RE: Removal Assessment Report and Clean -- up  
Boston & Colorado Smelter, Alma, Colorado

Dear Peter:

In regards to the Boston & Colorado Smelter site located in the Town of Alma, Colorado, the Town wishes to express its support is getting the site cleaned up. The property is located on Main Street in the town. Main Street is our only commercial area. The smelter site is currently undevelopable in any conventional way. Therefore, no development has or is being planned. This effects the economic growth of our tiny community.

It is our understanding and hope that funds are available in cleaning up the site so that the current owners, who had nothing to do with the original smelter, do not incur a huge financial burden. Having the EPA come into our community and contributing to its economic health would be a great PR move.

Thank you for your continued efforts in addressing this issue.

Sincerely,

Nancy A. Comer  
Town Administrator,  
Town of Alma
