

EPA Removal Action at Ogden Swift Building

When: April 1, 2019– ??

What: The EPA is conducting a removal action at the Ogden Swift Building to stabilize areas of the building and remove the highly volatile and explosive chemicals found in the building.

What to Expect:

Increased activity including trucks entering and exiting onto Exchange Road and around Ogden City Kayak Park and Dog Park.

Workers will be wearing protective clothing during the removal as a part of our worker health and safety protocol.

Personnel outside of the building wearing Tyvek suits working with large containers.

Example of
Tyvek suit
