

you about your property near Eagle
Grass, but your voicemail is full.
Please call me at this number or
Annette Maxwell at [303-312-6068](tel:303-312-6068).
Thank you.

I am in process of taking care of this
will be done in two weeks. Someone
from tribe went in and tipped
barrels over and destroyed the
house. I am tired of this. It is used
motor oil that can be used in
tractors. Not anything bad

This would be a lot easier on the
phone. Do you have any photos of
the drums being tipped over? Did
they spill, or just get upended?

Read 12:03 PM

I can't go down there right now. I am
a nurse and have to stay away from
COVID areas. I had a pic sent by you
guys. I can't go in until this is lifted.
There are plans in the works for
someone to pick up and have
destroyed. I guess what upsets me
is everyone running all over the land
that is not theirs and destroying it. I
will let it taken care of.

And will notify you when o do
