Re: Associated Electric Site, NHN000153866, Hillsborough, NH
Administrative Record Collection 67707

Dear Ms. Gallo,

The U.S. Environmental Protection Agency (EPA) announces that the Administrative Record for the second removal action at the Associated Electric Site, Hillsborough, NH (NHN000153866) is available for public review. EPA seeks to inform the public of the availability of the Administrative Record and to encourage the public to review and comment on it.

The Administrative Record is available for public review online at:

<https://cumulis.epa.gov/supercpad/cursites/cadminrecord.cfm?id=0153866>

This Administrative Record (Collection 67707) was prepared to support the Request for Removal Action Memorandum signed on June 28, 2024.

Any future amendments to the Administrative Record file will be available using the same URL, above.

Please contact the SEMS Records and Information Center at 617-918-1440 with technical questions pertaining to accessing the Administrative Record.

The Administrative Record is a collection of documents that form the basis for the selection of a removal action. The Administrative Record is required pursuant to the National Contingency Plan (NCP) [40 CFR 300 Subpart I](#). While the [2015 amendments](#) to the NCP now allow for electronic distribution of Administrative Records, the NCP still requires the EPA to establish a field repository that provides the public with access to the information available via the internet. Thank you cooperating with the United States Environmental Protection Agency to provide the public with this service.

Written comments on the Administrative Record file should be sent to: On-Scene Coordinator Ila White, white.ila@epa.gov, or to Mail Code 02-2, U.S. EPA Region I, 5 Post Office Square, Suite 100, Boston, MA, 02109-3912. Comments should be sent to the On-Scene Coordinator within 30 days of this announcement.

Again, I would like to thank you for kindly cooperating with the United States Environmental Protection Agency in serving as a Field Repository for the Associated Electric Site in Hillsborough, NH.

Sincerely,

Holly Inglis
Superfund Administrative Record Coordinator
