**Site Description**

Soil sampling conducted in conjunction with a major PCB contamination removal revealed residential soil lead concentrations equal to or above the EPA Region 4 residential action level of 400 parts per million (ppm).

As a result, EPA has sampled approximately 2,150 properties (residential, parks, school areas, etc;) to access lead contamination. Soil samples with lead levels equal to or above 400 ppm have been identified for removal under this action with priority being given based on a combination of soil lead levels and presence of sensitive receptors such as children and pregnant women.

**Estimated Costs \***

|                                 | <b>Budgeted</b>       | <b>Total To Date</b>  | <b>Remaining</b>    | <b>% Remaining</b> |
|---------------------------------|-----------------------|-----------------------|---------------------|--------------------|
| <b>Extramural Costs</b>         |                       |                       |                     |                    |
| ERRS - Cleanup Contractor       | \$5,115,500.00        | \$5,061,617.00        | \$53,883.00         | 1.05%              |
| START-2, Tetra Tech EM, Inc.    | \$493,000.00          | \$474,883.00          | \$18,117.00         | 3.67%              |
| START-2, Weston Solutions, Inc. | \$800,000.00          | \$698,000.00          | \$102,000.00        | 12.75%             |
| Habitat for Humanity            | \$30,000.00           | \$25,812.00           | \$4,188.00          | 13.96%             |
| <b>Intramural Costs</b>         |                       |                       |                     |                    |
|                                 |                       |                       |                     |                    |
| <b>Total Site Costs</b>         | <b>\$6,438,500.00</b> | <b>\$6,260,312.00</b> | <b>\$178,188.00</b> | <b>2.77%</b>       |

\* The above accounting of expenditures is an estimate based on figures known to the OSC at the time this report was written. The OSC does not necessarily receive specific figures on final payments made to any contractor(s). Other financial data which the OSC must rely upon may not be entirely up-to-date. The cost accounting provided in this report does not necessarily represent an exact monetary figure which the government may include in any claim for cost recovery.
