POLLUTION REPORT

Date: Thursday, March 27, 1997

From: Craig Myers

Subject: Progress POLREP
Aspen Park Solvents
Aspen Park, Conifer, CO
Latitude: 39.5414000
Longitude: -105.2936000

POLREP No.:	6	Site #:	08-6D
Reporting Period:		D.O. #:	
Start Date:	10/25/1994	Response Authority:	CERCLA
Mob Date:		Response Type:	Time-Critical
Demob Date:		NPL Status:	Non NPL
Completion Date:		Incident Category:	Removal Action
CERCLIS ID #:		Contract #	
RCRIS ID #:			

Current Activities

The design of a source removal system was finalized and presented to residents and county officials. The system consists of three pumping wells, 6 reinjection wells, and a treatment building containing an air stripper and carbon polishing. The building is constructed, equipment installed, startup procedures initiated, and the system is operating as of 3/18/97 (initial output = 7.1 gallons per minute).

Next Steps

Closely monitor the removal system during the start-up period and continue to monitor the CCl₄ plume.
