

June 10, 2021

Dear Property Owner or Tenant,

My name is Romie Duarte and I work for the United States Environmental Protection Agency (EPA). I am the Community Involvement Coordinator for the Montrose and Del Amo EPA Superfund sites, which are about a mile away from your neighborhood. I, along with my EPA coworker Michael Schulman, am interested in speaking with you and your neighbors about upcoming soil sampling work in your neighborhood. You may have seen a postcard inviting you to a meeting on this project earlier this year.

In addition to answering any questions on this project, we would be interested to hear from you on how we can best interact and share information with you and your neighbors. *To discuss this project, please feel free to contact myself or Michael by email or phone at your earliest convenience (see contact information at the end of this letter).*

For more information on this project, please visit: [response.epa.gov/MontroseHSP](https://response.epa.gov/MontroseHSP)

---

We would also like invite you to our next community meeting on the sites. We host this meeting twice a year (June and December), and our next meeting (online) will be on **Tuesday, June 29, 2021 from 5:00-7:00 p.m.** During this meeting, you will have the opportunity to meet the entire cleanup team and get an overview of the sites, the cleanup process and on-going work.

If you would like to attend, please contact me or Michael:
