CERCLIS ID:		RCRIS ID:	
ERNS No.:		State Notification:	
FPN#:	E10507	Reimbursable Account #:	

1.1.1 Incident Category

Emergency Response -- Mystery Spill

1.1.2 Site Description

see POLREP 1

1.1.2.1 Location

The AOC is located in an alleyway located directly south of 161 West Canal Street, Ottoville, Ohio.

1.1.2.2 Description of Threat

See POLREP 1

1.1.3 Preliminary Removal Assessment/Removal Site Inspection Results

Inspections indicated that gasoline product was migrating into the storm sewer and that replacement of the old clay storm sewer would remove the threat of oil migrating to the River as well as stopping the odors from migrating into the nearby businesses. All the affected storm sewer was replaced under a PRFA with the Village of Ottoville.

During the replacement of the storm sewer, evidence was found that gasoline was migrating to the storm sewer from the gasoline station. The gasoline station hired a contractor to investigate into the source of the spill.

2. Current Activities

2.1 Operations Section

2. Current Activities

2.1 Operations Section

2.1.1 Narrative

BJAAM installed additional monitoring wells and continues to recover free product from the wells established during the site investigation. No indoor odors have been reported by any of the nearby business owners.

2.1.2 Response Actions to Date

BUSTR continues to enforce ongoing activities at the site. The RP (through their contractors) continues to investigate into the source of the gasoline product and remove the free product from the wells on the gas station property.

2.1.4 Progress Metrics

<i>Waste Stream</i>	<i>Medium</i>	<i>Quantity</i>	<i>Manifest #</i>	<i>Treatment</i>	<i>Disposal</i>

2.2 Planning Section
