**1.1.1 Incident Category**

Time-Critical Removal Action of hazardous substances, including assessment for radiation contamination.

**1.1.2 Site Description**

Beta Chem Laboratory is a defunct radio-pharmaceutical synthesis lab.

**1.1.2.1 Location**

The Site is located at 14410 West 100th Street, Lenexa, Johnson County, Kansas. The Site is located in an industrial park. The Site is within a portion of a building in the Noon Industrial Park.

**1.1.2.2 Description of Threat**

See POLREP number 1.

**1.1.3 Preliminary Removal Assessment/Removal Site Inspection Results**

See POLREP number 1.

**2. Current Activities**

**2.1 Operations Section**

**2.1.1 Narrative**

A total of 1,134 chemical containers have been inventoried at the Site, most of which have intact labels believed to accurately reflect their contents. Of these 1,134 containers, 276 had hand written, indecipherable or missing labels. The contents of these containers were field screened and assigned hazard groups based on their properties. Virtually all of the surfaces in the lab, including the chemical containers, have elevated counts of radiation as measured with the Ludlum 2241 Meter equipped with a 44-9 "pancake" probe. Additionally, several radiation source materials have been identified and segregated at the Site. Liquid scintillation testing of the contents of containers confirmed a number of the chemicals have radioactive contamination mixed in with them.

Air monitoring results have not detected significant concentrations of volatile organic compounds as

measured with a photoionization detector. Additionally, the oxygen concentrations were found to remain constant at 20.9% and the percent of the lower explosive limit was zero. There were not any significant detections of airborne radiation contamination in samples collected onto air filters counted by the Ludlum Model 3030 Drawer Alpha-Beta Counter.

### 2.1.2 Response Actions to Date

Actions conducted during the period of August 18-29, 2014:

- An additional 6 samples were delivered to the laboratory for liquid scintillation counting.
- Data has been received from all of the 1,034 samples submitted for liquid scintillation counting.
- One of the 3 potential bids for disposal of toxic substances, reactive substances, and radioactive sources has been received.
- Chemicals are being separated into shipping groups in preparation for overpacking.

### 2.1.3 Enforcement Activities, Identity of Potential Responsible Parties (PRPs)

PRPs have been identified for the Site, including the operator of the facility and the owners of the building.

### 2.1.4 Progress Metrics

The waste streams for the site are listed below. Ongoing research by site personnel and disposal companies will determine the final waste streams.

| <i>Waste Stream</i>               | <i>Medium</i> | <i>Quantity</i> | <i>Manifest #</i> | <i>Treatment</i> | <i>Disposal</i> |
|-----------------------------------|---------------|-----------------|-------------------|------------------|-----------------|
| waste flammable liquids, organic  | liquid        | 30 gallons      | 011814214         |                  |                 |
| flammable                         | solid         |                 |                   |                  |                 |
| waste, corrosive, acid, inorganic | liquid        | 2 gallons       | 011814187         |                  |                 |
| waste, corrosive, base, inorganic | liquid        | 2 gallons       | 011814187         |                  |                 |
| waste, corrosive, base, inorganic | solid         | 2 gallons       | 011814187         |                  |                 |
| waste, corrosive, acid, organic   | liquid        | 2 gallons       | 011814187         |                  |                 |
| oxidizer                          | solid         |                 |                   |                  |                 |
| oxidizer                          | liquid        |                 |                   |                  |                 |
| organic peroxide                  | solid         |                 |                   |                  |                 |
| water reactive                    | solid         |                 |                   |                  |                 |
| water reactive                    | liquid        |                 |                   |                  |                 |
| air reactive                      | solid         |                 |                   |                  |                 |
| mixed waste                       | s, l, g       |                 |                   |                  |                 |
| waste toxic, liquid               | liquid        | 5 gallons       | 011814214         |                  |                 |
| radioactive                       | s, l          |                 |                   |                  |                 |

## 2.2 Planning Section

### 2.2.1 Anticipated Activities

Overpack chemicals to conform to shipping requirements.

#### 2.2.1.1 Planned Response Activities

Overpack chemicals waste streams based on disposal criteria and dispose of hazardous materials off site. Finalize radiological assessment of the Site.

#### 2.2.1.2 Next Steps

Determine best disposal method based on bids from disposal contractors.

### 2.2.2 Issues

N/A

## **2.3 Logistics Section**

N/A

## **2.4 Finance Section**

No information available at this time.

## **2.5 Other Command Staff**

### **2.5.1 Safety Officer**

Doug Ferguson, EPA  
Aaron Roski, ERRS  
Danny O'Connor, START

### **2.5.2 Liaison Officer**

Doug Ferguson

### **2.5.3 Information Officer**

Chris Whitley

## **3. Participating Entities**

### **3.1 Unified Command**

N/A

### **3.2 Cooperating Agencies**

Kansas Department of Health and Environment

## **4. Personnel On Site**

Doug Ferguson, EPA OSC  
Chuck Hooper, EPA HP  
Danny O'Connor, EPA START  
Aaron Roski, EPA ERRS  
Jessie Fondereu, EPA ERRS

## **5. Definition of Terms**

No information available at this time.

## **6. Additional sources of information**

No information available at this time.

## **7. Situational Reference Materials**

No information available at this time.
