Current Activities

EPA has two signed Action Memorandums: One for the Emergency Response portion (retroactive) and the second for Removal portion.

An Administrative Order on Consent was written and signed by the Potential Responsible Parties and EPA.

All documents are posted in Documents section.

EPA offered well testing to six nearby homes (see generic well testing offer in Documents section). Four residences accepted the offer however, one residence was not present on the day (June 11) EPA sampled well waters.

Well water samples were sent to a laboratory for analysis and preliminary results should be available the week of July 6.

Next Steps

Review well sampling results and provide residences with preliminary results. Qualitative preliminary results will be announced on the website and quantitative results will be posted once the final results have been received from the laboratory and have gone through a Quality Assurance/Quality Control procedure by EPA.

EPA will be reviewing workplan, sampling plan, QA/QC plan, and Health and Safety Plan (See SOW in Documents section).

Field work may begin by the end of July.

Key Issues

None.

Estimated Costs *

	Budgeted	Total To Date	Remaining	% Remaining
Extramural Costs				
Intramural Costs				
Total Site Costs	\$0.00	\$0.00	\$0.00	0.00%

* The above accounting of expenditures is an estimate based on figures known to the OSC at the time this report was written. The OSC does not necessarily receive specific figures on final payments made to any contractor(s). Other financial data which the OSC must rely upon may not be entirely up-to-date. The cost accounting provided in this report does not necessarily represent an exact monetary figure which the government may include in any claim for cost recovery.
