Subject: Amendment to Clean Water Act 311(c) Order Docket No.: OPA 311-09-2008-0004

Dear Ms. Whalen:

Due to the medical conditions of the primary Greka Project Manager for the work plans required under Clean Water Act 311(c) Order Docket No.: OPA 311-09-2008-0004, EPA is extending the following deadlines.

1. Work Plan 1 as required pursuant to Section 17a of the Order, will be due on May 1, 2008 by close of business.
2. The Sampling Plan as required pursuant to Section 17b of the Order, will be due on May 15, 2008.
3. Work must start no later than May 15, 2008. This amends the March 20, 2008 amendment to the Order.

Please note, that Greka or its contractor will be required to comply with all Santa Barbara County ordinances related to the demolition of the tank farm. Failure to procure the required permits by the May 15, 2008 deadline will not constitute an acceptable reason to not begin the cleanup.

If you have any technical questions, please do not hesitate to contact Federal On-Scene Coordinator Robert Wise at (562) 889 – 2572. Legal questions can be forwarded to Michael Massey, Office of Regional Counsel at (415) 972-3034.

Sincerely,

A handwritten signature in blue ink, which appears to read "Robert Wise", is written over a faint, larger blue ink signature that also appears to read "Robert Wise".

Robert Wise
