1.1.1 Incident Category

Abandoned leather tannery.

1.1.2 Site Description

The Site is a former family-owned leather tannery that had been operating as such since 1976. Eighty percent of its business was contracts with the Dept. of Defense. Prior to that it was owned/operated as Knox Gelatin factory. In 2009 Carville Leather experienced a series of minor fires that caused brief business interruption. In 2012, following a major downturn of military contracts, business began to suffer and the company began a rapid fiscal decline. In 2013 the tannery closed its doors and the owner filed for Chapter 11 (reorg) bankruptcy protection, but there is no record of any actual reorganization of the business. No property taxes have been paid since 2012, and the Site appears, for all intents and purposes, to have been abandoned by its owners.

1.1.2.1 Location

The Site is located in a heavily treed, partial residential neighborhood. It is surrounded by trees on three sides and the Cayadutta Creek, a navigable waterway of the US, borders the site on the south side of the property. A former RR right-of-way which was converted to a bike/walking trail, also borders the Site on the south side of the property adjacent to the creek.
