

**United States Environmental Protection Agency  
Region VIII  
POLLUTION REPORT**

**Date:** Thursday, December 22, 1994

**From:** Craig Myers

**To:** Taylor Bowker, US EPA R8

**Subject:** Progress POLREP  
Aspen Park Solvents  
Aspen Park, Conifer, CO  
Latitude: 39.5414000  
Longitude: -105.2936000

<b>POLREP No.:</b>	2	<b>Site #:</b>	08-6D
<b>Reporting Period:</b>		<b>D.O. #:</b>	
<b>Start Date:</b>	10/25/1994	<b>Response Authority:</b>	CERCLA
<b>Mob Date:</b>		<b>Response Type:</b>	Time-Critical
<b>Demob Date:</b>		<b>NPL Status:</b>	Non NPL
<b>Completion Date:</b>		<b>Incident Category:</b>	Removal Action
<b>CERCLIS ID #:</b>		<b>Contract #</b>	
<b>RCRIS ID #:</b>			

**Site Description**

The Site is a residential sub-division near Conifer, Colorado. The Site consists of residences and buildings/businesses typical of a small mountain community.

In 1994 a sampling of a drinking water well by the Colorado Department of Health (CDH), in accordance with Colorado drinking water regulations for "non-transient non-community" systems, showed the well containing CCl4 in concentrations (9 parts per billion [ppb]) above the Maximum Contaminant Level (MCL) [5 ppb]. Four other drinking water wells within a 1/2 mile radius also were tested with no detections of CCl4.

**Current Activities**

On 10/25/94, EPA 8 initiated the Removal and began supplying bottled water to 25 residences. During November, EPA 8 conducted two community/public meetings so as to provide updates to the local residents.

A Treatability Study, to determine the best method of removing the CCl4 from the water system was conducted by the EPA-ERT.

Surface geophysics were conducted by the EPA-ERT, and EPA-TAT arranged for aerial photographs/surveys of the area.

**Planned Removal Actions**

Determine the number of homes requiring remediation (when compared to the threshold/triggering criteria), and install the required treatment systems.

**Next Steps**

Continue with Site investigations, using downhole geophysics.

**Estimated Costs \***

	<b>Budgeted</b>	<b>Total To Date</b>	<b>Remaining</b>	<b>% Remaining</b>
<b>Extramural Costs</b>				
ERRS - Cleanup Contractor	\$342,000.00	\$0.00	\$342,000.00	100.00%
RST/START	\$60,000.00	\$0.00	\$60,000.00	100.00%
<b>Intramural Costs</b>				

USEPA - Direct (Region, HQ)	\$131,400.00	\$0.00	\$131,400.00	100.00%
<b>Total Site Costs</b>	\$533,400.00	\$0.00	\$533,400.00	100.00%

\* The above accounting of expenditures is an estimate based on figures known to the OSC at the time this report was written. The OSC does not necessarily receive specific figures on final payments made to any contractor(s). Other financial data which the OSC must rely upon may not be entirely up-to-date. The cost accounting provided in this report does not necessarily represent an exact monetary figure which the government may include in any claim for cost recovery.
