Re: Wampus Milford Associates Superfund Site
Administrative Settlement Agreement and Order on Consent
EPA Docket No. CERCLA-01-2007-0110
Approval of Final Confirmatory Soil Sampling Results

Dear Mr. Washburn:

I am in receipt of the *Demonstration of Compliance and Request for Approval of Confirmatory Sample Results, Wampus Milford Associates Site, Milford, Connecticut* ("Sample Results") that you forwarded to me on behalf of FCI USA, for the purpose of demonstrating achievement of the Removal Action clean-up standards established under the above-referenced Administrative Settlement Agreement and Order on Consent for Removal Action ("AOC") for the Wampus Milford Associates Superfund Site (the "Site").

The Sample Results document is dated November 8, 2007 and was submitted to EPA pursuant to Section II.5 of Appendix C to the AOC by e-mail on November 8, 2007 and by regular mail on November 9, 2007. The document was supplemented by the submittal of additional total and hexavalent chromium sampling results, provided to EPA by e-mail on November 13, 2007.

The purpose of this letter is to document EPA's approval of the final confirmatory soil sampling results referenced above. EPA acknowledges that compliance with the cleanup levels established for the Site pursuant to the AOC has been successfully demonstrated and approves your initiation of transportation and disposal activities and repair work to areas of the Site disturbed by response-related actions, in accordance with the AOC.

Please note that all excavated soil shall be transported off-site for disposal at EPA-approved disposal facilities within thirty (30) days of your receipt of this letter, as required by the AOC. In addition, all backfilling, grading, and other related activities shall be completed within the above-referenced thirty (30) day period.
