**Site Description**

See Initial Pol Rep

**Current Activities**

On May 12, 2010 Region 4 signed a removal action memorandum to begin the fund lead removal. Please see the AM in the Documents section. Work at the Site began the week of May 26, 2010 with building inspections and demolition. Site work will include air monitoring and sampling of both soil and ground water.

**Planned Removal Actions**

The removal will include the demolition of the existing three buildings and an office trailer. Concrete and asphalt which exceeds the RAL's will also be removed. Surface water which contains hexavalent Chormium in concentratoins above the RAL will be collected and diaposposed of accordingly.

**Next Steps**

Review of data from soils and surface water beneath the concrete and asphalt.

**Key Issues**

City of Austell water discharge limits.

**Disposition of Wastes**
