Site Description

See POLREP #2 for site description.

Current Activities

The week of June 2, 2008, ERRS shipped off an additional 281.29 tons of soil to the approved Sand Valley Landfill in Collinsville, Alabama. All of the excavated areas were backfilled, graded, and seeded. START documented Site activities and collected a confirmatory sample of the excavated area.

EPA secured the Site and demobilized all ERRS and START personnel and equipment from the area on June 6, 2008. Final disposition of the waste streams addressed during this removal action are summarized below.

Key Issues

No further EPA actions are anticipated.

Disposition of Wastes

Wastestreams disposed during this action included the following:

1,516.91 tons of treated soil and ash in April 2008;

822.88 tons of treated soil and ash in May 2008;

281.29 tons of soil in June 2008.

Total tons shipped for entire project was 2,621.08 tons

Waste Stream	Quantity	Manifest #	Disposal Facility
Soil	281.29 tons		Sandvalley Landfill in Collinsville, Alabama
