

Memo to Adjust Protection Levels
Section 6.0
H.A.S.P.

Protection levels for mercury cleanup operations for the Kidney Specialist of Savannah are set as follows:

Level B Operations: Greater than 50,000 ng/m³.

Level C Operations: Less than 50,000 ng/m³ but greater than 25,000 ng/m³.

Level D Operations: 24,999 ng/m³ or less.

These levels were set by Moran Environmental Recovery's On Site Safety Officer.
