**Site Description**

Single 55 gallon steel drum discovered along Tennessee River shoreline behind residential property. Address: 214 Travel Path Road, Rogersville, AL

**Current Activities**

EPA OSC Spurlin, assisted by ADEM, conducted site investigation. Drum sample collected. Neutral pH. Drum was approx 2/3 full, containing a clear liquid material suspected to be mineral spirits or similar compound.

**Planned Removal Actions**

Task Order initiated for Kemron to use nearby team sub, SWS. Sample delivered to SWS. Sample to be analyzed and disposal bids obtained.

**Next Steps**

Await lab data and disposal info.
