation and asbestos containing building materials were assessed and materials quantified. Following field activities Phase II TBA reports were generated for all sites.

Program Manager, Brownfield Assessment Grants, Unified Government of Wyandotte County/Kansas City, Kansas 2010-2013. Mr. Zimmermann was program Manager for this 3 year contract that ended in 2013 and entailed grant implementation/tracking/reporting, community involvement/education, development of an inventory of potential brownfield sites, site characterization of brownfields sites through Phase I and Phase II Environmental Site Assessments, and strategic planning for cleanup of sites. Numerous phase I, phase II and hazardous materials surveys were conducted under this contract.

Expanded Site Inspections

Project Member, Expanded Site Inspection/Removal Investigation, Reynolds Metals Facility, Troutdale Oregon, USEPA Region 10, 1992 – 1993. Provided technical support and helped collect over 50 environmental and waste samples at the Reynolds Metals facility in Troutdale, Oregon. Provided information to Region 10 OSCs to help identify sources for potential removal actions. This site was eventually listed on the NPL.

Expanded Site Inspections, Multiple Sites Reynolds Metals Facility, Troutdale Oregon, USEPA Regions 7 &10, 1987 – 1991. Participated in and managed expanded site inspections at more than 25 sites under the FIT contract, including Wycoff - West Seattle (Seattle, Washington); Triumph Mine (Triumph, Idaho); East Multnomah County (Portland, Oregon); Oregon Metallurgical Corporation (Albany, Oregon); Fairfield Coal Gasification (Fairfield, Iowa); 10th Street; Sheller Globe Disposal (Keokuk, Iowa); Lehigh Portland Cement Co. (Mason City, Iowa); Northwest States Portland Cement Co. (Mason City, Iowa); and Peoples Natural Gas (Dubuque, Iowa) sites. Activities conducted at these facilities included geophysics investigation, air monitoring, monitoring well installation, aquifer testing, multimedia sampling, soil-gas investigation, and mobile analytical laboratory analysis. Information collected during the inspection was used to list many of these sites on the NPL.

Remedial Investigation/Feasibility Study (RI/FS)

Project Manager Remedial Investigation/Feasibility Study, Parkview Well site, Grand Island, Nebraska, USEPA Region 7, 1992 – 1993. Managed the RI/FS for the Parkview Wells Superfund site in Grand Island, Nebraska. Two separate RI/FS reports were prepared. The first one for Operable Unit (OU) 1 where contaminated groundwater was impacting/threatening numerous private and municipal wells. An interim remedial action consisting of groundwater pump and treat was recommended to intercept a larger chlorinated solvent contaminant plume. Investigation techniques such as geophysics, soil gas analysis, and DPT sampling and field analysis were employed to locate the source of contamination for the plume which was defined by EPA as OU-2. Tetra Tech recommended a combination of source removal, soil vapor extraction, and in-situ chemical oxidation (ISCO) to address the source area and remainder of the plume.

Project Manager, RI/FS, Former PCE Dry Cleaner site, Atlantic Iowa, USEPA Region 7, 2016-current. Managed the RI/FS for the PCE Former Dry Cleaner site in Atlantic Iowa. Investigation is ongoing focusing on characterizing the nature and extent of a chlorinated solvent plume that has impacted a municipal well field causing the closure of two city wells. Under the removal program for EPA, he characterized the nature and extent of the PCE source and recommended that an insitu thermal treatment system (electrical resistivity heating [ERH]) be installed under a removal action. To contain the plume, Tetra Tech is currently designing a groundwater

extraction system that will be piped to a flat tray air stripper capable of treating 400 gallons per minute. The RI will build upon work conducted by the removal program to fully assess the nature and extent of the plume.

Hazard Ranking System/National Priorities List Packages

Project Manager/Technical Reviewer, HRS Documentation Package Preparation, Multiple Sites, Nationwide, 1989-Current. Prepared or managed HRS documentation packages under the FIT, TES 12, and START contracts involving federal facility and general sites in Regions 7, 8, and 10. Served as a Tetra Tech corporate HRS expert, aiding people across the country with HRS issues. Provided technical support and reviews of documentation packages for EPA Regions 3, 5, 8, and 10. Listed or supported listing of several EPA Region 7, 8, and 10 sites on the NPL, including the 10th Street Site in Columbus, NE; Bruno Co-op Association in Bruno NE, Tulalip Landfill, Fort Richardson, White King and Lucky Lass Mines, Blackbird Mine, Jackson Park Housing Complex, Grand Forks Airforce Base, and Indian Island sites. Under the START contracts, Mr. Zimmermann listed or supported listing of numerous EPA Region 7 sites proposed to or on the NPL including the following sites in Nebraska - Iowa Nebraska Power and Light FMGP, Parkview Wells, Garvey Elevator, West Highway 6 and Highway 281, and the Old Highway 272 and 288th Street site; the following sites in Iowa former PCE drycleaner in Atlantic, the Hills Perchlorate site; the following sites in Kansas - Tri-County Airport; and the following sites in Missouri, Annapolis Lead, Madison Mine, Old Mines, Richwood, Potosi and Jefferson County mining areas, Compass Plaza Well TCE site and Oak Grove Village Well. He prepared many additional documentation records for other regions and other sites in Region 7 that were never proposed to the NPL.

Prepared documentation packages while working under the FIT contract using the original HRS rule; aided in development and testing of the revised HRS and prepared documentation packages using the revised HRS.

Response Activities

Responder, Corporate Clients Nationwide, 1988 – 1989. During his employment with Ecology and Environment, Mr. Zimmermann was a member of the corporate emergency response team. He received training in responding to chemical release emergencies for corporate clients such as motor freight companies. As a member of the corporate emergency response team, he was required to carry a pager 24 hours a day and was prepared to respond at a moment's notice. His training consisted of health and safety and ambient air monitoring; containment, documentation, and hazardous substance categorization techniques; and health and safety work zones and containment area set-up and decontamination techniques.

Responder, National Response to Red River Flood, Grand Forks, North Dakota, USEPA Region 8, 1997. Under the START contract in Region 8, Mr. Zimmermann assisted in responding to the Red River flood in Grand Forks, North Dakota. Activities conducted in support of response action included rapid assessment and removal of unknown wastes using field HAZ-CAT techniques. Mr. Zimmermann also supported U.S. Public Health Service personnel in assessing public (city, county, and state) buildings for potential hazards. While working under the FIT contract, Mr. Zimmermann also worked with the removal program on a number of sites to expedite cleanup.

Removal Support

Project Manager, Removal Site Evaluation, Atlantic Public Water Supply, Atlantic Iowa, USEPA Region 7, 2011-2013. Conducted a Removal Reassessment at the Atlantic Water Supply in Atlantic Iowa. Used Direct Push techniques and membrane interface probe field analysis to delineated area of highly contaminated soil at former drycleaners site. Supplemental investigations included Roto-sonic drilling through bedrock, soil vapor and indoor air sapling and DPT soil and groundwater sampling. Evaluated different removal alternatives including soil heating coupled with soil vapor extraction, insitu chemical oxidation with deep soil blending, deep excavation and off site incineration/disposal. As part of the removal reassessment, the extent of groundwater contamination was mapped and recommendations for addition pumping wells was suggested to control the existing plume and protect active municipal well field.

Project Manager, Removal Site Evaluation, Parkview Well Site, Grand Island Nebraska, USEPA Region 7, 2006 - 2008. Conducted routine sampling of private wells at the Parkview Well site in Grand Island to determine if contamination was increasing to levels above preliminary remediation goals that triggered the removal program of EPA to either install whole-house filtration units or connect the home to city distribution mains as appropriate. Oversaw a time critical removal action to excavate a PCE hot spot at identified source area.

Conducted removal assessment investigation at the Astoria Plywood site for the Oregon Department of Environmental Quality. Identified eight contaminated soil "hot spot" areas for removal action consisting of low temperature thermal desorption.

Worked closely with OSCs and the TAT at dioxin removal sites in Missouri. Conducted air monitoring for 6 weeks at the Minker/Stout/Romaine Creek site as OSCs and ERCS contractors removed contaminated soils to ensure that removal actions did not create an air hazard to nearby communities.

Organized a 15-person field crew consisting of TAT, FIT, and EPA Region 7 OSCs to conduct 95 percent confidence level soil sampling of a dioxin-contaminated site to direct future removal actions in Mount Vernon, Missouri.

Training

Trainer, Revised HRS Training Comparison, USEPA Region 7, 1988. During the revision process of the HRS, trained FIT staff, state site assessment personnel, and EPA site assessment managers in use of the revised model and ways in which the changes affected the site assessment process.

Trainer, Preliminary Assessment/Site Inspection and HRS documentation record training classes, USEPA Headquarters, 2009 – 2013. Mr. Zimmermann serves as an instructor for two different courses for the EPA CERCLA Education Center. The first course covers the preparation of Preliminary Assessment/Site Inspections and includes a module on scoring sites using the EPA scoring software Quickscore. The second class pertains strictly on the Hazard Ranking System and how to properly score sites. Courses are delivered to EPA site assessment managers, on-scene coordinators, remedial project managers, state employees and tribal environmental staff charged with performing site assessment work, consultants and other interested parties. Since 2008, Mr. Zimmermann has delivered multiple classes in cities associated with EPA and State offices in numerous states in Regions 3, 4, 5, 7, 8, and 9.

Guidance Document Preparation/Special Investigations

Project Manager, Guidance Document and SOP Preparation, NDEQ, 1995. Under the NDEQ contract, Tetra Tech assesses numerous sites, supports NDEQ with Title 118 and 128 assessments and enforcement actions, and aids the state in development of guidance documents, standard operating procedures, and management plans. For NDEQ he developed standard operating procedures for conducting various pre-remedial investigations, and guidance documents for assessing data and scoring sites. Tetra Tech also developed a catastrophic animal mortality management plan which detailed plans for animal disposal in the event of a foreign animal disease outbreak. Tetra Tech also developed a guidance document for the implementation of Nebraska's voluntary cleanup program.

Technical Experience – RCRA

Under the TES 12, RCRA implementation, REPA, and REPA 2 contracts managed and conducted numerous investigations including:

Project Manager, RCRA Facility Assessments (RFA) at Multiple sites in Region 10, USEPA Region 10, 1993- 1995. Mr. Zimmermann conducted RCRA Facility Assessments under the Technical Enforcement Support contract to EPA Region 10. Sites assessed include the Barrow Landfill, Barrow Alaska; Washington Chemicals Company in Spokane, Washington; Fuel Processors, Inc. in Woodland, Washington; and Siemens Power

Corporation in Richland, Washington. Also managed 15 CERCLA Environmental Priorities Initiative PAs (which were hybrid RFA/PA documents) for a sites in Oregon, Washington and Idaho.

Project Manager, RCRA Operations and Maintenance inspections at Multiple Refinery sites in Region 10, USEPA Region 10, 1993- 1995. Managed and conducted RCRA operations and maintenance (O&M) inspections at refinery sites including the Texaco Refinery in Anacortes Washington and the Tessoro Refinery in Kenai, Alaska.

Conducted reviews of RCRA facility investigation (RFI) workplans and related documents, and Corrective Measures Study (CMS) reports for the U.S. Coast Guard Kodiak Island facility.

Project Manager, RCRA Corrective Action Oversight, Harcros Chemical site, Kansas City, Kansas, USEPA Region 7, 1989- 1991. Provided corrective action oversight support to EPA Region 7 at the Harcros Chemicals site in Kansas City Kansas. Work included reviewing an extensive RCRA Facilities Investigation to determine adequacy of investigation, and negotiating with facility. Coordinated with hydrogeologists and groundwater modelers to estimate fate and transport of chlorinated solvent migration through unsaturated and saturated matrices to the Kansas River.

SCIENTIFIC/TECHNICAL PUBLICATIONS

2003 EPA National Site Assessment Symposium. Presented paper entitled “START, Region 7 GIS System Application” at the 2003 U.S. Environmental Protection Agency National site Assessment Symposium in Pittsburg, Pennsylvania on the beneficial use of GIS in site assessment applications.

2014 Ninth International Conference on Remediation of Chlorinated and Recacitrant Compounds. Presented paper entitled “Incremental Sampling Approach to Verify and Refine Results of traditional Discrete Sampling at Rhylander Park.”

2018 Eleventh International Conference on Remediation of Chlorinated and Recacitrant Compounds. Presented paper entitled “Protecting Community Water Supply through EPA Removal Actions Involving Source Soil and Bedrock Aquifer Remediation.”

PROPERTY PROFILE FORM—Brownfields

Public reporting burden for this collection of information is estimated to average 1.50 hours per response, including the time for reviewing instructions, searching data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate, or any other aspect of this collection of information, including suggestions for reducing this burden, to the Environmental Protection Agency, Office of Environmental Information, Code 2822T, Washington, DC 20460 and to the Paperwork Reduction Project, Office of Management and Budget, Washington, DC 20503. DO NOT RETURN your form to either of these addresses. Send your completed form to the address provided by the issuing office.

PART I- PROPERTY INFORMATION

COOPERATIVE AGREEMENT RECIPIENT INFORMATION

1. Cooperative Agreement Recipient Name (State/Tribe for Section 128(a) Cooperative Agreements; requestor/contractor for TBAs): City of Dellwood

2. Cooperative Agreement Number (contract number for TBAs):

3. What type of cooperative agreement funding is being used for this property?

- ☐ Assessment
- ☐ Revolving Loan Fund
- ☐ Cleanup
- ☐ Section 128(a) – State and Tribal Response
- ☑ TBA (EPA Regions Only)

4. For Assessment, Cleanup, and Revolving Loan Fund cooperative agreements, what type of funding is being used at this property?

- ☐ Hazardous Substance
- ☑ Petroleum
- ☐ Both

5a. Indicate if this form is the initial or Updated Form:

- ☑ Initial Form
- ☐ Updated Form

5b. If "Updated Form," what's the ACRES Property ID?

PROPERTY BACKGROUND INFORMATION

6. Property Name: Fashions R Boutique

7a. Street Address: 9844 West Florissant Avenue

7b. City: Dellwood

7c. County: St. Louis

7d. State: MO

7e. Zip code: 63136

8. Size (in acres): 0.55

9. Parcel Number(s): 11G111170

STATE & TRIBAL BROWNFIELDS/VOLUNTARY RESPONSE PROGRAM INFORMATION

10. State & Tribal Program Enrollment (If the property is not enrolled in a state program, check Property Not Enrolled check box):

Date of Enrollment:

ID Number (if applicable):

☐ Property Not Enrolled in a State or Tribal Program

PROPERTY GEOGRAPHIC INFORMATION *(EPA Brownfields Program, or its contractors, will provide complete latitude/longitude information if cooperative agreement recipients are unable)*

11a. Latitude (use 00.000000 decimal degree format): 38.74686

11b. Longitude (use -000.000000 decimal degree format): -90.279024

11c. Horizontal Collection Method: Global Positioning Method- Unspecified Parameters

11d. Source Map Scale Number (Only if a map/photo was used):

11e. Reference Point (e.g., Center of Facility or Station): Center of a Facility or Station

11f. Horizontal Reference Datum (Choose one):

- ☐ NAD27-North American Datum of 1927
- ☑ NAD83-North American Datum of 1983
- ☐ WGS84-World Geodetic System of 1984

PART II- ENVIRONMENTAL ACTIVITIES

ENVIRONMENTAL ASSESSMENT INFORMATION *(mandatory for Assessment Cooperative Agreements, State & Tribal Property-Specific Assessments, and TBAs; as available for Cleanup and RLF cooperative agreement recipients; CA = Cooperative Agreement)*

Table A – Environmental Assessment Activity (If there are multiple assessments, please use a separate line for each assessment)

Environmental Assessment Detail			Source of Funding (enter one source of funding per line; do not include funding received prior to the award of this						
Activity	Start Date	Completion Date	This US EPA CA	Other Federal	State/Tribal (exclude §128(a) funds)	Local Gov't	Private/ Other	Name of Entity Providing Funds	Amount of Funding Expended on this Activity

PART II- ENVIRONMENTAL ACTIVITIES (continued)

INSTITUTIONAL & ENGINEERING CONTROLS INFORMATION *(mandatory for all cooperative agreement types)*

19a. Indicate whether Institutional Controls are required: ☐ Yes ☐ No ☑ Unknown

19b. If Institutional Controls were required, indicate the category (check all that apply):

☐ Proprietary Controls (e.g., easements, covenants) ☐ Governmental Controls (e.g., zoning, building codes)

☐ Informational Devices (e.g., state registries, deed notices) ☐ Enforcement/Permit Tools (e.g., permits, consent decrees)

Additional Institutional Controls Information:

Subject property is currently vacant (no structures) and not being used at this time.

Address of Data Source (URL if available): _____

19c. Indicate whether Institutional Controls in place: ☐ Yes ☑ No Date: _____

20a. Indicate whether Engineering Controls are required: ☐ Yes ☑ No ☐ Unknown

20b. If Engineering Controls were required, indicate the category (check all that apply):

☐ Cover Technologies (e.g., Capping) ☐ Immobilization Process (e.g., Encapsulation, In-Situ Solidification) ☐ Engineered Barriers (e.g., Slurry Walls, Sheet)

☐ Security (e.g., Guard, Fences) ☐ Other _____

Additional Engineering Controls Information:

Address of Data Source (URL if available): _____

20c. Indicate whether Engineering Controls in place: ☐ Yes ☑ No Date: _____

REDEVELOPMENT AND OTHER LEVERAGED ACCOMPLISHMENTS *(Mandatory for Assessment, Cleanup and RLF Cooperative Agreements; as available for State and Tribal Property Specific Activities and TBAs)*

21. Redevelopment Start Date: _____ **22.** Redevelopment Completion Date: _____

Table D- Redevelopment Leveraged Funding Detail

Source of Funding (enter one source of funding per line; do not include funding received prior to the award of this EPA Cooperative Agreement)				Name of Entity Providing Funds	Amount of Funding Expended on this Activity
Other Federal	State/Tribal	Local Gov't	Private/ Other		
☐	☐	☐	☐		
☐	☐	☐	☐		
☐	☐	☐	☐		
☐	☐	☐	☐		

23. Number of Redevelopment Jobs Leveraged: _____

24. Future Use and Estimated Acreage (check all that apply; For properties with multi-story buildings only, please indicate also the square footage for each type of reuse (e.g. a three story building with first floor commercial and remaining floors residential).

☐ Multi-story building

☑ Greenspace 0.55 acres _____ sq. ft. ☑ Commercial 0.55 acres _____ sq. ft.

☐ Industrial _____ acres _____ sq. ft. ☐ Residential _____ acres _____ sq. ft.

25. Actual Acreage(s) and Type(s) of Greenspace Created: commercial redevelopment or community garden

PART II- ENVIRONMENTAL ACTIVITIES (continued)

ANECDOTAL PROPERTY INFORMATION *(as available for all cooperative agreement types)*

26. Property Highlights:

The approximately 0.55-acre site currently hosts no structures and is a partially paved vacant lot. The foundation of a former building is still apparent at the site. Potential plans are for commercial redevelopment or a community garden. In June 2017, Terracon conducted a Phase I Environmental Site Assessment TBA of the site on behalf of the Missouri Department of Natural Resources (MDNR). The Phase I TBA identified a REC associated with historical use of the site as an auto service and machine shop. The Phase II concluded that no soil or groundwater sample exceeded the MRBCA Tier 1 RBTL for non-residential land use; therefore, it was concluded that follow-up action appeared unwarranted for future non-residential use of the property. However, one soil sample and one groundwater sample exceeded the MRBCA Tier 1 RBTL for residential land use for TPH-GRO. Therefore, the Phase I update concluded that these results pose a REC to the subject property for any future residential use.

PROPERTY PHOTOGRAPH INFORMATION

27. Indicate whether photographs are available: ☑ Yes ☐ No **28.** Indicate whether video is available: ☐ Yes ☑ No

PART III- ADDITIONAL PROPERTY INFORMATION

PROPERTY HISTORY INFORMATION

29. Property Description / History / Past Ownership:

Historical documentation identifies the site in the Historical Auto Service database from approximately 1986 to 1989. The building burned in 2014.

30. Predominant Past Use(s) (check all that apply; For properties with multi-story buildings only, please indicate also the square footage for each type of reuse (e.g. a three story building with first floor commercial and remaining floors residential):

☐ Multi-story building

☐ Greenspace	_____ acres	_____ sq. ft.	☑ Commercial	0.55 acres	_____ sq. ft.
☐ Residential	_____ acres	_____ sq. ft.	☐ Industrial	_____ acres	_____ sq. ft.

OWNERSHIP & SUPERFUND LIABILITY *(Mandatory for Cleanup and RLF Cooperative Agreements)*

31a. Ownership Entity:

☐ Government (Tribal, State, Local) ☑ Private

31b. Current Owner: Juanita Moore

32a. During the life of the cooperative agreement, did ownership change?

☐ Yes ☑ No

32b. If "yes," did Superfund federal landowner liability protections factor into the ownership change?

☐ Yes ☐ No ☐ Unknown

PART IV- APPROVALS

33. Cooperative Agreement Recipient Project Manager

Name (please print): _____ Signature _____ Date: _____

34. US EPA Regional Representative

Name (please print): _____ Signature _____ Date: _____

DEED OF TRUST
WITH FUTURE ADVANCES AND FUTURE OBLIGATIONS GOVERNED BY SECTION 443.055 RSMO

THE TOTAL PRINCIPAL AMOUNT OF ALL OBLIGATIONS SECURED IS $136,000.00.

THIS DEED OF TRUST IS DATED DECEMBER 1, 1997, among LYNN S. SULLIVAN and DEBRA S. SULLIVAN, HUSBAND AND WIFE, AS TENANTS IN COMMON WITH SHELTON E. SULLIVAN TRUSTEE OF THE SHELTON E. SULLIVAN REVOCABLE LIVING TRUST DATED JULY 24, 1992., whose address is 4032 SHACKELFORD ROAD, FLORISSANT, MO 63034 (referred to below as "Grantor"); Enterprise Bank, whose address is 150 N. Meramec, P.O. Box 16020, Clayton, MO 63105 (referred to below sometimes as "Lender" and sometimes as "Beneficiary"); and Charford, Inc., whose address is 150 N. Meramec Clayton, MO 63105 (referred to below as "Trustee").

CONVEYANCE AND GRANT. For valuable consideration, Grantor does hereby grant, bargain, sell, convey and confirm unto the Trustee for the benefit of Lender as Beneficiary the following described real property, together with all existing or subsequently erected or affixed buildings, improvements and fixtures; all easements, rights of way, and appurtenances; all water, water rights and ditch rights (including stock in utilities with ditch or irrigation rights); all proceeds (including insurance proceeds); and all other rights, royalties, and profits relating to the real property, including without limitation all minerals, oil, gas, geothermal and similar matters, located in **ST. LOUIS County, State of Missouri (the "Real Property"):**

SEE ATTACHED EXBIBIT "A"

The Real Property or its address is commonly known as 9844 WEST FLORISSANT AVE., DELLWOOD, MO 63136.

Grantor presently assigns to Lender (also known as Beneficiary in this Deed of Trust) all of Grantor's right, title, and interest in and to all present and future leases of the Property and all Rents from the Property. In addition, Grantor grants Lender a Uniform Commercial Code security interest in the Rents and the Personal Property defined below.

DEFINITIONS. The following words shall have the following meanings when used in this Deed of Trust. Terms not otherwise defined in this Deed of Trust shall have the meanings attributed to such terms in the Uniform Commercial Code. All references to dollar amounts shall mean amounts in lawful money of the United States of America.

Beneficiary. The word "Beneficiary" means Enterprise Bank, its successors and assigns. Enterprise Bank also is referred to as "Lender" in this Deed of Trust.

Deed of Trust. The words "Deed of Trust" mean this Deed of Trust among Grantor, Lender, and Trustee, and includes without limitation all assignment and security interest provisions relating to the Personal Property and Rents.

Existing Indebtedness. The words "Existing Indebtedness" mean the indebtedness described below in the Existing Indebtedness section of this Deed of Trust.

Grantor. The word "Grantor" means any and all persons and entities executing this Deed of Trust, including without limitation LYNN S. SULLIVAN and DEBRA S. SULLIVAN.

Guarantor. The word "Guarantor" means and includes without limitation any and all guarantors, sureties, and accommodation parties in connection with the Indebtedness.

Improvements. The word "Improvements" means and includes without limitation all existing and future improvements, buildings, structures, mobile homes affixed on the Real Property, facilities, additions, replacements and other construction on the Real Property.

Indebtedness. The word "Indebtedness" means all obligations of Grantor under the Guaranty and any amounts expended or advanced by Lender to discharge obligations of Grantor or expenses incurred by Trustee or Lender to enforce obligations of Grantor under this Deed of Trust, together with interest on such amounts as provided in this Deed of Trust. This Deed of Trust secures, in addition to the amounts specified in the Note, future advances in the amount of $136,000.00, together with all interest thereon, which future advances Lender is obligated to make so long as Grantor complies with all the terms and conditions of the Note or other loan agreement; however, in no event shall such future advances (excluding interest) exceed in the aggregate $136,000.00. **The total principal amount of obligations at any one time which is secured by this Deed of Trust, in addition to any interest and any amounts advanced by Lender for the protection of the security interests granted herein, is $136,000.00. This Deed of Trust shall be governed by all provisions of Section 443.055 of the Revised Statutes of Missouri in effect as of the date of this Deed of Trust.**

Lender. The word "Lender" means Enterprise Bank, its successors and assigns.

Note. The word "Note" means the Note dated December 1, 1997, **in the principal amount of $137,221.87** from Grantor to Lender, together with all renewals, extensions, modifications, refinancings, and substitutions for the Note. **NOTICE TO GRANTOR: THE NOTE CONTAINS A VARIABLE INTEREST RATE.**

Personal Property. The words "Personal Property" mean all equipment, fixtures, and other articles of personal property now or hereafter owned by Grantor, and now or hereafter attached or affixed to the Real Property; together with all accessions, parts, and additions to, all replacements of, and all substitutions for, any of such property; and together with all proceeds (including without limitation all insurance proceeds and refunds of premiums) from any sale or other disposition of the Property.

Property. The word "Property" means collectively the Real Property and the Personal Property.

Real Property. The words "Real Property" mean the property, interests and rights described above in the "Conveyance and Grant" section.

Related Documents. The words "Related Documents" mean and include without limitation all promissory notes, credit agreements, loan agreements, environmental agreements, guaranties, security agreements, mortgages, deeds of trust, and all other instruments, agreements and documents, whether now or hereafter existing, executed in connection with the Indebtedness.

Rents. The word "Rents" means all present and future rents, revenues, income, issues, royalties, profits, and other benefits derived from the Property.

Trustee. The word "Trustee" means Charford, Inc. and any substitute or successor trustees.

THIS DEED OF TRUST, INCLUDING THE ASSIGNMENT OF RENTS IS GIVEN TO SECURE (1) PAYMENT OF THE INDEBTEDNESS AND (2) PERFORMANCE OF ANY AND ALL OBLIGATIONS OF GRANTOR UNDER THE NOTE, THE RELATED DOCUMENTS, AND THIS DEED OF TRUST. THIS DEED OF TRUST IS GIVEN AND ACCEPTED ON THE FOLLOWING TERMS:

PAYMENT AND PERFORMANCE. Except as otherwise provided in this Deed of Trust, Grantor shall pay to Lender all amounts secured by this Deed of Trust as they become due, and shall strictly and in a timely manner perform all of Grantor's obligations under the Note, this Deed of Trust, and the Related Documents.

POSSESSION AND MAINTENANCE OF THE PROPERTY. Grantor agrees that Grantor's possession and use of the Property shall be governed by the following provisions:

Possession and Use. Until the occurrence of an Event of Default, Grantor may (a) remain in possession and control of the Property, (b) use, operate or manage the Property, and (c) collect any Rents from the Property.

Duty to Maintain. Grantor shall maintain the Property in tenantable condition and promptly perform all repairs, replacements, and maintenance necessary to preserve its value.

Hazardous Substances. The terms "hazardous waste," "hazardous substance," "disposal," "release," and "threatened release," as used in this Deed of Trust, shall have the same meanings as set forth in the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, 42 U.S.C. Section 9601, et seq. ("CERCLA"), the Superfund Amendments and Reauthorization Act of 1986, Pub. L. No. 99-499 ("SARA"), the Hazardous Materials Transportation Act, 49 U.S.C. Section 1801, et seq., the Resource Conservation and Recovery Act, 42 U.S.C. Section 6901, et seq., or other applicable state or Federal laws, rules, or regulations adopted pursuant to any of the foregoing. The terms "hazardous waste" and "hazardous substance" shall also include, without limitation, petroleum and petroleum by-products or any fraction thereof and asbestos. Grantor represents and warrants to Lender that: (a) During the period of Grantor's ownership of the Property, there has been no use, generation, manufacture, storage, treatment, disposal, release or threatened release of any hazardous waste or substance by any person on, under, about or from the Property; (b) Grantor has no knowledge of, or reason to believe that there has been, except as previously disclosed to and acknowledged by Lender in writing, (i) any use, generation, manufacture, storage, treatment, disposal, release, or threatened release of any hazardous waste or substance on, under, about or from the Property by any prior owners or occupants of the Property or (ii) any actual or threatened litigation or claims of any kind by any person relating to such matters; and (c) Except as previously disclosed to and acknowledged by Lender in writing, (i) neither Grantor nor any tenant, contractor, agent or other authorized user of the Property shall use, generate, manufacture, store, treat, dispose of, or release any hazardous waste or substance on, under, about or from the Property; and (ii) any such activity shall be conducted in compliance with all applicable federal, state, and local laws, regulations and ordinances, including without limitation those laws, regulations, and ordinances described above. Grantor authorizes Lender and its agents to enter upon the Property to make such inspections and tests, at Grantor's expense, as Lender may deem appropriate to determine compliance of the Property with this section of the Deed of Trust. Any inspections or tests made by Lender shall be for Lender's purposes only and shall not be construed to create any responsibility or liability on the part of Lender to Grantor or to any other person. The representations and warranties contained herein are based on Grantor's due diligence in investigating the Property for hazardous waste and hazardous substances. Grantor hereby (a) releases and waives any future claims against Lender for indemnity or contribution in the event Grantor becomes liable for cleanup or other costs under any such laws, and (b) agrees to indemnify and hold harmless Lender against any and all claims, losses, liabilities, damages, penalties, and expenses which Lender may directly or indirectly sustain or suffer resulting from a breach of this section of the Deed of Trust or as a consequence of any use, generation, manufacture, storage, disposal, release or threatened release occurring prior to Grantor's ownership or interest in the Property, whether or not the same was or should have been known to Grantor. The provisions of this section of the Deed of Trust, including the obligation to indemnify, shall survive the payment of the Indebtedness and the satisfaction and reconveyance of the lien of this Deed of Trust and shall not be affected by Lender's acquisition of any interest in the Property, whether by foreclosure or otherwise.

Nuisance, Waste. Grantor shall not cause, conduct or permit any nuisance nor commit, permit, or suffer any stripping of or waste on or to the Property or any portion of the Property. Without limiting the generality of the foregoing, Grantor will not remove, or grant to any other party the right to remove, any timber, minerals (including oil and gas), soil, gravel or rock products without the prior written consent of Lender.

Removal of Improvements. Grantor shall not demolish or remove any Improvements from the Real Property without the prior written consent of Lender. As a condition to the removal of any Improvements, Lender may require Grantor to make arrangements satisfactory to Lender to replace such Improvements with Improvements of at least equal value.

Lender's Right to Enter. Lender and its agents and representatives may enter upon the Real Property at all reasonable times to attend to Lender's interests and to inspect the Property for purposes of Grantor's compliance with the terms and conditions of this Deed of Trust.

Compliance with Governmental Requirements. Grantor shall promptly comply with all laws, ordinances, and regulations, now or hereafter in effect, of all governmental authorities applicable to the use or occupancy of the Property, including without limitation, the Americans With Disabilities Act. Grantor may contest in good faith any such law, ordinance, or regulation and withhold compliance during any proceeding, including appropriate appeals, so long as Grantor has notified Lender in writing prior to doing so and so long as, in Lender's sole opinion, Lender's interests in the Property are not jeopardized. Lender may require Grantor to post adequate security or a surety bond, reasonably satisfactory to Lender, to protect Lender's interest.

Duty to Protect. Grantor agrees neither to abandon nor leave unattended the Property. Grantor shall do all other acts, in addition to those acts set forth above in this section, which from the character and use of the Property are reasonably necessary to protect and preserve the Property.

DUE ON SALE - CONSENT BY LENDER. Lender may, at its option, declare immediately due and payable all sums secured by this Deed of Trust upon the sale or transfer, without the Lender's prior written consent, of all or any part of the Real Property, or any interest in the Real Property. A "sale or transfer" means the conveyance of Real Property or any right, title or interest therein; whether legal, beneficial or equitable; whether voluntary or involuntary; whether by outright sale, deed, installment sale contract, land contract, contract for deed, leasehold interest with a term greater than three (3) years, lease-option contract, or by sale, assignment, or transfer of any beneficial interest in or to any land trust holding title to the Real Property, or by any other method of conveyance of Real Property interest. If any Grantor is a corporation, partnership or limited liability company, transfer also includes any change in ownership of more than twenty-five percent (25%) of the voting stock, partnership interests or limited liability company interests, as the case may be, of Grantor.

TAXES AND LIENS. The following provisions relating to the taxes and liens on the Property are a part of this Deed of Trust.

Payment. Grantor shall pay when due (and in all events prior to delinquency) all taxes, special taxes, assessments, charges (including water and sewer), fines and impositions levied against or on account of the Property, and shall pay when due all claims for work done on or for services rendered or material furnished to the Property. Grantor shall not further encumber the Property or permit or suffer any mechanic's, laborer's, materialman's, statutory or other lien on the Property, except for the lien of taxes and assessments not due, except for the existing indebtedness referred to below, and except as otherwise provided in this Deed of Trust.

Right To Contest. Grantor may withhold payment of any tax, assessment, or claim in connection with a good faith dispute over the obligation to pay, so long as Lender's interest in the Property is not jeopardized. If a lien arises or is filed as a result of nonpayment, Grantor shall within fifteen (15) days after the lien arises or, if a lien is filed, within fifteen (15) days after Grantor has notice of the filing, secure the discharge of the lien, or if requested by Lender, deposit with Lender cash or a sufficient corporate surety bond or other security satisfactory to Lender in an amount sufficient to discharge the lien plus any costs and attorneys' fees or other charges that could accrue as a result of a foreclosure or sale under the lien. In any contest, Grantor shall defend itself and Lender and shall satisfy any adverse judgment before enforcement against the Property. Grantor shall name Lender as an additional obligee under any surety bond furnished in the contest proceedings.

Evidence of Payment. Grantor shall upon demand furnish to Lender satisfactory evidence of payment of the taxes or assessments and shall authorize the appropriate governmental official to deliver to Lender at any time a written statement of the taxes and assessments against the Property.

Notice of Construction. Grantor shall notify Lender at least fifteen (15) days before any work is commenced, any services are furnished, or any materials are supplied to the Property, if any mechanic's lien, materialmen's lien, or other lien could be asserted on account of the work, services, or materials. Grantor will upon request of Lender furnish to Lender advance assurances satisfactory to Lender that Grantor can and will pay the cost of such improvements.

PROPERTY DAMAGE INSURANCE. The following provisions relating to insuring the Property are a part of this Deed of Trust.

Maintenance of Insurance. Grantor shall procure and maintain policies of earth quake insurance and fire insurance with standard extended coverage endorsements on a replacement basis for the full insurable value covering all Improvements on the Real Property in an amount sufficient to avoid application of any coinsurance clause, and with a standard mortgagee clause in favor of Lender. Grantor shall also procure and maintain comprehensive general liability insurance in such coverage amounts as Lender may request with Trustee and Lender being named as additional insureds in such liability insurance policies. Additionally, Grantor shall maintain such other insurance, including but not limited to hazard, business interruption, flood insurance and boiler insurance, as Lender may reasonably require. Policies shall be written in form, amounts, coverages and basis reasonably acceptable to Lender and issued by a company or companies reasonably acceptable to Lender. Grantor, upon request of Lender, will deliver to Lender from time to time the policies or certificates of insurance in form satisfactory to Lender, including stipulations that

coverages will not be cancelled or diminished without at least twenty (20) days' prior written notice to Lender. Each insurance policy also shall include an endorsement providing that coverage in favor of Lender will not be impaired in any way by any act, omission or default of Grantor or any other person. Should the Real Property at any time become located in an area designated by the Director of the Federal Emergency Management Agency as a special flood hazard area, Grantor agrees to obtain and maintain Federal Flood Insurance to the extent such insurance is required by Lender and is or becomes available, for the term of the loan and for the full unpaid principal balance of the loan, or the maximum limit of coverage that is available, whichever is less.

Application of Proceeds. Grantor shall promptly notify Lender of any loss or damage to the Property. Lender may make proof of loss if Grantor fails to do so within fifteen (15) days of the casualty. Whether or not Lender's security is impaired, Lender may, at its election, receive and retain the proceeds of any insurance and apply the proceeds to the reduction of the Indebtedness, payment of any lien affecting the Property, or the restoration and repair of the Property. If Lender elects to apply the proceeds to restoration and repair, Grantor shall repair or replace the damaged or destroyed Improvements in a manner satisfactory to Lender. Lender shall, upon satisfactory proof of such expenditure, pay or reimburse Grantor from the proceeds for the reasonable cost of repair or restoration if Grantor is not in default under this Deed of Trust. Any proceeds which have not been disbursed within 180 days after their receipt and which Lender has not committed to the repair or restoration of the Property shall be used first to pay any amount owing to Lender under this Deed of Trust, then to pay accrued interest, and the remainder, if any, shall be applied to the principal balance of the Indebtedness. If Lender holds any proceeds after payment in full of the Indebtedness, such proceeds shall be paid to Grantor as Grantor's interests may appear.

Unexpired Insurance at Sale. Any unexpired insurance shall inure to the benefit of, and pass to, the purchaser of the Property covered by this Deed of Trust at any trustee's sale or other sale held under the provisions of this Deed of Trust, or at any foreclosure sale of such Property.

Grantor's Report on Insurance. Upon request of Lender, however not more than once a year, Grantor shall furnish to Lender a report on each existing policy of insurance showing: (a) the name of the insurer; (b) the risks insured; (c) the amount of the policy; (d) the property insured, the then current replacement value of such property, and the manner of determining that value; and (e) the expiration date of the policy. Grantor shall, upon request of Lender, have an independent appraiser satisfactory to Lender determine the cash value replacement cost of the Property.

TAX AND INSURANCE RESERVES. Subject to any limitations set by applicable law, Lender may require Grantor to maintain with Lender reserves for payment of annual taxes, assessments, and insurance premiums, which reserves shall be created by advance payment or monthly payments of a sum estimated by Lender to be sufficient to produce amounts at least equal to the taxes, assessments, and insurance premiums to be paid. The reserve funds shall be held by Lender as a general deposit from Grantor, which Lender may satisfy by payment of the taxes, assessments, and insurance premiums required to be paid by Grantor as they become due. Lender shall have the right to draw upon the reserve funds to pay such items, and Lender shall not be required to determine the validity or accuracy of any item before paying it. Nothing in the Deed of Trust shall be construed as requiring Lender to advance other monies for such purposes, and Lender shall not incur any liability for anything it may do or omit to do with respect to the reserve account. All amounts in the reserve account are hereby pledged to further secure the Indebtedness, and Lender is hereby authorized to withdraw and apply such amounts on the Indebtedness upon the occurrence of an Event of Default. Lender shall not be required to pay any interest or earnings on the reserve funds unless required by law or agreed to by Lender in writing. Lender does not hold the reserve funds in trust for Grantor, and Lender is not Grantor's agent for payment of the taxes and assessments required to be paid by Grantor.

EXPENDITURES BY LENDER. If Grantor fails to comply with any provision of this Deed of Trust, including any obligation to maintain Existing Indebtedness in good standing as required below, or if any action or proceeding is commenced that would materially affect Lender's interests in the Property, Lender on Grantor's behalf may, but shall not be required to, take any action that Lender deems appropriate. Any amount that Lender expends in so doing will bear interest at the rate provided for in the Note from the date incurred or paid by Lender to the date of repayment by Grantor. All such expenses, at Lender's option, will (a) be payable on demand, (b) be added to the balance of the Note and be apportioned among and be payable with any installment payments to become due during either (i) the term of any applicable insurance policy or (ii) the remaining term of the Note, or (c) be treated as a balloon payment which will be due and payable at the Note's maturity. This Deed of Trust also will secure payment of these amounts. The rights provided for in this paragraph shall be in addition to any other rights or any remedies to which Lender may be entitled on account of the default. Any such action by Lender shall not be construed as curing the default so as to bar Lender from any remedy that it otherwise would have had.

WARRANTY; DEFENSE OF TITLE. The following provisions relating to ownership of the Property are a part of this Deed of Trust.

Title. Grantor warrants that: (a) Grantor holds good and marketable title of record to the Property in fee simple, free and clear of all liens and encumbrances other than those set forth in the Real Property description or in the Existing Indebtedness section below or in any title insurance policy, title report, or final title opinion issued in favor of, and accepted by, Lender in connection with this Deed of Trust, and (b) Grantor has the full right, power, and authority to execute and deliver this Deed of Trust to Lender.

Defense of Title. Subject to the exception in the paragraph above, Grantor warrants and will forever defend the title to the Property against the lawful claims of all persons. In the event any action or proceeding is commenced that questions Grantor's title or the interest of Trustee or Lender under this Deed of Trust, Grantor shall defend the action at Grantor's expense. Grantor may be the nominal party in such proceeding, but Lender shall be entitled to participate in the proceeding and to be represented in the proceeding by counsel of Lender's own choice, and Grantor will deliver, or cause to be delivered, to Lender such instruments as Lender may request from time to time to permit such participation.

Compliance With Laws. Grantor warrants that the Property and Grantor's use of the Property complies with all existing applicable laws, ordinances, and regulations of governmental authorities.

EXISTING INDEBTEDNESS. The following provisions concerning existing indebtedness (the "Existing Indebtedness") are a part of this Deed of Trust.

Existing Lien. The lien of this Deed of Trust securing the Indebtedness may be secondary and inferior to an existing lien. Grantor expressly covenants and agrees to pay, or see to the payment of, the Existing Indebtedness and to prevent any default on such indebtedness, any default under the instruments evidencing such indebtedness, or any default under any security documents for such indebtedness.

Default. If the payment of any installment of principal or any interest on the Existing Indebtedness is not made within the time required by the note evidencing such indebtedness, or should a default occur under the instrument securing such indebtedness and not be cured during any applicable grace period therein, then, at the option of Lender, the Indebtedness secured by this Deed of Trust shall become immediately due and payable, and this Deed of Trust shall be in default.

No Modification. Grantor shall not enter into any agreement with the holder of any mortgage, deed of trust, or other security agreement which has priority over this Deed of Trust by which that agreement is modified, amended, extended, or renewed without the prior written consent of Lender. Grantor shall neither request nor accept any future advances under any such security agreement without the prior written consent of Lender.

CONDEMNATION. The following provisions relating to condemnation proceedings are a part of this Deed of Trust.

Application of Net Proceeds. If all or any part of the Property is condemned by eminent domain proceedings or by any proceeding or purchase in lieu of condemnation, Lender may at its election require that all or any portion of the net proceeds of the award be applied to the Indebtedness or the repair or restoration of the Property. The net proceeds of the award shall mean the award after payment of all reasonable costs, expenses, and attorneys' fees incurred by Trustee or Lender in connection with the condemnation.

Proceedings. If any proceeding in condemnation is filed, Grantor shall promptly notify Lender in writing, and Grantor shall promptly take such steps as may be necessary to defend the action and obtain the award. Grantor may be the nominal party in such proceeding, but Lender shall be entitled to participate in the proceeding and to be represented in the proceeding by counsel of its own choice, and Grantor will deliver or cause to be delivered to Lender such instruments as may be requested by it from time to time to permit such participation.

IMPOSITION OF TAXES, FEES AND CHARGES BY GOVERNMENTAL AUTHORITIES. The following provisions relating to governmental taxes, fees and charges are a part of this Deed of Trust:

Current Taxes, Fees and Charges. Upon request by Lender, Grantor shall execute such documents in addition to this Deed of Trust and take whatever other action is requested by Lender to perfect and continue Lender's lien on the Real Property. Grantor shall reimburse Lender for all taxes, as described below, together with all expenses incurred in recording, perfecting or continuing this Deed of Trust, including without limitation all taxes, fees, documentary stamps, and other charges for recording or registering this Deed of Trust.

Taxes. The following shall constitute taxes to which this section applies: (a) a specific tax upon this type of Deed of Trust or upon all or any part of the Indebtedness secured by this Deed of Trust; (b) a specific tax on Grantor which Grantor is authorized or required to deduct from payments on the Indebtedness secured by this type of Deed of Trust; (c) a tax on this type of Deed of Trust chargeable against the Lender or the holder of the Note; and (d) a specific tax on all or any portion of the Indebtedness or on payments of principal and interest made by Grantor.

Subsequent Taxes. If any tax to which this section applies is enacted subsequent to the date of this Deed of Trust, this event shall have the same effect as an Event of Default (as defined below), and Lender may exercise any or all of its available remedies for an Event of Default as provided below unless Grantor either (a) pays the tax before it becomes delinquent, or (b) contests the tax as provided above in the Taxes and Liens section and deposits with Lender cash or a sufficient corporate surety bond or other security satisfactory to Lender.

SECURITY AGREEMENT; FINANCING STATEMENTS. The following provisions relating to this Deed of Trust as a security agreement are a part of this Deed of Trust.

This Deed of Trust constitutes both a Deed of Trust encumbering the Premises and a "Security Agreement" pursuant to the Uniform Commercial Code as adopted in Missouri ("UCC"). Borrower hereby grants to Lender a continuing security interest in and to (a) all personal property now or hereafter owned by Borrower and used or intended to be used in the possession, occupation or enjoyment of the Premises; (b) all of Borrower's goods, chattels, furniture, equipment, machinery, parts, tools, and special tools together with all additions, attachments, accessories, accessions and repairs thereto and replacements thereof; (c) all cash and non-cash proceeds of the foregoing described in (a) and (b) above, whether immediate or remote; and (d) all replacements, additions and substitutions of the foregoing described in (a) and (b) above. (All of the foregoing are hereinafter sometimes collectively or separately called the "Personalty".) (The Premises and the Personalty are hereinafter sometimes collectively or separately called the "Collateral".) In addition to all other rights, powers, options and remedies granted hereunder, Lender shall have with respect to the Personalty all the rights, powers, options and remedies granted hereunder, Lender shall have with respect to the Personalty all the rights, powers, options and remedies granted to a secured party under the UCC. Borrower hereby further grants Lender a continuing security interest in and right to set off against any account Borrower has with Lender, and other collateral securing other loans or obligations with Lender and any other property of Borrower now or hereafter in Lender's possession, all as security hereunder. No further security interest shall be created or allowed to be created with respect to any personal property pledged hereunder.

FURTHER ASSURANCES; ATTORNEY-IN-FACT. The following provisions relating to further assurances and attorney-in-fact are a part of this Deed of Trust.

Further Assurances. At any time, and from time to time, upon request of Lender, Grantor will make, execute and deliver, or will cause to be made, executed or delivered, to Lender or to Lender's designee, and when requested by Lender, cause to be filed, recorded, refiled, or rerecorded, as the case may be, at such times and in such offices and places as Lender may deem appropriate, any and all such mortgages, deeds of trust, security deeds, security agreements, financing statements, continuation statements, instruments of further assurance, certificates, and other documents as may, in the sole opinion of Lender, be necessary or desirable in order to effectuate, complete, perfect, continue, or preserve (a) the obligations of Grantor under the Note, this Deed of Trust, and the Related Documents, and (b) the liens and security interests created by this Deed of Trust on the Property, whether now owned or hereafter acquired by Grantor. Unless prohibited by law or agreed to the contrary by Lender in writing, Grantor shall reimburse Lender for all costs and expenses incurred in connection with the matters referred to in this paragraph.

Attorney-in-Fact. If Grantor fails to do any of the things referred to in the preceding paragraph, Lender may do so for and in the name of Grantor and at Grantor's expense. For such purposes, Grantor hereby irrevocably appoints Lender as Grantor's durable attorney-in-fact for the purpose of making, executing, delivering, filing, recording, and doing all other things as may be necessary or desirable, in Lender's sole opinion, to accomplish the matters referred to in the preceding paragraph.

TENANCY OF GRANTOR. By the execution and delivery of this Deed of Trust, Grantor does hereby become a tenant of the Trustee, and Trustee hereby lets to Grantor the Property until the Indebtedness is fully paid or until a sale under the provisions of the paragraph of this Deed of Trust entitled "Foreclosure," at a rental of one cent per month, payable monthly on demand. Grantor agrees to surrender peaceable possession of the Property and every part thereof sold or conveyed by the Trustee under the terms of this Deed of Trust to the purchaser at such sale upon the day of such sale, without notice or demand.

FULL PERFORMANCE. If Grantor pays all the Indebtedness, including without limitation all future advances, when due, and otherwise performs all the obligations imposed upon Grantor under this Deed of Trust, then this trust shall cease and be void and the Property shall be released at the cost of Grantor. If, however, payment is made by Grantor, whether voluntarily or otherwise, or by guarantor or by any third party, on the Indebtedness and thereafter Lender is forced to remit the amount of that payment (a) to Grantor's trustee in bankruptcy or to any similar person under any federal or state bankruptcy law or law for the relief of debtors, (b) by reason of any judgment, decree or order of any court or administrative body having jurisdiction over Lender or any of Lender's property, or (c) by reason of any settlement or compromise of any claim made by Lender with any claimant (including without limitation Grantor), the Indebtedness shall be considered unpaid for the purpose of enforcement of this Deed of Trust and this Deed of Trust shall continue to be effective or shall be reinstated, as the case may be, notwithstanding any cancellation of this Deed of Trust or of any note or other instrument or agreement evidencing the Indebtedness and the Property will continue to secure the amount repaid or recovered to the same extent as if that amount never had been originally received by Lender, and Grantor shall be bound by any judgment, decree, order, settlement or compromise relating to the Indebtedness or to this Deed of Trust.

DEFAULT. Each of the following, at the option of Lender, shall constitute an event of default ("Event of Default") under this Deed of Trust:

Default on Indebtedness. Failure of Grantor to make any payment when due on the Indebtedness.

Default on Other Payments. Failure of Grantor within the time required by this Deed of Trust to make any payment for taxes or insurance, or any other payment necessary to prevent filing of or to effect discharge of any lien.

Compliance Default. Failure of Grantor to comply with any other term, obligation, covenant or condition contained in this Deed of Trust, the Note or in any of the Related Documents.

False Statements. Any warranty, representation or statement made or furnished to Lender by or on behalf of Grantor under this Deed of Trust, the Note or the Related Documents is false or misleading in any material respect, either now or at the time made or furnished.

Defective Collateralization. This Deed of Trust or any of the Related Documents ceases to be in full force and effect (including failure of any collateral documents to create a valid and perfected security interest or lien) at any time and for any reason.

Termination of Future Advances. The exercise by Grantor of Grantor's rights under Mo. Rev. Stat. Section 443.055 (or any successor provision to such statute) to terminate the operation of this Deed of Trust as security for future advances on future obligations.

Death or Insolvency. The death of Grantor or the dissolution or termination of Grantor's existence as a going business, the insolvency of Grantor, the appointment of a receiver for any part of Grantor's property, any assignment for the benefit of creditors, any type of creditor workout, or the commencement of any proceeding under any bankruptcy or insolvency laws by or against Grantor.

Foreclosure, Forfeiture, etc. Commencement of foreclosure or forfeiture proceedings, whether by judicial proceeding, self-help, repossession or any other method, by any creditor of Grantor or by any governmental agency against any of the Property. However, this subsection shall not apply in the event of a good faith dispute by Grantor as to the validity or reasonableness of the claim which is the basis of the foreclosure or forefeiture proceeding, provided that Grantor gives Lender written notice of such claim and furnishes reserves or a surety bond for the claim satisfactory to Lender.

Breach of Other Agreement. Any breach by Grantor under the terms of any other agreement between Grantor and Lender that is not remedied within any grace period provided therein, including without limitation any agreement concerning any indebtedness or other obligation of Grantor to Lender, whether existing now or later.

Events Affecting Guarantor. Any of the preceding events occurs with respect to any Guarantor of any of the Indebtedness or any Guarantor dies or becomes incompetent, or revokes or disputes the validity of, or liability under, any Guaranty of the Indebtedness.

Adverse Change. A material adverse change occurs in Grantor's financial condition, or Lender believes the prospect of payment or performance of the Indebtedness is impaired.

Insecurity. Lender in good faith deems itself insecure.

Existing Indebtedness. A default shall occur under any Existing Indebtedness or under any instrument on the Property securing any Existing Indebtedness, or commencement of any suit or other action to foreclose any existing lien on the Property.

RIGHTS AND REMEDIES ON DEFAULT. Upon the occurrence of any Event of Default and at any time thereafter, Trustee or Lender, at its option, may exercise any one or more of the following rights and remedies, in addition to any other rights or remedies provided by law:

Accelerate Indebtedness. Lender shall have the right at its option without notice to Grantor to declare the entire Indebtedness immediately due and payable, including any prepayment penalty which Grantor would be required to pay.

Foreclosure. Lender shall have the right to direct the Trustee to proceed to sell the Property at public vendue or out-cry to the highest bidder for cash, (as to any part of the Property situated in the City of St. Louis) at the East Front Door of the Court House, being the Civic Courts Building, 11th and Market Streets, in the City of St. Louis; and/or (as to any part of the Property situated in the County of St. Louis) at the First Floor, Plaza Level, North Door of the St. Louis County Government Center Courts Building, 7900 Carondolet Avenue, in Clayton, in the County of St. Louis, State of Missouri, first giving all notices required by Missouri law, then in effect, with respect to exercising powers of sale under deeds of trust. Upon such sale, the Trustee shall execute and deliver a deed or deeds of conveyance of the Property sold to the purchasers thereof, and any statement or recital of fact in any such deed shall be prima facie evidence of the truth of such statement or recital. The Trustee shall receive the proceeds of any such sale, out of which the Trustee shall pay, first the costs and expenses of executing this trust, including compensation to the Trustee and to any attorneys employed by the Trustee, for their services, and the cost of procuring evidence of title, second, to Lender, for all moneys paid for insurance, taxes, lien claims, and other charges, together with interest thereon as provided in this Deed of Trust, third, to Lender, all remaining Indebtedness, including the Note; fourth, the remainder, if any, to the holders of any lien on the Property junior to the lien of this

Deed of Trust and to the Grantor, as their interests may appear. In the event the net proceeds of such sale or sales shall not be sufficient to pay in full the Indebtedness secured by this Deed of Trust, unless prohibited by law, Grantor hereby promises and agrees to pay any deficiency thereon on demand, with interest.

UCC Remedies. With respect to all or any part of the Personal Property, Lender shall have all the rights and remedies of a secured party under the Uniform Commercial Code.

Collect Rents. Lender shall have the right, without notice to Grantor, to take possession of and manage the Property and collect the Rents, including amounts past due and unpaid, and apply the net proceeds, over and above Lender's costs, against the Indebtedness. In furtherance of this right, Lender may require any tenant or other user of the Property to make payments of rent or use fees directly to Lender. If the Rents are collected by Lender, then Grantor irrevocably designates Lender as Grantor's attorney-in-fact to endorse instruments received in payment thereof in the name of Grantor and to negotiate the same and collect the proceeds. Payments by tenants or other users to Lender in response to Lender's demand shall satisfy the obligations for which the payments are made, whether or not any proper grounds for the demand existed. Lender may exercise its rights under this subparagraph either in person, by agent, or through a receiver.

Appoint Receiver. Lender shall have the right to have a receiver appointed to take possession of all or any part of the Property, with the power to protect and preserve the Property, to operate the Property preceding foreclosure or sale, and to collect the Rents from the Property and apply the proceeds, over and above the cost of the receivership, against the Indebtedness. The receiver may serve without bond if permitted by law. Lender's right to the appointment of a receiver shall exist whether or not the apparent value of the Property exceeds the Indebtedness by a substantial amount. Employment by Lender shall not disqualify a person from serving as a receiver.

Other Remedies. Trustee or Lender shall have any other right or remedy provided in this Deed of Trust or the Note or by law.

Cumulative Remedies. All of Lender's rights and remedies, whether evidenced by this Deed of Trust, the Related Documents, or by any other writing, shall be cumulative and may be exercised singularly or concurrently. Election by Lender to pursue any remedy shall not exclude pursuit of any other remedy, and an election to make expenditures or to take action to perform an obligation of Grantor under this Deed of Trust, after Grantor's failure to perform, shall not affect Lender's right to declare a default and to exercise its remedies.

Notice of Sale. Lender shall give Grantor reasonable notice of the time and place of any public sale of the Personal Property or of the time after which any private sale or other intended disposition of the Personal Property is to be made. Reasonable notice shall mean notice given at least ten (10) days before the time of the sale or disposition. Any sale of Personal Property may be made in conjunction with any sale of the Real Property.

Sale of the Property. To the extent permitted by applicable law, Grantor hereby waives any and all rights to have the Property marshalled. In exercising its rights and remedies, the Trustee or Lender shall be free to sell all or any part of the Property together or separately, in one sale or by separate sales. Lender shall be entitled to bid at any public sale on all or any portion of the Property.

Waiver; Election of Remedies. A waiver by any party of a breach of a provision of this Deed of Trust shall not constitute a waiver of or prejudice the party's rights otherwise to demand strict compliance with that provision or any other provision. Election by Lender to pursue any remedy provided in this Deed of Trust, the Note, in any Related Document, or provided by law shall not exclude pursuit of any other remedy, and an election to make expenditures or to take action to perform an obligation of Grantor under this Deed of Trust after failure of Grantor to perform shall not affect Lender's right to declare a default and to exercise any of its remedies.

Attorneys' Fees; Expenses. Lender shall be entitled to recover all expenses incurred by Lender which in Lender's opinion are necessary at any time for the protection of its interest or the enforcement of its rights shall become a part of the Indebtedness payable on demand and shall bear interest at the Note rate from the date of expenditure until repaid. Expenses covered by this paragraph include, without limitation, however subject to any limits under applicable law, Lender's attorneys' fees whether or not there is a lawsuit, including attorneys' fees for bankruptcy proceedings (including efforts to modify or vacate any automatic stay or injunction), appeals and any anticipated post-judgment collection services,the cost of searching records, obtaining title reports (including foreclosure reports), surveyors' reports, appraisal fees, title insurance, and fees for the Trustee, to the extent permitted by applicable law. Grantor also will pay any court costs, in addition to all other sums provided by law.

Rights of Trustee. Trustee shall have all of the rights and duties of Lender as set forth in this section.

POWERS AND OBLIGATIONS OF TRUSTEE. The following provisions relating to the powers and obligations of Trustee are part of this Deed of Trust.

Powers of Trustee. In addition to all powers of Trustee arising as a matter of law, Trustee shall have the power to take the following actions with respect to the Property to the extent necessary to give clear title and upon the written request of Lender and Grantor: (a) join in preparing and filing a map or plat of the Real Property, including the dedication of streets or other rights to the public; (b) join in granting any easement or creating any restriction on the Real Property; and (c) join in any subordination or other agreement affecting this Deed of Trust or the interest of Lender under this Deed of Trust.

Obligations to Notify. Trustee shall not be obligated to notify any other party of a pending sale under any other trust deed or lien, or of any action or proceeding in which Grantor, Lender, or Trustee shall be a party, unless the action or proceeding is brought by Trustee.

Trustee. Trustee shall meet all qualifications required for Trustee under applicable law. In addition to the rights and remedies set forth above, with respect to all or any part of the Property, the Trustee shall have the right to foreclose by notice and sale, and Lender shall have the right to foreclose by judicial foreclosure, in either case in accordance with and to the full extent provided by applicable law.

Successor Trustee. Lender, at Lender's option, may from time to time appoint and/or remove a successor Trustee to any Trustee appointed hereunder by an instrument executed and acknowledged by Lender and recorded in the office of the recorder of ST. LOUIS County, Missouri. The instrument shall contain, in addition to all other matters required by state law, the names of the original Lender, Trustee, and Grantor, the book and page where this Deed of Trust is recorded, and the name and address of the successor trustee, and the instrument shall be executed and acknowledged by Lender or its successors in interest. The successor trustee, without conveyance of the Property, shall succeed to all the title, power, and duties conferred upon the Trustee in this Deed of Trust and by applicable law.

NOTICES TO GRANTOR AND OTHER PARTIES. Any notice under this Deed of Trust shall be in writing and shall be effective when actually delivered, or when deposited with a nationally recognized overnight courier, or, if mailed, shall be deemed effective when deposited in the United States mail first class, registered mail, postage prepaid, directed to the addresses shown near the beginning of this Deed of Trust. Grantor shall change its address for notices under this Deed of Trust only by giving formal written notice to the other parties, specifying that the purpose of the notice is to change the party's address. All copies of notices of foreclosure from the holder of any lien which has priority over this Deed of Trust shall be sent to Lender's address, as shown near the beginning of this Deed of Trust. For notice purposes, Grantor agrees to keep Lender and Trustee informed at all times of Grantor's current address.

MISCELLANEOUS PROVISIONS. The following miscellaneous provisions are a part of this Deed of Trust:

Amendments. This Deed of Trust, together with any Related Documents, constitutes the entire understanding and agreement of the parties as to the matters set forth in this Deed of Trust. No alteration of or amendment to this Deed of Trust shall be effective unless given in writing and signed by the party or parties sought to be charged or bound by the alteration or amendment.

Annual Reports. If the Property is used for purposes other than Grantor's residence, Grantor shall furnish to Lender, upon request, a certified statement of net operating income received from the Property during Grantor's previous fiscal year in such form and detail as Lender shall require. "Net operating income" shall mean all cash receipts from the Property less all cash expenditures made in connection with the operation of the Property.

Applicable Law. This Deed of Trust has been delivered to Lender and accepted by Lender in the State of Missouri. This Deed of Trust shall be governed by and construed in accordance with the laws of the State of Missouri. If there is a lawsuit, Grantor agrees upon Lender's request to submit to the jurisdiction of the Federal court or courts of St. Louis County, the State of Missouri.

Caption Headings. Caption headings in this Deed of Trust are for convenience purposes only and are not to be used to interpret or define the provisions of this Deed of Trust.

Merger. There shall be no merger of the interest or estate created by this Deed of Trust with any other interest or estate in the Property at any time held by or for the benefit of Lender in any capacity, without the written consent of Lender.

Multiple Parties. All obligations of Grantor under this Deed of Trust shall be joint and several, and all references to Grantor shall mean each and every Grantor. This means that each of the persons signing below is responsible for all obligations in this Deed of Trust.

Severability. If a court of competent jurisdiction finds any provision of this Deed of Trust to be invalid or unenforceable as to any person or circumstance, such finding shall not render that provision invalid or unenforceable as to any other persons or circumstances. If feasible, any such offending provision shall be deemed to be modified to be within the limits of enforceability or validity; however, if the offending provision cannot be so modified, it shall be stricken and all other provisions of this Deed of Trust in all other respects shall remain valid and enforceable.

Successors and Assigns. Subject to the limitations stated in this Deed of Trust on transfer of Grantor's interest, this Deed of Trust shall be binding upon and inure to the benefit of the parties, their successors and assigns. If ownership of the Property becomes vested in a person other

than Grantor, Lender, without notice to Grantor, may deal with Grantor's successors with reference to this Deed of Trust and the Indebtedness by way of forbearance or extension without releasing Grantor from the obligations of this Deed of Trust or liability under the Indebtedness.

Time is of the Essence. Time is of the essence in the performance of this Deed of Trust by Grantor.

Waivers and Consents. Lender shall not be deemed to have waived any rights under this Deed of Trust (or under the Related Documents) unless such waiver is in writing and signed by Lender. No delay or omission on the part of Lender in exercising any right shall operate as a waiver of such right or any other right. A waiver by any party of a provision of this Deed of Trust shall not constitute a waiver of or prejudice the party's right otherwise to demand strict compliance with that provision or any other provision. No prior waiver by Lender, nor any course of dealing between Lender and Grantor, shall constitute a waiver of any of Lender's rights or any of Grantor's obligations as to any future transactions. Whenever consent by Lender is required in this Deed of Trust, the granting of such consent by Lender in any instance shall not constitute continuing consent to subsequent instances where such consent is required.

Waiver of Homestead Exemption. Grantor hereby releases and waives all rights and benefits of the homestead exemption laws of the State of Missouri as to all Indebtedness secured by this Deed of Trust.

EACH GRANTOR ACKNOWLEDGES HAVING READ ALL THE PROVISIONS OF THIS DEED OF TRUST, AND EACH GRANTOR AGREES TO ITS TERMS.

Form 320 Printed And For Sale By The St. Louis Printing And Legal Forms Co., St. Louis, Mo. A Division Of [illegible] CLASS 2

GENERAL WARRANTY DEED
(INDIVIDUAL)

This Deed, Made and entered into this 24th day of July , 1992 , by and between Lynn S. Sullivan and Debra S. Sullivan, Husband and Wife, As Tenants in Common with Shelton E. Sullivan and Anna L. Sullivan, Husband and Wife

of the County of St. Louis State of Missouri party or parties of the first part, and Lynn S. Sullivan and Debra S. Sullivan, Husband and Wife, as Tenants in Common with Shelton E. Sullivan Revocable Living Trust dated July 24, 1992 having a mailing address of 621 Coachway Lane, Hazelwood, MO 63042

of the County of St. Louis State of Missouri party or parties of the second part.

WITNESSETH, that the said party or parties of the first part, for and in consideration of the sum of One Dollar and other valuable considerations paid by the said party or parties of the second part, the receipt of which is hereby acknowledged, does or do by these presents *GRANT, BARGAIN AND SELL, CONVEY AND CONFIRM* unto the said party or parties of the second part, the following described Real Estate, situated in the County of St. Louis and State of Missouri, to-wit:

Part of Lot 4 of CHAMBERS ESTATE SUBDIVISION in Fractional Section 7, Township 46 North, Range 7 East, in St. Louis County, Missouri, described as follows; Beginning at a point in the East line of Florissant Avenue, 100 feet wide, said point being the Northwest corner of property conveyed to Dellwood Bowl, Inc., by deed recorded in Book 3914 page 220; thence North along the East line of Florissant Avenue, 120 feet to a point; thence Northeastwardly and parallel to the North line of porperty conveyed to Dellwood Bowl, Inc., as aforesaid, to a point in the West line of Dellwood Park, a Subdivision, the plat of which is recorded in Plat Book 52 page 5; thence Southwardly along said West line of Dellwood Park, 120 feet to the Northeast corner of property conveyed to Dellwood Bowl, Inc., as aforesaid and thence Westwardly along the North line of said Dellwood Bowl, Inc., 200.68 feet and to the point of beginning.

483

TO HAVE AND TO HOLD the same, together with all rights and appurtenances to the same belonging, unto the said party or parties of the second part, and to the heirs and assigns of such party or parties forever.

The said party or parties of the first part hereby covenanting that said party or parties and the heirs, executors and administrators of such party or parties, shall and will *WARRANT AND DEFEND* the title to the premises unto the said party or parties of the second part, and to the heirs and assigns of such party or parties forever, against the lawful claims of all persons whomsoever, excepting, however, the general taxes for the calendar year 1992 and thereafter, and special taxes becoming a lien after the date of this deed.

IN WITNESS WHEREOF, the said party or parties of the first part has or have hereunto set their hand or hands the day and year first above written.
