Current Activities

****March 31, 2005: All equipment was demobilized from the site. The remainder of the recovered oily water was disposed of this same date, bringing the total amount recovered and disposed to 9,545 gallons (of which approximately 250 gallons were oil).

****April 7, 2005, 2.59 tons (18 cubic yards) of solid debris and absorbents were disposed of off site to a treatment, storage, and disposal facility.

Police and public works assisted in investigating the storm drain system and suspected parties during the initial stages of the response. Subsequently the Oregon DEQ investigated other facilities in the vicinity based on filed complaints and performed a records review to attempt to locate the source. No source was ever identified.

Oil removal completed.
