Reporting Period:		D.O. #:	
Start Date:	10/23/2009	Response Authority:	CERCLA
Mob Date:	10/23/2009	Response Type:	Emergency
Demob Date:		NPL Status:	Non NPL
Completion Date:		Incident Category:	Removal Action
CERCLIS ID #:		Contract #	
RCRIS ID #:			

Site Description

This chrome-electroplater is located at 5491 Powder Springs Road, Austell, Georgia. On September 24, 2009, this area experienced high flood waters reaching the roof of the facility as evidenced by water marks and a drum on the roof of the building. Sweetwater Creek is adjacent to the property. The site includes two open warehouses and an office trailer, which were severely damaged by the flood. Outside of the warehouses there are two concrete pits, one circular and one rectangular, both containing liquid. These pits are believed to be part of the facility's waste water treatment system.

Current Activities

As of January 20, 2010, all chemical containers and overpacks, all bulked liquids and solid contamination from within the buildings on Site have been removed and properly disposed of. The Site is currently fenced and appropriate EPA notifications have been posted for public information access.

EPA's Technical Support Section (TSS) had provided a risk determination for this Site. The risk determination can be found in the documents section of the website.

Planned Removal Actions

EPA is currently processing an Action Memorandum to conduct a proposed removal action if approved. Upon approval of such action additional action and updates will be posted.

Estimated Costs *

	Budgeted	Total To Date	Remaining	% Remaining
Extramural Costs				
ERRS - Cleanup Contractor	\$150,000.00	\$68,784.11	\$81,215.89	54.14%
TAT/START	\$40,000.00	\$30,000.00	\$10,000.00	25.00%
Intramural Costs				
Total Site Costs	\$190,000.00	\$98,784.11	\$91,215.89	48.01%

* The above accounting of expenditures is an estimate based on figures known to the OSC at the time this report was written. The OSC does not necessarily receive specific figures on final payments made to any contractor(s). Other financial data which the OSC must rely upon may not be entirely up-to-date. The cost accounting provided in this report does not necessarily represent an exact monetary figure which the government may include in any claim for cost recovery.

Disposition of Wastes

Waste Stream	Quantity	Manifest #	Disposal Facility
Chromic Acid liquids	2462 gal		
Neutral Liquids	556		
Oil	550		
Basic Solids	318		
Basic Liquids	186		
Acidic Solids	28		
Cyanide Solids	8		
Non Haz debris	30 yd3
