Thanks. Please fill out the attached form so I can add this site to SEMS. You'll also need to request a site/spill ID from Gail.

Yes. I do not think you need to specifically state the "removal w/o order," but just be clear that our response objectives included requirements to assess, secure, and remove the compressed gas cylinders from the site.

Thank you.

Calvin J. Terada, Manager
Emergency Response Unit

Hi Calvin,

Are we considering this emergency response a removal without an order or a removal assessment?

Should we be counting this one as a CERCLA removal?
