Site Description

See POLREP 1 for details

Current Activities

On June 15, 2007 OSC Brian Kelly, Trenton Fire Captain Jeff Bonkoski and Fire Marshall Dave Michalak conducted an assessment of the DSC site. During the assessment hundreds of drums, totes, lab chemicals, and other waste containers were found throughout the site. May of these containers were leaking, unsecured, and accessible to trespassers and the elements. Evidence of trespassing, graffiti, and fence-line breaches was documented (see website photos).

On June 27, OSC Kelly, Fire Marshall Michalak, City of Trenton official Virgil Maiani, U.S. Fish and Wildlife Agent Dan Sheill, and DEQ officials Richard Conforti, Dan Yordanich, Paul Ownes, Tom Sampson, Edward Novak, and Tracy Kecskemeti inspected the site.

Noted during the inspection were the same items identified on June 15, with the addition of dead birds in violation of the Migratory Bird Act and documentation of more than 1,000 unsecured (some leaking into the secondary containment) PCB capacitors.

On July 2, 2007, DSC agree to conduct removal action to secure, sample, segregate, and dispose of drums and containers of waste.

On January 31, 2008, under a voluntary action, DSC completed the disposal of 1091 containers and drums.

Planned Removal Actions

Removal of containers and drums complete. PCB transformers and capacitors still remain.

Next Steps

Negotiate Administrative Order on Consent to remove unused PCB equipment.

Estimated Costs *

	Budgeted	Total To Date	Remaining	% Remaining
Extramural Costs				
Intramural Costs				
Total Site Costs	\$0.00	\$0.00	\$0.00	0.00%

* The above accounting of expenditures is an estimate based on figures known to the OSC at the time this report was written. The OSC does not necessarily receive specific figures on final payments made to any contractor(s). Other financial data which the OSC must rely upon may not be entirely up-to-date. The cost accounting provided in this report does not necessarily represent an exact monetary figure which the government may include in any claim for cost recovery.
