

**United States Environmental Protection Agency
Region IV
POLLUTION REPORT**

Date: Friday, March 27, 2009

From: Terry Tanner

To: Jim McGuire, US EPA

Subject: Final POLREP

Plastech Winnsboro Site
396 State Highway 34 E, Winnsboro, SC
Latitude: 34.3411000
Longitude: -81.0811000

POLREP No.:	3	Site #:	A4YA
Reporting Period:	02/04/2009 thru 03/27/2009	D.O. #:	
Start Date:	2/4/2009	Response Authority:	CERCLA
Mob Date:		Response Type:	Emergency
Demob Date:	3/25/2009	NPL Status:	Non NPL
Completion Date:	3/25/2009	Incident Category:	Removal Action
CERCLIS ID #:		Contract #	
RCRIS ID #:			

Site Description

The Plastech facility located off of US Hwy 34 in Winnsboro, Fairfield County, South Carolina (Site) formerly produced plastic parts for domestic and foreign automobile manufactures. The facility ended operations in May 2008 and entered into bankruptcy.

South Carolina Department of Health and Environmental Conservation (SCDHEC) referred the Site to ERRB for removal site evaluation. Upon arrival on February 2, 2009, the EPA OSC discovered approximately 60 + unsecured drums, containers, and totes containing solvents, corrosives, and oil/greases. The OSC mobilized START and ERRS on February 3, 2009 to secure and stabilize the Site and coordinate disposal of the remaining waste.

Current Activities

Following a review of the bids for waste disposal, Environmental Enterprises Inc. and Giant Resource Recovery were selected for hazardous waste disposal. All non-hazardous waste was sent to CMEG Inc. The ERRS contractor arranged for the waste to be shipped by Environmental Options Inc. On March 25, 2009, the waste was loaded and transported to their respective disposal facilities for disposal. EPA and ERRS demobilized from the site on March 25, 2009.

Next Steps

Waste consisting of VOCs and hydraulic oil still remain on site. The majority of this waste is present in 1 gallon containers. However, there are two sumps within the building each of which contain approximately 500 gallons of used hydraulic oil. A prospective purchaser has agreed to collect and dispose of this waste in compliance with regulatory requirements.

Estimated Costs *

	Budgeted	Total To Date	Remaining	% Remaining
Extramural Costs				
ERRS - Cleanup Contractor	\$40,000.00	\$0.00	\$40,000.00	100.00%
RST/START	\$20,000.00	\$17,224.00	\$2,776.00	13.88%
Intramural Costs				
USEPA - Direct (Region, HQ)	\$10,000.00	\$0.00	\$10,000.00	100.00%
Total Site Costs				
	\$70,000.00	\$17,224.00	\$52,776.00	75.39%

* The above accounting of expenditures is an estimate based on figures known to the OSC at the time this report was written. The OSC does not necessarily receive specific figures on final payments made to any contractor(s). Other financial data which the OSC must rely upon may not be entirely up-to-date. The cost accounting provided in this report does not necessarily represent an exact monetary figure which the government may include in any claim for cost recovery.

Disposition of Wastes

Waste Stream	Quantity	Manifest #	Disposal Facility
Waste Flammable Liquids	5 gallons		Environmental Enterprises Inc.
Waste Corrosive Liquid	275 gallons		Environmental Enterprises Inc.
Waste Oxidizing Liquid	750 gallons		Environmental Enterprises Inc.
Waste Hydrogen Peroxide	900 gallons		Environmental Enterprises Inc.
Waste Corrosive Liquid	70 gallons		Environmental Enterprises Inc.
Waste Sodium Hydroxide	9600 gallons		Environmental Enterprises Inc.
Waste Sulfuric Acid	25 gallons		Environmental Enterprises Inc.
Waste Corrosive Liquid	750 gallons		Environmental Enterprises Inc.
Waste Flammable Liquid (Kerosene)	1250 gallons		Giant Resource Recovery
Waste Flammable Liquids (Toluene, Acetone, Xylene)	2800 gallons		Giant Resource Recovery
Solids and Liquids (Non-Hazardous)	9440 gallons		CMEG Inc.
