22	YCI Methanol Plant
23	IGP Methanol LLC - Gulf Coast Methanol Complex
24	KMe St James Holdings LLC - Methanol Terminal
25	Kemira Chemicals Inc
26	Oil Sheening
27	Port Fourchon Oil

ASPECT:
 The Airborne Spectral Photometric Environmental Collection Technology (ASPECT) aircraft conducted a screening level assessment to evaluate the unreported or undetected releases of hazardous materials or contaminants in the vicinity of priority industrial facilities in the area surrounding New Orleans and Houma, Louisiana on September 05, 2021. This map shows the flight path ASPECT used, however data collection only occurs in the vicinity of the facilities on the map. The screening level results from ASPECT were compared to the Texas' Air Monitoring Comparison Values (AMCVs) and California's Office of Health Hazard Assessment Acute Reference Exposure Levels (RELs). No detectable analyte concentrations were observed.
