Wisconsin Department of Natural Resources
Michigan Department of Health and Human Services
Wisconsin Department of Health of Health Services
Menominee County
Marinette County
Public Health, Delta & Menominee Counties
City of Menominee
City of Marinette

MENOMINEE, Mich. (October 10, 2022) – On Friday, October 7, emergency crews responded to a Menominee, Michigan fire at the Resolute Forest Products warehouse. City, state and federal officials today released an update on response activities.

- The fire is contained and under control. Portions of the warehouse facility adjacent to Resolute Forest Products continue to burn and fire suppression by local and regional fire departments are continuing.
- There have been no reports of fatalities or injuries related to the incident. Fire crews from several jurisdictions remain on-scene to monitor the site.
- On October 7, at 6 p.m., a precautionary shelter-in-place order was lifted for residents in Marinette downwind of the fire related to air emissions from the fire.
- On October 9, at 7 a.m., a precautionary shelter-in-place order was lifted for residents in Menominee downwind of the fire related to air emissions from the fire.
- U.S. Environmental Protection Agency (EPA) staff continue to conduct air monitoring and air sampling at the site and in the surrounding communities for common contaminants we know can be associated with industrial fires. No chemical compounds above health screening levels were detected.
- EPA is coordinating with the Michigan Department of Environment, Great Lakes, and Energy (EGLE) and Wisconsin Department of Natural Resources (DNR) on surface water sampling and testing related to potential run-off from the incident site to the Menominee wastewater treatment plant and adjacent Menominee River. EPA, state agencies and local water utilities are coordinating to implement sampling to confirm that there are no impacts to drinking water supplies and will share results as they become available.
- State and federal environmental agencies are also in communication with Resolute Forest Products and other industrial tenants of the warehouse to determine what chemicals were present in the warehouse at the time of the fire.

The incident is being handled under a unified command structure led by EPA. Agencies participating in the unified command are EGLE, Wisconsin DNR, Michigan Department of Health and Human Services (MDHHS), Wisconsin Department of Health of Health Services (DHS), Menominee County, Marinette County, Public Health, Delta & Menominee Counties, the cities of Menominee and Marinette, and the industrial tenants of the warehouse.

A joint information center has been established by the unified command to keep the public informed as response activities continue. The JIC will send updates to the press by 3 p.m. each day of the response.
