**Site Description**

See POLREP#1 for a full Site description

**Current Activities**

On September 25, 2009, EPA crews re-mobilized to the site to label drums and small containers by disposal group.

From September 28-30, 2009, all identified waste materials were removed from the Site. Additionally, an underground storage tank (UST) near Building #2 was drained of approximately 900 gallons of diesel contaminated water via a tanker truck and the waste liquid was transported off-site. All hazardous wastes were removed and sent to RCRA approved disposal facilities.

On October 1, 2009, all equipment was demobilized from the Site. In addition, a Site walk through was conducted and the keys were given to the City of Toledo's Division of Environmental Services.

**Planned Removal Actions**

None/Removal Complete

**Next Steps**

None/Removal Complete

**Key Issues**

The keys for the Site were turned over to the City of Toledo's Division of Environmental Services.

**Disposition of Wastes**

The following materials were removed from the Site during the Removal Action:

An estimated 22-tons of Non DOT, Non RCRA Regulated materials (PPE, RCRA empty drums, debris & solids); 255-gallons of waste flammable liquids; 85 pounds of waste flammable solids; 85-gallons of waste tetrachloroethylene; 110-gallons of waste paint related material; 85-gallons of waste methyl ethyl ketone; 55-gallons of waste liquid organic peroxide; 250 pounds of waste solid organic peroxide; 55-

gallons of waste corrosive liquid; 250 pounds of solid hazardous waste; 20 pounds of flammable aerosols; 900-gallons of diesel contaminated water; 500 pounds of solid toxic waste; 85-gallons of Non DOT, Non RCRA regulated material (assorted oils); and 165-gallons Non DOT, Non RCRA Regulated Material (water) (See Disposition of Waste Summary for complete details).
